UTS PROFILE

The University of Technology, Sydney, is committed to freedom of inquiry, equality of opportunity, the pursuit of excellence in teaching, research and scholarship, and interaction with industry.

UTS was originally established as the New South Wales Institute of Technology in 1965. In 1988, it attained university status and was joined by the School of Design of the Sydney College of the Arts. The University resulted from amalgamations brought about by the restructuring of the higher education sector in the late 1980s. In January 1990, the Kuring-gai College of Advanced Education, the Institute of Technical and Adult Teacher Education of the Sydney College of Advanced Education and the 'old' UTS formed the new University of Technology, Sydney.

The purpose of the University is outlined in the *University of Technology, Sydney, Act 1989* (NSW) and in the constitutions of its controlled entities.

UTS is a multicampus university spread over two locations in the Sydney metropolitan area: City campus incorporates buildings at a number of locations close to the city centre; Kuring-gai campus is in a bushland setting on Eton Road, Lindfield, 15 kilometres north of the city.

With a total enrolment of approximately 30,500 students, UTS is one of the largest universities in Australia. UTS places a strong emphasis on workplace experience, incorporating the latest industry practice and professional standards into its curriculum. To achieve this, the University has entered into partnership with a range of industry bodies, corporations and government authorities. As a result, UTS graduates are among the most highly sought after in Australia.

UTS ORGANISATIONAL STRUCTURE

UTS COMMITTEE STRUCTURE

GOVERNANCE AT UTS

The University of Technology, Sydney, was established by the *University of Technology, Sydney, Act 1989* No 69 (UTS Act), which replaced the *University of Technology, Sydney Act 1987* and the *University of Technology, Sydney (Miscellaneous Provisions) Act 1987*.

The UTS Act is published in chapter 4 and at: www.gsu.uts.edu.au/legislation/act/act.html

The object and functions of the University are outlined in section 6 of the Act.

Council, the governing body

The University is governed by a 20-member Council, including elected and appointed members who have the expertise and background relevant to the governance needs of the University. The Council's powers are set out in the UTS Act and relevant By-law and Rules.

The Council meets at least six times a year and is chaired by the Chancellor, who is elected by the Council from among its members. Elected members of Council serve for two years and appointed members for four years.

The Vice-Chancellor and President (UTS Chief Executive Officer) is an ex officio member of Council and the Council governs the University with and through the Vice-Chancellor. In addition to the Vice-Chancellor's key role in advising Council, the Council is also advised by its standing committees. Council makes external appointments with relevant expertise to key committees, for example, the Audit and Risk, Finance, and Governance committees.

Academic Board

Council has delegated to Academic Board a range of powers for academic matters. Academic Board, a major committee of Council and the primary forum in the University for the discussion and resolution of academic matters, has the power to determine academic policies within the University, and decide on the introduction, review, accreditation and discontinuation of award programs and eligibility for admission requirements.

Governance principles

To improve governance across UTS, the University's Council has adopted a set of governance principles. Offering a framework to be applied at all levels of the University's governance, the principles are to:

- focus on the University's purpose and goals
- perform effectively in clearly defined roles and responsibilities
- promote and act in accordance with UTS guiding principles
- make informed, transparent decisions within UTS accountability systems
- develop the effectiveness of the UTS Council and others responsible for governance
- recognise and engage the relevant interests of the University's stakeholders.

This framework is being used in the ongoing improvement of governance structures and processes.

STRATEGIC PLAN

The vision, direction and priorities of the University are set out in the Strategic Plan 2009–2018.

The vision of UTS is to be a 'world-leading university of technology'. This requires UTS to have a national and international reputation for outstanding teaching and learning programs and facilities as well as a solid track record in research to benefit our students in their chosen profession and society more broadly.

To support its vision and reputation, UTS focuses on the following objectives:

- strengthen the standing of the UTS model of practice-oriented learning
- increase the scale, quality and impact of research in our discipline fields
- enhance our strong, inclusive university environment through providing state-of-the-art learning, research and social spaces, infrastructure and services
- build the capabilities of our people and processes to sustain and improve performance into UTS's third decade and beyond.

In 2013, these objectives will be reviewed to ensure they continue to progress UTS towards the 2018 horizon for achievement of the vision.

An important part of the UTS Strategic Plan is the statement of UTS values: Discover, Engage, Empower, Deliver and Sustain. These values guide the behaviours that support UTS in achieving its vision.

Quorum

10. The quorum at any meeting of the Council shall consist of a majority of the total number of members for the time being of the Council.
11. If no quorum is present within 30 minutes of the time appointed for the meeting to commence, all business which should have been transacted at that meeting shall stand over until the next ordinary meeting of the Council, in which case, the business which was to have been dealt with at the meeting lacking a quorum shall take precedence over the business of the ordinary meeting, unless a special meeting is called in the meantime for the transaction of that business.
12. Once a meeting of the Council has commenced with a quorum, there shall be deemed to be a quorum thereafter, unless the lack of a quorum is drawn to the Chair's attention by a member of the Council. On the Chair's attention being drawn to the lack of a quorum he/she shall adjourn the meeting for five minutes. If at the expiration of five minutes there still is no quorum the Chair shall adjourn the meeting to another time or place.

Minutes

13. The Registrar shall keep a record of each meeting which shall be entered in a minute book and at each meeting the minutes of the preceding meeting shall:
 - (a) be read unless copies thereof have been previously circulated to members;
 - (b) be confirmed or confirmed as amended; and

15. Meetings shall, subject to the presence of a quorum, start at the time set out in the notice of meeting, and shall, subject to the discretion of the Chair, continue until all business on the agenda has been disposed of, except that the agreement of the Council shall be necessary for the duration of the meeting to exceed three hours.
16. No member of the Council shall initiate any matter for debate or move any motion in respect of such matter, other than a matter on the agenda, unless the Council otherwise determines.
17. At meetings of the Council voting shall be by show of hands, and
 - (a) any question shall be decided by a majority of the members present; and
 - (b) the Chair shall have a deliberative vote, and, in the event of any equality of votes, a casting vote.
18. A motion or amendment before the Chair shall not be withdrawn except by the mover thereof and by leave of the seconder and of the Council, provided that no motion shall be withdrawn while any amendment is under discussion or after any amendment has been adopted.

19. A motion or amendment before the Chair may be reworded by the mover subject to leave of the Council.
20. No member of the Council shall speak more than once to any question, save that the mover of the motion (but not of an amendment) shall have the right of reply, which reply shall close the debate. For the purposes of this Order an amendment shall constitute a separate question from the original motion and from any other amendment.
21. When an amendment is before the Chair, discussion shall be confined to that amendment, and no further amendment shall be proposed until the amendment before the Chair has been disposed of.
22. Any member of the Council may raise a point of order which shall take precedence over all other business, and which shall be open to discussion. The point must be raised at the time the alleged irregularity occurred.
23. Any member of the Council disagreeing with the Chair's ruling on a point of order may move dissent. Such motion shall be put forthwith without debate.
24. Any member of the Council who has not already participated in the debate on any matter may, at any time, whether another speaker has the floor or not, move 'That the question be now put', which motion, if accepted by the Chair, shall be put without amendment or debate. The Chair shall have an absolute discretion to accept or refuse the motion. If the motion is put during debate on an amendment, the motion shall close debate on the amendment only.

Closed session

25. The Council may, if it so wishes and provided that a quorum is present, resolve itself 'into committee' and/or go 'into closed session', whereupon all non-members who are present shall, with the exception of the Council officers, Deputy Vice-Chancellors, and such other non-members as the Council may, from time to time, determine, be required to leave the room and shall not be readmitted until the Chair declares that open session has been resumed.

Adjournment

26. The Chair may, with the consent of the Council, and shall, if so directed by the Council, adjourn the meeting from time to time and from place to place, but no business shall be transacted at an adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place. When a meeting is adjourned for 10 days or more, notice of the adjourned meeting shall be given as for an ordinary meeting. Save as aforesaid it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

30. Council may, by resolution, decline permission for an official attendee or an observer to be present for all or any part of a meeting.

31. Tabled papers shall not be distributed to anyone, including members, official attendees or observers prior to a meeting.

10. The quorum at any meeting of the Academic Board shall consist of a majority of the total number of members of the Academic Board.
11. If no quorum is present within 30 minutes of the time appointed for the meeting to commence, all business which should have been transacted at that meeting shall stand over until the next ordinary meeting of the Academic Board, in which case the business which was to have been dealt with at the meeting lacking a quorum shall take precedence over the business of the ordinary meeting, unless a special meeting is called in the meantime for the transaction of that business.

12. Once a meeting of the Academic Board has commenced with a quorum, there shall be deemed to be a quorum thereafter, unless the lack of a quorum is drawn to the Chair's attention by a member of the Academic Board. On the Chair's attention being drawn to the lack of a quorum she/he shall adjourn the meeting for five minutes. If at the expiration of five minutes there still is no quorum, the Chair shall adjourn the meeting to another time or place.

Starring of items

13. Before the commencement of the general business of the Board's agenda, starring of items is invited by the Chair. Starring is a meetings procedure adopted by the University to ensure that the whole agenda is covered, where possible, at the one meeting and that those items considered to require further report and discussion are accorded an appropriate amount of time within the constraints of a reasonable meeting time duration which is, usually, up to three hours. Items which are not starred would be adopted straight after resolving on which items should be starred.
Any member may star an agenda item for discussion.

Minutes

14. The Registrar shall keep a record of each meeting which shall be entered in a minute book and at each meeting the minutes of the preceding meeting shall:
 - (a) be read unless copies thereof have been previously circulated to members;
 - (b) be confirmed or confirmed as amended; and
 - (c) be signed by the Chair as confirmed with or without amendment.

