

Faculty of Engineering and Information Technology Selection Criteria for Undergraduate 2011 Universities Admissions Centre (UAC) Courses

Bachelor of Information Technology

Selection criteria applying to the Bachelor of Information Technology is outlined below.

Course title	UAC Code
Bachelor of Information Technology	603210

Current School Leaver Selection

Applicants for the Bachelor of Information Technology will be selected on a combination of Australian Tertiary Admission Rank (ATAR), written application and interview. In addition to applying through UAC, applicants must submit a Bachelor of Information Technology Application Questionnaire. The information given in the questionnaire will be used to select applicants for interview.

Visit <http://www.it.uts.edu.au/course/scholarship/bit/apply.html> for information on how to apply.

Non Current School Leaver Selection

As this course is intended for current school leavers, very few non-current school leaver applicants are considered. These few are assessed individually. In addition to meeting the current school leaver criteria, applicants must demonstrate their motivation for applying for this course. Non-current school leaver applicants must apply through UAC, as well as submit a Bachelor of Information Technology Application Questionnaire.

See <http://www.uts.edu.au/study/additional.html> for the definitions of current and non-current school leaver.

This course is not available to international students.