Conduct of meetings

15. The order of business at any meeting of the Academic Board shall follow that set out in the agenda unless the Academic Board otherwise determines.
16. Meetings shall, subject to the presence of a quorum, start at the time set out in the notice of meeting, and shall, subject to the discretion of the Chair, continue until all business on the agenda has been disposed of, except that the agreement of the Academic Board shall be necessary for the duration of the meeting to exceed three hours.
17.
 - (a) No member of the Academic Board shall initiate any matter for debate or move any motion in respect of such matter, other than a matter on the agenda, unless the Academic Board otherwise determines.
 - (b) To ensure that Board members have adequate time to consider matters for resolution, papers should not be tabled at a meeting. However if, after consulting with the Registrar, the Chair believes the Board may wish to determine whether it will receive a tabled paper, an opportunity to do so will be provided at agenda item 4, Receipt of Tabled Papers. Tabled papers received by the Board will be considered in sequence, whether starred or not. Tabled papers not received by the Board will normally be distributed with papers for the next meeting of the Board and considered at that meeting.

18. At meetings of the Academic Board voting shall be by show of hands, and
 - (a) any question shall be decided by a majority of the members present; and
 - (b) the Chair shall have a deliberative vote, and, in the event of any equality of votes, a casting vote. (Please refer to Standing Orders 26–38, with regard to elections held at meetings.)
19. A motion or amendment before the Chair shall not be withdrawn except by the mover thereof and by leave of the seconder and of the Academic Board, provided that no motion shall be withdrawn while any amendment is under discussion or after any amendment has been adopted.
20. A motion or amendment before the Chair may be reworded by the mover subject to leave of the Academic Board.
21. No member of the Academic Board shall speak more than once to any question, save that the mover of the motion (but not of an amendment) shall have the right of reply, which reply shall close the debate. For the purposes of this Order an amendment shall constitute a separate question from the original motion and from any other amendment.
22. When an amendment is before the Chair, discussion shall be confined to that amendment, and no further amendment shall be proposed until the amendment before the Chair has been disposed of.
23. Any member of the Academic Board may raise a point of order which shall take precedence over all other business, and which shall be open to discussion. The point must be raised at the time the alleged irregularity occurred.
24. Any member of the Academic Board disagreeing with the Chair's ruling on a point of order may move dissent. Such motion shall be put forthwith without debate.
25. Any member of the Academic Board who has not already participated in the debate on any matter may, at any time, whether another speaker has the floor or not, move 'That the question be now put', which motion, if accepted by the Chair, shall be put without amendment or debate. The Chair shall have an absolute discretion to accept or refuse the motion. If the motion is put during debate on an amendment, the motion shall close debate on the amendment only.
29. Notification of a possible election shall normally be by its inclusion in an item on the agenda for that meeting.
30. Nominations shall normally be called for ten working days prior to the meeting and shall close at 5 p.m., two working days prior to the meeting. Nominations should include the name of the nominator, the nominee, and the position for which the person is being nominated. The nominee must have agreed to the nomination prior to its submission. Any nominations received after the deadline stipulated in the call for the nominations, will not be accepted.
31. An election to be held at the meeting shall be deemed to be necessary when the number of nominations received exceeds the number of positions to be filled.
32. All voting shall be by the quota preferential system.
33. Ballot papers shall be distributed to members at the meeting.
34. Voters shall be required to enter each candidate's name next to a box on the ballot paper in the order of nominations received.
35. Voters shall be instructed to place the figure '1' in the box next to the candidate of first preference. Voters may then place consecutive figures (commencing with the figure '2') in the boxes opposite the names of the remaining candidates, so as to indicate by numerical sequence the order of preference for them.
36. Ballot papers shall be collected at the meeting. The Returning Officer shall determine whether it is feasible to count ballot papers and declare the elections during the meeting. If the Returning Officer determines that this cannot be done, the Chair and the candidates will be informed of the result as soon as possible after the meeting and the Board shall be notified at the subsequent meeting.
37. The results of an election held at a meeting shall be published in the minutes of Academic Board.
38. The manner of counting votes. Votes will be counted in accordance with Rule G3 Part 3(32).

Closed session

39. The Academic Board may, if it so wishes and provided that a quorum is present, resolve itself 'into committee' and/or go 'into closed session', whereupon all non-members who are present shall, with the exception of those non-members as the Academic Board may, from time to time, determine, be required to leave the room and shall not be readmitted until the Chair declares that open session has been resumed.

Adjournment

40. The Chair may, with the consent of the Academic Board, and shall, if so directed by the Academic Board, adjourn the meeting from time to time and from place to place, but no business shall be transacted at an adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place. When a meeting is adjourned for 10 days or more, notice of the adjourned meeting shall be given as for an ordinary meeting. Save as aforesaid it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

Where elections are held at meetings

26. The Registrar shall be the Returning Officer for all Academic Board elections and may appoint a Deputy Returning Officer who shall have the powers of the Returning Officer in the absence of, or when delegated by, the Returning Officer.
27. The elected membership of the committees of Academic Board is open to all full- and fractional-time academic staff and all students, regardless of whether they are members of Academic Board, except that the Chair of any such committee shall be a member of the Board and from time to time the Board may require other members of committees to be appointed or elected from the Board.
28. Only members of Academic Board, present at the meeting, are eligible to vote at elections held at meetings.

Attendance at Academic Board meetings

41. A. Any member of the academic staff and officers of the University may attend Academic Board meetings to speak to any agenda item, provided prior permission has been obtained from the Chair of the Board.
- B. Directors and other UTS officers identified by the Executive Committee of Academic Board, in consultation with the senior management of the University as appropriate, will be alerted to the online availability of Academic Board papers, and have a standing invitation to attend meetings and participate in discussion as appropriate to their expertise and area of responsibility.

Open meetings

42. (1) Meetings of the Academic Board shall be open to members of the University, that is, staff (including members of staff who are involved in media liaison), students and graduates, who may attend meetings of the Board as observers and shall be admitted subject to the availability of space. Observers shall not be accorded speaking rights.
- (2) (a) An alternate member may attend meetings of Academic Board in place of the member who nominated the alternate member (see Rules relating to Academic Board, Division 1). Alternate members are entitled to be included on the distribution list for receipt of agenda papers for Academic Board meetings and to attend and vote at meetings of Academic Board if the member who nominated the alternate member is not present.
- (b) When both the elected member and the alternate member are present at a meeting of Academic Board, only the elected member has speaking and voting rights.
- (3) (a) If an elected student member is unable to attend a meeting of the Board, the relevant Faculty Board is responsible for requesting the alternate member to attend that meeting in place of the student member. The Faculty Board is also responsible for notifying the Clerk to Academic Board that the alternate will be in attendance.
- (b) Immediately prior to the commencement of a meeting of Academic Board, or as soon as possible thereafter but during the meeting, an alternate member who is attending in place of a member shall confirm that attendance with the Clerk to Academic Board.

- (c) When both the member and the alternate are unable to attend a meeting of Academic Board, the member is responsible for notifying the Clerk to Academic Board that the absence will not be covered by the alternate member and the member's formal apology will be registered.
- (d) If, for three consecutive meetings of Academic Board, neither the student member nor the alternate member has attended and the student member has not registered a formal apology with the Clerk to Academic Board for any of those meetings, the membership of the student member lapses, and that of the alternate member with it (see Rule 4 in the Rules Relating to Academic Board).

Communication of Academic Board decisions

43. A report of major items discussed by the Board shall be published on the UTS web site.
- Individual advisings of the outcomes of the Board's deliberations shall be prepared by the Clerk to Academic Board and forwarded to those persons whose attention particularly needs to be drawn to any resolution of the Board, either in order to note or to action that resolution. Such advising shall be forwarded to the Dean or Head of School concerned for further referral to appropriate members of staff, as necessary.

General

44. Standing Orders 1–43 or any of them may be suspended by a majority of those present at a meeting of the Academic Board. A motion to that effect shall be open to debate.
45. Notwithstanding anything hereinbefore contained, any decision made by a validly constituted meeting shall not be void by reason only of a departure from these Standing Orders which was not detected until after the decision was made.
46. Any matter not dealt with in these Standing Orders shall be governed by the customary procedure at meetings.
47. The Chair shall take executive action on behalf of the Board:
- to recommend to Council amendments to graduands' lists;
 - to discuss with the Vice-Chancellor proposals for new or vacant chairs and, if so inclined, to agree or disagree with such proposals; and
 - in other pre-determined circumstances.

At the earliest opportunity, the Chair shall report to the Board on the exercise of this authority.

Committees of the Academic Board

48. Subject to the Act and the By-law the Academic Board may:
 - (a) appoint such committees consisting of such persons whether members of Academic Board or not, as it thinks fit; and
 - (b) confer or impose upon a committee appointed under subclause (a) such powers and duties as it may from time to time determine.
49. The Registrar shall be secretary to the committees of the Academic Board.
50. Not less than seven days' notice personally or in writing of an ordinary meeting of an Academic Board committee shall be given by the Registrar to members of the committee setting out the time and place of the meeting and the agenda.
51. Not less than three days' notice personally or in writing of a special meeting of an Academic Board committee shall be given by the Registrar to members of the committee setting out the time and place of the meeting and the agenda.
52. A meeting of an Academic Board committee may be held at any time if all members of the committee so agree.
53. The quorum at any meeting of an Academic Board committee, shall, unless another number is fixed for a particular committee, be one-half of the members of the committee or board for the time being but, if one-half is not a whole number, shall be the next higher whole number.
54. These Standing Orders shall be applicable as appropriate to the conduct of meetings of the committees of the Academic Board.
55. The Registrar shall keep a record of each meeting which shall be entered in a minute book and at each meeting the minutes of the preceding meeting shall:
 - (a) be read unless copies thereof have been previously circulated to members;
 - (b) be confirmed or confirmed as amended; and
 - (c) be signed by the Chair as confirmed with or without amendment.

FACULTY BOARDS

1. General

Each faculty of the University has a Faculty Board. The Faculty Board constitutes the primary forum in the faculty for the discussion and resolution of academic issues and matters.

Academic Board determines the structures and functions of Faculty Boards except Faculty Boards' authority to act on specific matters which require Council's delegated authority.

2. Duties and powers

2.1 Subject to the Rules and the resolutions of the Council and Academic Board, including the strategic direction and priorities set for the University, a Faculty Board has a responsibility to assess the quality of, and provide direction to, the academic work of the Faculty including teaching, learning, scholarship, research and research training.

2.2 In particular a Faculty Board:

- (i) is charged with advising the Academic Board and the Dean and other senior officers of that faculty on matters such as the strategic academic direction of the faculty, academic standards, academic quality assurance and management of academic risk.
- (ii) shall exercise such responsibilities and powers as are assigned to it by Academic Board and Council from time to time, and consider and report on all matters which are referred to it by the Academic Board, the Vice-Chancellor or the Dean of the faculty, and make recommendations where appropriate;
- (iii) shall consider proposals for the introduction of new courses and major changes to existing courses, re-accreditation or discontinuation of existing courses, changes to course nomenclature or course classification and make recommendations on these to the Vice-Chancellor and the Academic Board as appropriate;
- (iv) shall maintain and develop courses to ensure a vital and contemporary relationship between the faculty and the professional fields which it seeks to serve;
- (v) may refer any matter to a relevant sub-committee of the board or an academic unit of the faculty, for report;
- (vi)
 - (a) may establish such committees as it deems appropriate to assist the Faculty Board's work;
 - (b) it is not required that any or all of the members of a committee are members of the Faculty Board;
 - (c) a sitting Chair of a Faculty Board committee, unless an ex-officio position, is ineligible to be renominated if completion of the designated term would result in a member serving more than 5 consecutive years as Chair of that Committee;

(vii) shall recommend to the Academic Board the minimum requirements that will provide eligibility for entry to particular courses of study of the faculty;

(viii) shall submit to the Academic Board the names of students who have completed courses of study together with recommendations as to the award (including the grading) which should be made in each case;

(ix) shall carry out the duties prescribed for Faculty Boards in the Rules, delegations and policies of the University.

2.3 The Dean of the Faculty is authorised to take executive action on behalf of the Faculty Board where exceptional circumstances require Faculty Board business to be conducted between meetings. Where possible, notice of the action the Dean proposes to take should be given to members of the Board at least 7 calendar days before the proposed action. The notice should include a clear and accurate statement of the action the Dean proposes to take, with the advice that the Dean will take the action after the expiration of the 7 days unless one third of the number of members or more indicate in writing before the expiration of the 7 days that the decision should be made by the Board at a meeting. The action taken must be reported to the next regular meeting of the Faculty Board.

3. Composition and membership

3.1 The structure of a Faculty Board is approved by Academic Board on the recommendation of the faculty and the Vice-Chancellor and, depending on individual faculty structure, may vary between faculties. Each Faculty Board shall consist, as a minimum, of ex officio members, nominated members and elected members (unless the composition includes all academic staff of the faculty), as follows:

3.2 The ex officio members are:

- (i) the Dean; and
- (ii) other senior full-time or fractional-time staff members including, where applicable, the Deputy Dean, the Associate Deans, Heads of School and the Faculty Manager.

3.3 The nominated members serve a two-year term of office, and they include:

- (i) a nominee of the University Librarian;
- (ii) a nominee of the Deputy Vice-Chancellor (Teaching, Learning and Equity);
- (iii) one member of academic staff from the Faculty Board of at least three faculties that contribute to the teaching or research programs or other collaborative programs of the faculty concerned, to be nominated by the Deans of those faculties in consultation with the Dean of the faculty concerned.

3.4 The elected members include:

- (i) academic staff (full-time or fractional-time) elected by and from the academic staff of the faculty, the total number of persons to be such that it is equal to or larger than the sum of the total number of ex officio and nominated members, for a two-year term of office;

- (ii) support staff elected by and from the support staff of the faculty, for a two-year term of office;
- (iii) students elected by and from the students of the faculty with a minimum number of four students, at least one of whom shall be a postgraduate student, for a one-year term of office.

3.5 Elected members shall be eligible to stand for re-election and nominated members shall be eligible for renomination.

4. Meetings of Faculty Boards

4.1 The Dean of the faculty shall be Chair of the Faculty Board, or the Dean may appoint a member of the Faculty Board as Chair, if he or she wishes.

4.2 At the first meeting of a Faculty Board after the first of November in each calendar year a board shall elect a Deputy Chair from among its members, who shall hold office until 31 October in the year immediately following and shall be eligible for re-election.

4.3 The Faculty Manager shall be Secretary to the board.

4.4 The quorum for a Faculty Board shall be one-half of its members (excluding any members on recognised leave), or the nearest whole number above.

4.5 A Faculty Board shall meet in ordinary session at least twice in each semester and at such other times as it shall decide.

4.6 Not less than seven days' notice of an ordinary meeting shall be given by the Faculty Manager in writing to members of a board setting out the time and place of the meeting and the agenda.

4.7 A special meeting of a Faculty Board may be convened by the Dean of the faculty and shall be convened by the Faculty Manager on the written request of five members of a board.

4.8 Not less than three days' notice of a special meeting shall be given by the Faculty Manager in writing to members of a board setting out the time and place of the meeting and the purpose for which the meeting is to be convened.

4.9 The agenda for any meeting of a Faculty Board and any papers pursuant to matters on the agenda including minutes of the previous meeting(s) shall be available for perusal by any member of the academic staff of the faculty on application to the Faculty Manager.

5. Elections and filling of remaining vacancies

5.1 The Registrar or nominee shall be the Returning Officer for all elections of elected members of a Faculty Board.

5.2 In the case of a board as first constituted, wherever the term of office of elected members of a Faculty Board is two years, one-half of the elected members or where one-half is not a whole number the number immediately greater than one-half shall be determined by lot by the Returning Officer and shall hold office for one year.

5.3 Where a remaining vacancy occurs in the office of an elected member of a Faculty Board the vacancy may be filled by resolution of the Faculty Board and in accordance with procedures for the filling of casual vacancies as set out in 5.1 below.

5.4 A person selected to fill a remaining vacancy shall be appointed for the period stated in the notice of election for that office, and is, if otherwise qualified, eligible for election to that office at the expiry of the term of office for which he or she was appointed.

6. Casual vacancies

6.1 Where a casual vacancy occurs in the office of an elected member of a Faculty Board, the vacancy may be filled by resolution of the Faculty Board:

- (i) in the case of academic staff and undergraduate students of the faculty, on the recommendation of the relevant Responsible Academic Officer; or
- (ii) in the case of support staff and postgraduate students of the faculty, on the recommendation of the Dean;
- (iii) a person selected to fill a casual vacancy shall be appointed for the remainder of the term of office, and is, if otherwise qualified, eligible for election to that office at the expiry of the term of office for which he or she was appointed.

7. General

7.1 The Dean of the faculty shall be an ex officio member of all committees of the Faculty Board.

7.2 The Dean of the faculty may, if he or she so desires, convene and/or preside at a meeting of a Faculty Board committee.

7.3 As secretary to the Faculty Board, the Faculty Manager shall keep proper records of meetings of the Faculty Board and shall lodge copies of all papers of the Faculty Board with the Registrar as part of the official record of the University.

7.4 The Faculty Manager shall be responsible for bringing forward to the Academic Board matters arising from meetings of the Faculty Board.

7.5 The Faculty Manager shall notify the Registrar on or before the first of November each year, of the names of the members of the board for the 12-month period immediately following.

We are the focal point for the assistance and recruitment of international students. We provide advice on, course options, application procedures and assessment, enrolment, scholarships, study abroad and international exchange.

UTS International is also responsible for the International English Language Testing System (IELTS) centre, one of the largest in Sydney. The IELTS test is the preferred English language test for entry into Australian universities.

Together with the Students Services Unit, UTS International offers a comprehensive orientation and preparation program for all new international students. The program is designed to help students adjust to their new environment and enhance academic and social life at UTS. International Advisers are available to assist students with personal, practical and academic issues throughout their time at UTS.

UTS International also offers advice and assistance with overseas study opportunities available to current students through the UTS Global Exchange program and the BUiLD international leadership program. Regular sessions are held throughout the semester to promote study opportunities at partner universities, global exchange application procedures and funding options.

UTS International provides ongoing support to UTS students enrolled at exchange partner institutions and assists students to organise credit transfer upon their return to UTS.

UTS International provides support and services to faculties and institutes for courses offered outside of Australia.

Rules and policies

UTS is committed to providing an education that enables students to reach their full intellectual, personal and career potential, and to offering a wide range of support programs and services that optimise students' academic success and employability.

This goal can only be met if all students honour their responsibilities to their studies and respect the rights of other students and staff.

The rules are published in chapter 5 and are also available at:

www.gsu.uts.edu.au/rules

The rules should be read in conjunction with the Student Charter, which outlines the rights and responsibilities staff and students have to each other and to the University community.

www.gsu.uts.edu.au/policies/studentcharter.html

The University's policies are available at:

www.gsu.uts.edu.au/policies

Prizes and awards

Prizes are awarded each year to students in the University for meritorious work. These are made available through the generosity of private individuals and public organisations. They are offered each semester, annually or biennially. In rare instances, a prize is offered only when funds permit. Most prizes are offered subject to the provision that they are awarded only when a student has attained a mark or level of achievement considered by the faculty board concerned to be sufficiently high.

In addition to official University prizes and awards, a number of prizes are available from external sources.

A searchable database of prizes and awards is available at: <http://datasearch.uts.edu.au/study/scholarships/prizes.cfm>

The University's policy and procedures for the administration of prizes are available at:

www.gsu.uts.edu.au/policies/prizesadmin.html

The University's guidelines for the acceptance of new prizes are available at:

www.gsu.uts.edu.au/policies/prizesnew.html

University medal

A University medal may be awarded to a graduating student who has demonstrated exceptional merit.

Further information on the University medal is available in rule 13.8 of the Student and Related Rules.

The guidelines for the award of UTS medals are available at: www.gsu.uts.edu.au/policies/utsmedalguide.html

Australian Technology Network

The Australian Technology Network (ATN) is a union between five leading Australian universities who share a history of working with industry and a united vision for the future. These universities are:

- Curtin University of Technology
- Queensland University of Technology
- Royal Melbourne Institute of Technology
- University of South Australia
- University of Technology, Sydney.

Together, these universities teach more than 180,000 students, or 20 per cent of the Australian university system, with one in four international students choosing to study at an ATN university. What distinguishes ATN universities is the way they use their links with industry and the latest technology to provide professional courses.

The ATN's aim is to contribute to Australia's social and economic wealth, while championing the principles of access and equity that have ensured its members are the universities of first choice for more students.

CAMPUS LIFE

Child care

UTS Child Care Inc (UTSCC) is an incorporated association that coordinates the operation of all child care services at UTS. The UTSCC board comprises representatives of the University, the UTS Union, the Students' Association, the Australian Broadcasting Corporation and parent users of the centres.

The Equity and Diversity Unit supports the goal of employment and educational equity by developing, implementing and monitoring policies and programs to provide a supportive and open culture in which all students and staff are able to develop to their full potential.

University policy aims to prevent discrimination on the grounds of race, colour, descent, national or ethnic origin, ethno-religious background, sex, marital status, pregnancy, potential pregnancy, breastfeeding, carer responsibilities, relationship status, disability, age, homosexuality,

transgender status, political conviction and religious belief. The unit also provides confidential equity-related grievance advice to both students and staff who feel they may have been discriminated against or harassed.

Both UTS and Macquarie University contribute an annual grant to 2SER. The station also relies upon revenue raised via programming, sponsorship, fundraising events and subscription.

In addition to a small team of paid staff, around 200 volunteers (including UTS staff and students) are involved in producing and presenting around 100 programs each week. 2SER features many music, arts and current affairs programs, as well as community-based, non-English language programs on Sundays.

2SER provides training courses for its volunteers, which cover all facets of program-making.

17 Notice to accompany ballot paper

With each ballot paper issued in respect of a Council election, there must also be issued:

- (a) a notice setting out how the ballot paper is to be completed and specifying the date and time by which ballot papers for that election must reach the Returning Officer, and
- (b) 2 envelopes, one marked "Ballot Paper" and the other addressed to the Returning Officer on the inside of which must be printed a form of declaration of identity and of entitlement to vote to be signed by the voter.

18 Contents of ballot paper

Each ballot paper must contain the names of the candidates in the order drawn at random by the Returning Officer or by a person appointed by the Returning Officer for the purposes of the election and must be initialled by the Returning Officer or by a person appointed by the Returning Officer.

19 Method of voting

Each voter must mark a vote on the ballot paper by placing the figure "1" in the square opposite the name of the candidate to whom the voter desires to give his or her first preference vote, and may place consecutive figures (commencing with the figure "2") in the squares opposite the names of any of the remaining candidates, so as to indicate by numerical sequence the order of the voter's preference for them.

20 Voting at staff elections

- (1) In the case of an election of an academic or non-academic staff member of the Council, each voter must send or deliver to the Returning Officer the ballot paper enclosed and sealed in the envelope marked "Ballot Paper" which must be enclosed and sealed in another envelope addressed to the Returning Officer, with a signed form of declaration of identity and entitlement to vote on the inside.
- (2) All envelopes received by the Returning Officer under this clause must be deposited in the relevant ballot box.

21 Voting at student elections

- (1) Subject to subclause (3), in the case of an election of an undergraduate or postgraduate student member of the Council, any student who has been recognised, by a person appointed by the Returning Officer to attend a polling booth, as being a person whose name is in the relevant roll of students of the University and whose name is then marked on a copy of that roll to signify the issue of a ballot paper, must be provided with a ballot paper.

- (2) A student provided with a ballot paper who desires to vote at a polling booth must, in the presence of a person appointed by the Returning Officer, deposit the vote in the relevant ballot box provided for the purpose at the polling booth.
- (3) A student who has been forwarded a ballot paper under clause 16(2)(c) and who wishes to vote must send or deliver to the Returning Officer the ballot paper enclosed and sealed in an envelope marked "Ballot Paper" which must be enclosed and sealed in another envelope addressed to the Returning Officer, with a signed form of declaration of identity and entitlement to vote on the inside.

- (c) if any declaration of identity is duly signed by a qualified voter, place the unopened envelope containing the ballot paper with other similar envelopes, and

- (e) count the votes, and ascertain the result of the ballot, in the manner set out in clauses 24–27.

- (2) A ballot paper is informal if not initialled under clause 18.
- (3) A ballot paper is informal if the voter has not indicated a clear preference for at least one candidate.
- (4) Despite any other provision of this clause, a ballot paper is not informal only because any figures placed on the ballot paper are not placed in or entirely in the squares opposite the candidates' names, if the figures are placed on the ballot paper in such positions as, in the opinion of the Returning Officer, clearly indicate the order of the voter's preference for the candidates.

25 Nomination of scrutineers

- (1) Each candidate is entitled to nominate one scrutineer to be present at the count.
- (2) A person is not to be a scrutineer in an election in which he or she is a candidate.

- (6) If no candidate has received an absolute majority of first preference votes, the candidate who has received the fewest first preference votes must be excluded and each of the ballot papers counted to that candidate must be counted to the continuing candidate next in order of the voter's preference.
- (7) If on any count 2 or more candidates have an equal number of votes and one of them has to be excluded, the candidate to be excluded must be determined as follows:
 - (a) if the count is the first made in connection with the ballot, the Returning Officer must determine by lot which of those candidates is to be excluded,
 - (b) if the count is the second or subsequent count made in connection with the ballot:
 - (i) that candidate must be excluded who had the least number of votes at the last count at which one of those candidates received fewer votes than each of the others, or
 - (ii) the Returning Officer must determine by lot which of those candidates is to be excluded, if at all preceding counts no one of those candidates received fewer votes than each of the others.
- (8) The process of excluding the candidate who has the fewest votes and counting each of the ballot papers counted to that candidate to the continuing candidate next in order of the voter's preference must (subject to subclause (9)) be continued:
 - (a) until one continuing candidate has an absolute majority of votes in which event that candidate must be declared by the Returning Officer to be elected, or
 - (b) until all candidates but one have been excluded in which event the remaining candidate must be declared elected.

- (9) If at any point during any particular count after the first preference votes have been counted, the candidate next in order of a voter's preference is not indicated or cannot be ascertained, that ballot paper must, from that point onwards, be excluded from that particular count and the total of the ballot papers counted must be amended accordingly. The ballot paper must, however, be reinstated in any later counts carried out in accordance with subclause (10).
- (10) If any further position remains to be filled, all excluded candidates must be reinstated with their first preference votes credited and each of the ballot papers counted to the elected candidate or candidates must be counted to the reinstated candidate next in order of the voter's preference as if it were a first preference vote.
- (11) The procedures described in subclauses (5)–(10) apply until all vacancies are filled.

SECTION 1 — GENERAL

1.1 General

1.1.1 These Rules shall be known collectively as the 'Student and Related Rules' and are made pursuant to Section 29 of the *University of Technology, Sydney, Act 1989* and clause 44 of the *University of Technology, Sydney, By-law 2005*.

1.1.2 The date of commencement of these Rules shall be the 25th of February 2005.

1.1.3 These Rules shall apply to all students of the University, including persons who were students prior to the specified date of commencement of the Rules and anyone who becomes a student after the date of commencement of the Rules.

1.1.4 For the purposes of these Rules, unless the contrary intention is apparent, the definitions as provided for in Schedule 1 apply. Where appropriate, specific definitions may also be contained within the relevant Section of the Rules.

1.2 Relevant legislation

1.2.1 These Rules cannot override the state or Commonwealth legislation, and to the extent that there is any inconsistency between the Rules and legislation, the latter prevails.

1.2.2 For the purposes of these Rules and for the academic administration of the University, the major known relevant legislation is set out in Schedule 2 of these Rules. Other legislation may also apply and the legislation specified may be amended from time to time or be revoked.

1.3 Application of these Rules

1.3.1 General

Subject to the provisions of Rules 1.3.2 and 1.3.3 below, these Rules apply to all students who have been admitted to a course of study by the University, and who are enrolled in a UTS course including a UTS course conducted by, or in partnership with, another institution.

1.3.2 Conduct of students

The Rules of the University that relate to the conduct of a student in various circumstances apply to the conduct of an individual that occurs while he or she is a student of the University.

1.3.3 Course conducted in conjunction with another university or educational institution

(1) The application of some or all of these Rules may be excluded in the case of students who are enrolled in a UTS course which is conducted in conjunction with another university or educational institution of an appropriate standing whether in Australia or offshore in the following circumstances:

- (a) this is provided for in a formal agreement between UTS and the university or institution and that agreement also provides that the rules, documented requirements or regulations, or specified components

of them, of the other university or institution are expressly made to apply to the students undertaking the UTS course;

- (b) the Vice-Chancellor certifies that the rules, documented requirements or regulations of the other university or institution to be so applied are appropriate and will adequately protect the interests of UTS and the students undertaking the course;
- (c) the formal agreement specified in (a) above provides for the Registrar of UTS to be supplied with a copy of the specified rules, documented requirements or regulations of the other university or institution as certified by the Vice-Chancellor. The Registrar shall maintain an up-to-date Register of such rules, documented requirements or regulations of the relevant provisions of all agreements relating to this Rule, and of the Vice-Chancellor's certification under (b) above.

(2) Students will be subject to the rules, documented requirements or regulations of the approved institution for the duration of their studies at that institution only and in the specified UTS course(s). Students who transfer to UTS to continue study in the specified course(s) will then be subject to the Rules of UTS from the time of transfer.

(3) In cases where the provision of 1.3.3(1) apply, the rules, documented requirements or regulations of the other university or other institution which have been specified to apply will have the full force and effect as Rules of UTS for the purposes of the students in the relevant courses. Responsibility for the administration of such rules, documented requirements or regulations shall be specified in the respective agreement between UTS and the other university or institution, including responsibility for each university or institution to notify the other of the application of particular rules, documented requirements or regulations to particular students, and of all changes to such rules, documented requirements or regulations.

(4) Notwithstanding anything to the contrary, the Council of UTS, on the advice of the Academic Board, may where the circumstances are sufficiently serious to warrant it, revoke or modify any specification of Rules made under Rule 1.3.3(1), above. Details of any such revocation must be kept on the Register specified in 1.3.3(1)(c) above. All agreements between UTS and another university or institution which provide for the application of rules, documented requirements or regulations under 1.3.3(1) above must also provide for their possible revocation under this clause.

1.4 Designation

- 1.4.1 The Vice-Chancellor may make a written designation that an organisational unit, position or body is equivalent to a 'Faculty', 'Dean' or 'Faculty Board', respectively, for the purposes of these Rules. The designation may be for the purpose of specific Rules, groups of Rules, or these Rules generally. Any such designation will be recorded in a register maintained by the Registrar.

- 3.1.3 The University reserves the right not to make offers of admission to any course for either a specific or indeterminate period of time.
- 3.1.4 The University reserves the right to discontinue or vary courses, arrangements for courses or staff allocations at any time without notice.

3.4 Professional experience requirements

- 3.4.1 A number of courses offered by the University require students to undertake practical professional experience.
- 3.4.2 The University and the provider of the professional experience opportunity may appoint a suitably qualified supervisor who is external to the University to supervise a student's practical professional experience.
- 3.4.3 While undertaking practical professional experience, a student may be summarily excluded from participating in such activities for a specified period of time as provided for in Rule 16.9 (Exclusion from facilities and/or participation in activities).
- 3.4.4 If a student is assessed as not ready to proceed with, or unsuitable to continue, the required professional experience, it may be determined that the student is unable to complete the course requirements. Prior to such a determination being made, the following process will apply:
- (1) where the Dean has reason to believe it is necessary in relation to a student who is enrolled in a course which includes required professional experience, the Dean shall have the student's preparedness to participate in, or his or her suitability to continue to participate in, such professional experience assessed by the relevant Responsible Academic Officer, in consultation with the appropriate external supervisor (if any) as provided for in Rule 3.4.2;
 - (2) where the Responsible Academic Officer, in consultation with the appropriate external supervisor (if any), considers that a student so assessed is not ready to proceed with or is unsuitable to continue any part of the required professional experience on its scheduled commencement, the Responsible Academic Officer may defer or re-schedule the student's participation;

(3) The Responsible Academic Officer must advise the student in writing of the decision within three (3) business days of making it.

- 3.4.5 Where the deferral of a student's participation in any part of the required professional experience would have the effect of preventing the student from continuing his or her course the Responsible Academic Officer, with the agreement of the Dean, may refer the matter, with an appropriate recommendation, to the Vice-Chancellor, who shall take such action as he or she deems appropriate.
- 3.4.6 The Vice-Chancellor must advise the student in writing of any decision he or she makes within three (3) business days of making it.
- 3.4.7 A student may appeal to the Professional Experience Appeals Committee against any decision taken by the Vice-Chancellor pursuant to Rule 3.4.6 (refer Rule 3.10 Appeals Procedure).

3.5 Occupational requirements

- 3.5.1 A number of courses offered by the University require students to obtain suitable concurrent occupational experience. In these courses progression beyond the first year is normally dependent on the student being in suitable employment. In special cases, consideration will be given to experience obtained prior to admission to a course.
- 3.5.2 Where students have not satisfied the required occupational requirements prescribed for the particular course within the time limits for completion of the particular course, or as otherwise specified for that course, the matter will be considered in the first instance by the relevant Responsible Academic Officer for an appropriate recommendation to the Dean.

3.6 Changes to courses

- 3.6.1 When the Academic Board approves the phasing out and discontinuation of a course or approves a revision of an existing course structure, it must ensure that the approved course documentation:
- (1) states the reasons necessitating such a change;
 - (2) in the case of a revision of a course structure:
 - (a) specifies the revised course structure; and
 - (b) states whether students shall be given the option to complete the existing version of the course or shall be obliged to transfer to the revised version of the course; and
 - (c) in the case where students are given the option to complete the existing version of the course specifies the time period in which students must complete the course in accordance with the existing course structure
 - (3) in the case of the phasing out and discontinuation of a course specifies the period for which students enrolled in the course will be able to continue their studies in accordance with the existing course structure.

3.6.2 If a student is required to undertake a revised version of a course, the relevant Responsible Academic Officer, in consultation with the student, must provide a transitional or revised program to be completed by the student which will satisfy the requirements of the revised version of the course. Details of this program must be provided to the Registrar who shall ensure that it is recorded and used as the basis for determining the student's academic progress and completion of course requirements.

3.6.3 If a student who is enrolled in a course that has been approved for discontinuation does not complete the course within the approved phasing out period, the relevant Responsible Academic Officer will provide advice to the student on alternative arrangements that the student may wish to pursue at the University or elsewhere.

3.7 Subject requirements

- 3.7.1 Deans, Responsible Academic Officers or Subject Coordinators as appropriate, shall ensure that by the end of the first teaching week in the subject, students are provided with a published subject outline for each subject in which they are enrolled.
- 3.7.2 If it becomes necessary after teaching has commenced for the University to change subject requirements and/or assessment procedures, the change shall:
- (1) be reasonable in all the circumstances;
 - (2) occur after the Subject Coordinator has made a serious attempt to consult with all students enrolled in that subject;
 - (3) be confirmed in writing by the Subject Coordinator to all students enrolled in that subject.

- 3.8.1 If there are any attendance and/or participation requirements for a subject, they must be prescribed in the relevant subject outline.

- (1) refuse permission for the student to be considered for assessment;
 - (2) refuse permission for the student to attempt an assessment task;
 - (3) refuse permission for the student to undertake an examination in that subject;
 - (4) record a final result of 'Fail' for the student's enrolment in that subject.
- 3.8.3 If a student is prevented from meeting prescribed attendance or participation requirements as a result of illness or other circumstances beyond the student's reasonable control, the student may apply to the Responsible Academic Officer for consideration of alternative arrangements.
- 3.8.4 Where appropriate, the Responsible Academic Officer in consultation with the Subject Coordinator may approve suitable alternative arrangements.
- 3.8.5 Approval of alternative arrangements for attendance and/or participation does not imply exemption from payment of any fees or charges,

nor does it imply exemption from, or concessions relating to, assessment or examinations. Study thus approved will be subject to normal assessment grading.

3.9 Retention of students' work

- 3.9.1 The University reserves the right to retain the original or one copy of any work executed and/or submitted by a student as part of the course including, but not limited to, drawings, models, designs, plans and specifications, essays, programs, reports and theses, for any of the purposes designated in Rule 3.9.2. Such retention is not to affect any copyright or other intellectual property right that may exist in such student work.

Notice is deemed to be sufficient if reference to Rule 3.9 and the notice under it is contained in the subject outline.
- 3.9.4 In cases where a student objects to the retention of an item of work for any purpose, and the University still wishes to exercise its right to retain the work, the student's objection shall be referred to the Responsible Academic Officer or Dean of the relevant Faculty for resolution.
- 3.9.5 Except in the case of examination scripts or other designated work, the University will make available the student's work for return to the student when it is no longer required pursuant to Rule 3.9.3, and will provide a reasonable opportunity to the student to collect the work.

- 3.10.2 An appeal must be in writing, specify and substantiate the grounds of the appeal and be lodged with the Registrar within four (4) weeks of the date of notification.
- 3.10.3 In normal circumstances the grounds for appeal are:
- (1) procedural irregularities which are of such a nature and extent that they are likely to have had a significant negative impact on a decision in relation to the student's ability to continue or participate in the required professional experience;
 - (2) the existence of mitigating circumstances, supported by documentary evidence, which directly and significantly affected the student's performance which were not known at the time of making the decision, which are of such a nature and extent to make it likely that the student could complete the professional experience in the future;
 - (3) the decision was based on factual errors of such magnitude as to invalidate the decision;
 - (4) the conclusion as to the student's suitability for further professional experience was manifestly unreasonable, taking account of all the circumstances of the matter and the relevant professional standards and practices.
- 3.10.4 The Registrar shall refer the appeal to the Vice-Chancellor for any written comment that the Vice-Chancellor wishes to make. The Vice-Chancellor may seek advice from the relevant Dean and other relevant members of staff. The Vice-Chancellor shall then forward his or her comments, and the advice received, to the Registrar.
- 3.10.5 The Registrar shall then refer the Vice-Chancellor's comments to the student for the student to provide a written response. The student's response must reach the Registrar within ten (10) days of the date of notification. The Registrar shall then refer the student's appeal, the Vice-Chancellor's comments and the student's response to the Professional Experience Appeals Committee, constituted under Rule 17.3, for consideration and decision.

- 10.5.3 The calculation of the time taken by a student is a calculation of elapsed time. Periods of approved leave of absence or periods of exclusion/discontinuation from the course are counted as elapsed time.
- 10.5.4 Where credit recognition has been granted, the maximum time in which the student is required to complete the course requirements may be reduced by the relevant Responsible Academic Officer.
- 10.5.5 In exceptional circumstances, the relevant Responsible Academic Officer may approve an extension of the maximum time to complete course requirements for a particular student. Before the Responsible Academic Officer grants any such approval, the Responsible Academic Officer must be satisfied of the academic currency of the subjects completed by the student during the initial periods of enrolment in the course which will, if the extension is granted, be outside the normal maximum time period.
- 10.5.6 In respect of specific courses, the maximum time to complete a particular course may be reduced by resolution of the relevant Faculty Board (subject to approval by Academic Board) and where such a reduction in maximum time has been approved, the Faculty must include this information in all course prospectus and publicity material and must advise students enrolling in such a course for the first time of the approved maximum time to complete.

10.5.7 Where a student has failed to complete the requirements of a course within the maximum time the relevant Responsible Academic Officer may determine that the student be excluded permanently from that course.

10.6.2 A student who fails a subject for a second time shall be advised that:

- (1) he or she must seek advice from an appropriate academic adviser from the relevant faculty before being permitted to enrol again in that subject; and
- (2) a third failure in the same subject will require the student to seek the permission of the Responsible Academic Officer for any further enrolment in that subject;

or

- (3) no further enrolment in the subject will be permitted for subjects specified in Rule 10.6.1(2).

10.6.3 A student who fails a subject for a third time must receive permission from the Responsible Academic Officer for any further enrolment in that subject. If such permission is granted the student must seek continuing assistance throughout that teaching period from an appropriate academic adviser in the relevant faculty.

10.6.4 Where a student is unable to complete a course as a result of being refused permission to enrol in a subject under Rule 10.6.2 or 10.6.3, the student will be excluded from further study at the University by the relevant Responsible Academic Officer for a period of at least one (1) academic year and may not apply for or enrol in any subjects or courses of study at the University that are conducted during the period of exclusion.

 - (2) the student has been excluded for failure to meet the minimum rate of progress as outlined in Rule 10.4.1 and he or she has appealed against the exclusion and that appeal has been upheld, unless the appeal was upheld on the basis that the original decision to exclude was invalid as a result of factual errors, pursuant to Rule 10.8.3 (3).
- 10.7.2 The period of academic caution shall normally have a duration of one half year and shall occur in the next half year of study following the decision to place the student on academic caution.

- 10.8.4 In normal circumstances, the grounds on which a student may appeal against a decision of a Responsible Academic Officer in relation to exclusion or discontinuation are:
- (1) procedural irregularities which have resulted in substantial unfairness to the student;
 - (2) mitigating circumstances, supported by documentary evidence, which directly and significantly affected the student's performance, an awareness of which might have reasonably led to a decision other than exclusion;
 - (3) the decision was based on factual errors of such magnitude as to invalidate the decision.
- 10.8.5 The Registrar shall refer the appeal to the relevant Responsible Academic Officer.
- 10.8.6 The appeal shall be considered by the appropriate Course Director in the first instance, who shall seek the advice of other relevant members of staff.

- (3) Where the Course Director has recommended that the appeal be dismissed, the Responsible Academic Officer will invite the student to respond to the recommendation to dismiss the appeal. A student will be permitted to respond in writing and may be required to attend an interview with the Responsible Academic Officer. The student's response must reach the Faculty within such time as the Registrar may specify from time to time. The Responsible Academic Officer will consider the response and make a decision to uphold or dismiss the appeal.

10.8.9 In the event that the Responsible Academic Officer believes that his or her involvement in the appeal would lead to a conflict of interest, he or she will be required to consult with the Dean (or nominee) who will make the decision on the appeal.

10.9 Result of appeal

10.9.1 Where an appeal under Rule 10.8 is successful the student:

- (1) shall have his or her enrolment in the course re-instated;
- (2) shall be placed on academic caution in the next half year of study following the successful appeal, where the exclusion resulted from failure to maintain minimum rate of progress. A student must meet the requirements for academic caution in accordance with Rule 10.7.4.

SCHEDULE 4 — GUIDELINES RELATING TO STUDENT MISCONDUCT AND APPEALS

1. Introduction

- 1.1 These guidelines have been prepared for the benefit of all people involved in the processes established by UTS to deal with allegations of misconduct made against students and with appeals lodged by students against decisions arising from such allegations.
- 1.2 The guidelines are divided into four sections: this Introduction, General Principles, Guidelines for Inquiry Bodies and Guidelines for Student Misconduct Appeals Committees.
- 1.3 The term 'inquiry bodies' refers to the University Student Conduct Committees and Student Misconduct Appeals Committees, but also extends, as necessary, to the Vice-Chancellor, Vice-Chancellor's nominee, Senior Deputy Vice-Chancellor, Responsible Academic Officer and the Registrar.
- 1.4 Notwithstanding these sectional headings, the guidelines are designed for use by all who play some role in these processes and should be freely distributed to students and their advisers and academic and support staff who have a need for knowledge of student misconduct and appeal matters. In particular, they are to be given to all students at the time formal allegations of misconduct are made against them.
- 1.5 The guidelines take into account the University's Rules and procedures and the principles of procedural fairness.

2. General principles

- 2.1 All persons who are the subject of recommendations or decisions of others are entitled to be treated fairly, with dignity and with due regard to their privacy.
- 2.2 Persons are entitled to be regarded as not having behaved in an alleged manner until and unless they admit that behaviour or a fair and proper inquiry leads to a reasonable conclusion that they have so behaved.
- 2.3 Knowledge that a person has behaved in a particular way in the past is not evidence that the person has behaved in the same manner again. Such knowledge may be evidence that the person is aware that the behaviour is an act of misconduct (or it may be relevant to the level of penalty).
- 2.4 Each case must be dealt with on its own terms and merits and in accordance with its own circumstances.

3. Guidelines for inquiry bodies

- 3.1 Before any conclusion is reached in an inquiry into alleged misconduct by a student, the student must be:
- given the precise terms of and any reasons for the allegation;
 - given an outline or summary of all details intended to be given to the inquiry body;
 - given access to or a copy of documentation intended to be given to the inquiry body, and;
 - given an opportunity to address all the information supplied.
- 3.2 The inquiry body must ensure that the student has a clear understanding of the allegation, of the nature of the evidence in its support and of the process which the inquiry body intends to follow and of the student's rights with respect to that process. A copy of these guidelines is to be given to the student at the time the student is formally made aware of the allegation.
- 3.3 The amount of detail that is given to the student is dependent upon the circumstances; generally, a student's request for details and access to documents relating to allegations about that student should be met, except where the information being sought:
- is an infringement upon the privacy of others
 - may cause the safety of others to be at risk
 - is irrelevant and/or excessive in amount.
- 3.4 The student must be given adequate time to prepare for the inquiry and to deal with the information provided; what is adequate depends upon the nature of the matter and the volume and complexity of the information.
- 3.5 The student must have an opportunity to seek advice; in some circumstances it may be appropriate for the University to make arrangements for advice to be given. The Registrar may seek advice on the University's behalf at any stage. There may be a need for translating and/or interpreting services to be provided.
- 3.6 If the student fails to respond to reasonable attempts by the Committee to communicate or does not provide the Committee with acceptable reasons for not attending a hearing, the Committee will make its own determination as to whether it will adjourn or proceed in the absence of the student.
- 3.7 The student's opportunity to address the information should be in person, in writing or both. The student should always have the option of having a friend or adviser present during any questioning or hearing. The inquiry body may place limitations on the role of a friend or adviser — for example, in some circumstances it may be appropriate for the student's friend or adviser to assist the investigating body by answering questions or addressing raised issues on the student's behalf. In most University circumstances, a friend or adviser present is not permitted by the inquiry body to act as an advocate or legal representative. Only in exceptional circumstances need legal representation be allowed.

- 3.8 The student may admit or deny the allegation, correct information as presented, provide an explanation, disclose mitigating factors or address the matters in other ways which the inquiry body, allowing some latitude if necessary, finds relevant.
- 3.9 The student must be given the opportunity of calling other persons to provide evidence in support of the student's defence against the allegation and the student should be allowed to lead any such witnesses through their evidence.
- 3.10 During the course of a hearing, the student should be given an opportunity of questioning any witness or other person who has supplied information to the inquiry body. A right to question does not imply a right to harass.
- 3.11 A person whose evidence provided to the inquiry body is questioned should be given an opportunity to respond to such questions.
- 3.12 During the course of inquiry, neither the fact that there is an inquiry nor any information relating to it or to the student should be disclosed to people who do not have a legitimate reason to have such information. Accordingly, hearings are normally held in camera.
- 3.13 Without compromising the thoroughness of an inquiry it should take place without any unnecessary delays, taking into account the reasonable needs of the student to be properly prepared.
- 3.14 The inquiry body should take into account all of the relevant information it has before it except any information which the student has not had an opportunity of addressing.
- 3.15 Knowledge which the inquiry body has of any past offences or other misconduct committed by the student may be taken into account only:
 - as evidence that the student was aware that certain actions constitute misconduct; and
 - as one factor in the consideration of the level of penalty, if the inquiry body finds that the present allegation of misconduct is proven.
- 3.16 The student is entitled to be given the reasons for the decision and/or recommendation at the time it is made known to the student.
- 3.17 The inquiry body is responsible for determining who, in addition to the student against whom the allegation was made, should receive formal notification of the decision and/or recommendation and the reasons for it. In making this determination, the inquiry body will take into account potentially conflicting needs of the student for privacy and of others who participated in the process and who may have ongoing responsibility for University courses or facilities. In circumstances where an alleged victim of a crime of violence or a nonforcible sex offence makes a written request, the University will disclose to the alleged victim any decision and/or recommendation and the reasons for it with respect to any disciplinary proceeding conducted by the University against a student who is the alleged perpetrator of such crime or offence with respect to such crime or offence. The inquiry body may impose conditions of confidentiality on any person who is so notified.

4. Guidelines for Student Misconduct Appeals Committees

- 4.1 Each Student Misconduct Appeals Committee will determine its own procedures consistent with these guidelines.
- 4.2 Where a student does not dispute a finding of an inquiry body but appeals against the severity of a penalty imposed, the Student Misconduct Appeals Committee may decide to re-hear the matter in full or to limit its work to a consideration of the penalty.
- 4.3 Where the Student Misconduct Appeals Committee finds it cannot discharge its responsibilities unless it re-hears the matter (i.e. treats it as a fresh investigation) in full, it shall do so. There may be circumstances that make it acceptable for a Committee to confine itself to dealing afresh with points raised by the student in any stated grounds for the appeal.
- 4.4 The student is free to raise questions of process and/or merit with respect to the original inquiry. The student may repeat, correct or otherwise amend points made at the original inquiry, provide further explanation, disclose additional mitigating factors or address the matters in other ways which the Committee, allowing some latitude if necessary, finds relevant. If the student advances new evidence, the Committee may hear the appeal or refer the matter to the original inquiry body.
- 4.5 The student must be given adequate time to prepare an appeal based upon stated reasons for the original decision.
- 4.6 The student must have an opportunity to seek advice; in some circumstances it may be appropriate for the University to make arrangements for advice to be given. There may be a need for translating and/or interpreting services to be provided.
- 4.7 The student's opportunity to address the information should be in person, in writing or both. The student should always have the option of having a friend or adviser present during any hearing. The Committee may determine any limitations that may be placed on the role of a friend or adviser present at a hearing. For example, in some circumstances it may be appropriate for the student's friend or adviser to assist the Committee by answering questions or addressing raised issues on the student's behalf. In most University circumstances, any friend or adviser present need not be permitted by the Committee to act as an advocate or legal representative. Only in exceptional circumstances need legal representation be allowed.
- 4.8 If the Committee considers that a student has an acceptable reason for being unable to attend a hearing (e.g. an international student who has returned home during a vacation period), the Committee may permit the student to nominate a representative to attend. The Committee may permit the student to use telecommunication facilities to participate in all or part of a hearing, if such facilities are readily available at reasonable cost, or may adjourn for a reasonable time until the student is available.

- 4.9 If the student fails to respond to reasonable attempts by the Committee to communicate or does not provide the Committee with acceptable reasons for not attending a hearing, the Committee will make its own determination as to whether it will adjourn or proceed in the absence of the student.
- 4.10 The Student Misconduct Appeals Committee determines the order of presentation, i.e. whether the student should open (by presenting a case for the overturning of the original finding and/or penalty) or whether the University should commence the appeal proceedings (by defending the decision of the inquiry body). The nature of the appeal and its circumstances are the determining factors.
- 4.11 In presenting the appeal case, the student is normally given the opportunity of calling other persons to provide evidence in support of the appeal and the student should be allowed to lead any such witnesses through their evidence in which case the appeal may proceed by way of rehearing afresh.
- 4.12 During the course of a hearing, the student should be given an opportunity of questioning any witness or other person who is giving evidence to the Committee. A right to question does not imply a right to harass.
- 4.13 The recommendation or decision against which the appeal is being made will be supported by the Registrar (or nominee). The person providing this support must also be given adequate time to prepare.
- 4.14 Provided it is relevant to the approach taken by the Committee, a person whose information, given at the earlier inquiry, is being questioned at the appeal, should be given an opportunity to respond to such questions.
- 4.15 The Committee may appoint advisers as it deems appropriate but it will not commit itself to expenditure without the Registrar's agreement. The Registrar may also seek advice on the University's behalf at any stage of an appeal process.
- 4.16 During the course of an appeal, neither the fact that there has been an inquiry and there is now an appeal, nor any information relating to them or to the student should be disclosed to people who do not have a legitimate reason to have such information. Accordingly, hearings are normally held in camera.
- 4.17 Without compromising the appeal's thoroughness, it should take place without any unnecessary delays, taking into account the reasonable needs of people involved to be properly prepared.
- 4.18 The Student Misconduct Appeals Committee should take into account all of the relevant information it has before it except any information which the student has not had an opportunity of addressing.
- 4.19 Knowledge that the Student Misconduct Appeals Committee has of any past offences or other misconduct committed by the student may be taken into account only:
- as evidence that the student was aware that certain actions constitute misconduct, and
 - as one factor in the consideration of the level of penalty, if the Student Misconduct Appeals Committee finds that the allegation of misconduct, the decision on which is currently under appeal, is proven.
- 4.20 The Student Misconduct Appeals Committee has the following options:
- 4.20.1 it may, for any reason, refer a matter back to the inquiry body for further inquiry and decision;
- 4.20.2 it may uphold an appeal against a finding that the student has committed an act of misconduct, in which case any penalty imposed shall be nullified;
- 4.20.3 it may uphold an appeal against the severity of a penalty and reduce it to a lesser penalty from among those provided in the Rules;
- 4.20.4 it may dismiss an appeal against a finding that the student has committed an act of misconduct but determine that the penalty should be reduced to a lesser one from among those provided in the Rules;
- 4.20.5 it may dismiss the appeal.
- If the Student Misconduct Appeals Committee chooses 4.20.1, the Registrar will notify the Student Misconduct Appeals Committee Chair of the result of the inquiry body's re-consideration and whether or not it has been accepted by the student. If the student requests it, the Student Misconduct Appeals Committee will reconvene to hear the appeal.
- 4.21 The student is entitled to be given the reasons for the appeal decision at the time the decision is made known to the student.
- 4.22 The Student Misconduct Appeals Committee is responsible for determining who, in addition to the appellant student, should receive formal notification of the result of the appeal and the reasons for it. In making this determination, the Committee will take into account potentially conflicting needs — of the student for privacy and of others who participated in the process and who may have ongoing responsibility for University courses or facilities. The Student Misconduct Appeals Committee may impose conditions of confidentiality on any person who is so notified.

SCHEDULE 5 — GUIDELINES ON DETERMINING AN APPROPRIATE PENALTY FOR INSTANCES OF STUDENT MISCONDUCT

These guidelines have been prepared to assist all those involved in recommending, imposing and reviewing penalties for instances of misconduct, including the Vice-Chancellor, Vice-Chancellor's nominee, Responsible Academic Officers, University Student Conduct Committee, and Student Misconduct Appeals Committee.

The information contained in these guidelines may also be useful for academic and administrative staff dealing generally with cases of misconduct, as well as for any student subject to an allegation of misconduct.

The guidelines are structured as follows:

1. Principles
2. Scale of penalties
3. Issues specific to each type of penalty
4. Differential effects of penalties
5. Admissions of wrongdoing/level of contrition of student
6. Intent
7. Start/end dates of penalties
8. Status of student pending appeal outcomes
9. Timing of decisions
10. Records of misconduct on transcripts

Whilst these guidelines provide general parameters for determining penalties, the appropriate penalty for an instance of misconduct ultimately must depend on the facts found in each case, and a body is free to depart from the principles set out in these guidelines where the facts indicate that such a course is appropriate. The appropriate penalty remains at the discretion of the body imposing it given that the circumstances of an instance of misconduct and the student present an almost infinite variety from case to case.

1. Principles

In recommending and/or determining an appropriate penalty for a proven instance of misconduct, an inquiry body and/or decision-maker must take into account:

1. the nature and context of the misconduct, including:
 - the objective circumstances of the misconduct (the facts in relation to the gravity of the misconduct itself) in order to gauge an appreciation of the seriousness of the misconduct;
 - the subjective circumstances of the student (aggravating and mitigating factors relating to the student rather than to the misconduct);
2. whether a student has admitted the misconduct, and/or has come forward of his or her own accord;
3. whether intent can be proven;
4. the student's expression of remorse or apology (where relevant);
5. the student's past conduct (see 3.15 Schedule 4 Guidelines relating to Student Misconduct and Appeals). The nature and extent of a student's previous record of misconduct should be considered in all cases;
6. penalties imposed for previous similar cases to ensure consistency in decision-making;
7. the consequences of the penalty for the individual student (see section 4 below Differential effects of penalties).

2. Scale of penalties

This scale provides a guide as to the normal, minimum and maximum penalties for specific cases of misconduct and the circumstances in which specific penalties are appropriate. This scale is not intended to be prescriptive and the Vice-Chancellor or Vice-Chancellor's nominee, Responsible Academic Officers or committees may need to adjust the penalty in individual cases according to the circumstances of that particular case. The penalties are generally graded according to severity, although it should be noted that some penalties are only appropriate for specific types of misconduct (e.g. fines may apply to some forms of misconduct).

The letter of reprimand is placed on the student's confidential file and remains confidential. It does not appear on a student's official external academic records.

3. Issues specific to each type of penalty

3.1 Exclusion from the University

See Rule 16.3.1(4)

If a student is re-admitted to a course following a period of exclusion from the University, the student may be required to apply for credit recognition, i.e. for the subjects completed prior to the period of exclusion.

3.2 Exclusion from specified class/specified facility

See Rules 16.3.1(10) and (11)

A student who is excluded from specified classes or facilities may not be able to complete certain assessment tasks and this may impact on their final result for the subject.

3.3 Suspension from the University

See Rule 16.3.1(5)

Students who are suspended from the University for a specified period not exceeding twelve (12) months will retain any credit points gained prior to the period of suspension.

3.4 Suspension from a course of the University

See Rule 16.3.1(6)

Students who are suspended from a course of the University will retain any credit points gained prior to the period of suspension. They may apply for admission to another course of the University during the period of suspension, except for non-award study in subjects that could be subsequently counted as exemptions towards the course from which they have been suspended.

3.5 Withholding of results/academic transcript/permission to graduate

See Rule 16.3.1(7)

Students whose results are withheld may not be able to proceed to the next stage of their course and it may impact on their employment situation or applications for admission to courses at other institutions. Students whose official academic records are withheld or who are not permitted to graduate may not be able to apply for admission to other courses, or may be limited in their employment opportunities. These penalties usually apply when a student is in, or has completed, their final teaching period before graduation. The penalties are usually imposed in conjunction with suspension, and/or the withholding of results until fines or costs are paid.

3.6 Monetary penalties

Rules 16.3.1(12) and (13)

These Rules enable the University to seek restitution for costs incurred in lengthy inquiries or proceedings or costs associated with loss and/or damage. These penalties are not fines. Fines are penalties imposed for the act of misconduct itself.

Rule 16.3.1(14)

This Rule enables a reasonable monetary fine to be assessed. This penalty could be applied in conjunction with others such as Rules 16.3.1(12) and (13).

Fines may be appropriate for incidents such as:

- inappropriate and/or disruptive behaviour on campus (up to \$1,000 maximum);
- contravening prescribed standards of acceptable conduct (up to \$1,000 maximum);
- endangering the safety and/or security of people and/or property (up to \$2,000 maximum);
- ignoring or disobeying a directive from a University Officer (up to \$500 maximum);
- refusing to identify oneself (up to \$100 maximum);
- allowing another person access to UTS email or computer account and facilities (up to \$500 maximum with increase to \$1,000 for repeat offences);
- damage and destruction where the costs cannot be adequately measured for the purposes of cost recovery (e.g. destruction of intellectual property through hacking or destroying a computer which has other persons' work on it) (up to \$5,000 on recommendation of the University Student Conduct Committee);
- library offences (up to \$150 per offence with upper limit of \$250 for repeat offence).

When considering fines as an effective and appropriate penalty for instances of misconduct, the following factors should be taken into account:

- a fine can only be imposed for certain forms of misconduct. A fine cannot be imposed for misconduct involving plagiarism;
- a student's financial capability must be considered in imposing a fine; and where appropriate extensions of time to pay may be granted by the Registrar;
- fines of less than \$2,000 can be imposed by the Vice-Chancellor or Vice-Chancellor's nominee for proven or admitted misconduct, without reference to the University Student Conduct Committee;
- fines of greater than \$2,000 can only be imposed by the Vice-Chancellor or Vice-Chancellor's nominee for extremely serious misconduct, on the recommendation of the University Student Conduct Committee.

3.7 Awarding of zero marks

See Rule 16.3.1(9)

When considering a penalty under Rule 16.3.1(9), it should be noted that if a student is awarded zero for any assessment item, it is unlikely that the student will be able to satisfactorily complete the subject for which the assessment task is set.

3.8 Conditions on enrolment

See Rule 16.3.1(8)

If conditions are imposed upon a student's enrolment and participation in specified subjects, this may impact on the student's ability to complete the course within a specified time period. This penalty may impose conditions on enrolment in certain subjects involving use of a laboratory, for example, or enrolment in subjects involving use of other facilities.

4. Differential effects of penalties

When imposing penalties, it is important that each student's individual circumstances, stage of enrolment, and any relevant mitigating factors are taken into account. Conduct Committees, the Vice-Chancellor or Vice-Chancellor's nominee and Responsible Academic Officers may encourage students to make representation or submit evidence on the detrimental impacts of specific penalties in individual cases.

Some examples of situations in which penalties may impact more harshly include:

- **Penalties of suspension or exclusion for international students**
A penalty of suspension or exclusion may impact more severely on an international student because of visa requirements which stipulate that a student must leave the country if not enrolled. There are also additional financial costs involved for international students who must re-apply for a visa following a period of suspension or exclusion and pay additional course fees. In appropriate circumstances, an alternative may be to consider penalties under Rules 16.3.1(6) and (7) where an international student can complete course requirements prior to the penalty coming into effect. As an example, a student facing a period of suspension (to take effect at a specified time in the future) would be able to complete the course requirements, but at the end of their course, the period of suspension would take effect and the student would be prevented from graduating, unable to access any academic results and official academic records.
- **Stage of enrolment**
Most penalties will have a greater impact on students in their final teaching period when they are applying for jobs or for admission to graduate courses.
- **Financial penalties**
Severe monetary penalties will have a greater impact on some international students and on students from economically disadvantaged groups.

5. Admissions of wrongdoing/level of contrition of student

If a student has admitted the misconduct and/or displays a high and genuine level of contrition for the misconduct, in the form of submission of a formal letter of apology to the Vice-Chancellor or Vice-Chancellor's nominee, this should be taken into account where appropriate.

1. The notice of penalty, the reasons and committee reports should explicitly state that the admission of wrongdoing and/or statement of contrition have been taken into account. Failure to do so would generally be taken to indicate that the admission or level of contrition was not given weight.
2. The effect of admission or level of contrition on the penalty should be stated insofar as it is appropriate to do so. This effect could encompass any or all of the matters to which the admission or level of contrition may be relevant. Where other matters are regarded as relevant in a particular case, e.g. assistance to authorities, this should be included in the report or notice of decision and penalty.
3. An admission of wrongdoing or statement of contrition should generally be assessed in relation to the seriousness of the misconduct. One consideration is the timing of the admission or statement of contrition. Another factor is the potential time saved by University staff to undertake investigations and attend hearings. The relevance of an early admission will vary according to the circumstances of the case.
4. In some cases the admission or statement of contrition, in combination with other relevant factors, could lead to a degree of leniency in relation to the type of the penalties imposed. In some cases the weight given to the admission or statement of contrition will be significant in assessing parity between other students involved in the misconduct.

6. Intent

If a student is found to have acted with intent when committing an act of misconduct, the penalty imposed on that student should be more severe than in a case where intent cannot be proven.

7. Start/end dates of penalties

Penalties usually come into effect from the date of notification of the penalty to the student and last until the last day of the relevant teaching period. In determining penalties, it is preferable that start and end dates are specified on a teaching period basis (e.g. first day of teaching period to the last day of teaching period). It is important to consider the effective dates of penalties, as a penalty specified by dates as opposed to teaching periods may have the unintended consequence of preventing a student enrolling in the teaching period following the period of penalty.

8. Status of student pending appeal outcomes

Under Rule 16.15.4, a student may apply to the Vice-Chancellor or Vice-Chancellor's nominee for a stay of decision. The Vice-Chancellor or Vice-Chancellor's nominee may direct that a decision be stayed until the time for making an appeal has expired or, if an appeal is made within the permitted time, until the appeal has been determined.

In such cases the Vice-Chancellor or Vice-Chancellor's nominee will determine the status of the student during the appeal process; in other words, whether the student is to be on a restricted or conditional provisional program. This may include provisional class attendance, restricted attendance on campus, conditional use of University facilities, enrolment in online subjects, leave of absence and so on.

The following criteria are considered in determining whether to grant a stay of decision and the student's status during the appeal process:

- student's reasoning for requesting the stay of decision
- whether it is appropriate given the nature and seriousness of the misconduct to approve a stay of decision
- whether there is a need to implement the penalty immediately to ensure the protection of other person(s) and/or facilities and property of University
- an assessment of the likelihood of a successful appeal against the finding of misconduct and the penalty, and if the penalty includes payment of compensation to a third party under Rule 16.3.1(12), the capacity of the third party to repay the student if the penalty is nullified on appeal.

9. Timing of decisions

It is most important that decisions regarding penalties for misconduct and subsequent appeals are handled as expeditiously as possible to prevent lengthy delays and consequent applications by students for special consideration due to potential disadvantage. As a general guide, reports of the University Student Conduct Committee or Student Misconduct Appeals Committee can be expected within six (6) weeks from the date of referral of the matter to the Committee.

10. Records of misconduct on transcripts

- For suspensions and exclusions from a course or from the University official academic records shows the period of suspension or exclusion (in the same way that academic exclusions and leave of absence are shown on a transcript).
- A penalty of zero mark for a subject is shown on official academic records in the same way as other results.
- All other penalties are recorded on the student system as internal comments and will only be shown on internal academic records.
- In cases where an appeal against suspension, exclusion, or zero mark is lodged, the external academic transcript will show 'appeal pending' under the relevant course and teaching.

SCHEDULE 6 — GUIDELINES FOR HANDLING STUDENT MISCONDUCT INVOLVING PLAGIARISM

These guidelines have been prepared for the benefit of all people involved in the processes established by UTS to deal with allegations of student misconduct involving plagiarism pursuant to Rule 16.6.2 and Rule 16.10.

These guidelines have been prepared with a view to providing consistency in process and outcome.

1. Definitions

Academic judgment is the process by which a student's performance is measured in an assessment task, taking into account the stated learning outcomes and assessment criteria set for that assessment and based on the professional judgment of the academic staff member concerned.

Plagiarism is taking and using someone else's ideas or manner of expressing them and passing them off as his or her own by failing to give appropriate acknowledgment of the source to seek to gain an advantage by unfair means (Rule 16.2.1(4)).

Responsible Academic Officer means a person appointed as such by the Vice-Chancellor or the Senior Deputy Vice-Chancellor on the advice of the Dean and such other persons as the Vice-Chancellor approves. (Schedule 1 Definitions. The current list of RAOs is published online at <http://www.gsu.uts.edu.au/academicboard/committees/rao.html>).

2. Principles

1. All actions taken under these guidelines must be fair and reasonable, implemented in a timely fashion, and with due regard to privacy of all involved in the matters under consideration.
2. Each case must be dealt with on its own terms and merits and in accordance with its own circumstances.
3. The Responsible Academic Officer must be supplied with all relevant information by the relevant staff members upon which to base a decision.
4. Students must be informed of their rights with respect to appeal under Rule 16.15.
5. No person involved may divulge to any unauthorised person any information related to an individual student's personal information, circumstances, marks/results/grades or any other matters relating to an allegation of misconduct.

3. Conflict of interest

- 3.1 A Responsible Academic Officer must not deal with or determine an allegation of student misconduct if he or she is personally involved in any aspect of the allegation (see Rule 16.5).
- 3.2 In the event that a Responsible Academic Officer, an officer of the University, or a student believes that the involvement of a Responsible Academic Officer in a matter would lead to a conflict of interest, he or she must consult with the Dean. The Dean will determine another appropriate Responsible Academic Officer to deal with the matter.
- 3.3 A Responsible Academic Officer is not personally involved in any aspect of an allegation by reason only of the fact that he or she hears or deals with the allegation under the Rules.

4. Notification of an allegation

- 4.1 When an academic staff member, in his or her academic judgment, identifies a possible incident of plagiarism (see section 4.6 Policy for the Assessment of Coursework Subjects) the matter may be referred as an allegation of misconduct to the Subject Coordinator (if applicable).
- 4.2 The academic staff member and/or the Subject Coordinator will obtain and collate all information relevant to the allegation of plagiarism (Supporting Evidence) and submit this to the Responsible Academic Officer.
- 4.3 The Responsible Academic Officer may make such other inquiries as he or she considers necessary in order to consider the allegation.
- 4.4 If, after considering the Supporting Evidence and any other relevant information, the Responsible Academic Officer determines that the allegation is without foundation, or that there is insufficient information to support the allegation or to warrant further investigation, the Responsible Academic Officer may determine not to take further action in relation to the allegation.
- 4.5 In all other cases, the Responsible Academic Officer must, in writing, and as soon as possible:
 1. notify the student of the allegation and provide a copy of the Supporting Evidence, or if it is not appropriate for the student to receive a copy of the whole of the Supporting Evidence (for reasons including but not limited to privacy issues) provide a redacted copy of the Supporting Evidence but which includes all of the information on which the Responsible Academic Officer's decision will be based; and
 2. provide the student with a copy of, or an electronic link to, the relevant Rules and guidelines; and
 3. give the student a reasonable period, being a period of not less than five working days, to respond in writing; and

Footnote

1. Definition from the Australian Learning and Teaching Council (ALTC) Good Practice Guide for Handling Student Grievances and Discipline Matters 2009.

4. if the Responsible Academic Officer considers it necessary, request the student to attend a meeting with the Responsible Academic Officer and the Subject Coordinator at least 5 working days after the date of notification; and
 5. in the event that the student is requested to attend a meeting, advise the student that he or she is entitled to bring a support person to the meeting.
- 4.6 The Responsible Academic Officer may place limitations on the role of any such support person. For example, in some circumstances it may be appropriate for such support person to assist by answering questions, or addressing issues raised, on the student's behalf. A support person will not be permitted to act as an advocate or legal representative on behalf of the student unless the Responsible Academic Officer determines that this is warranted by exceptional circumstances.

5. Meeting with the student (if required)

- 5.1 If the student has been requested to attend a meeting with the Responsible Academic Officer, he or she must:
1. explain the nature of the allegation of plagiarism;
 2. provide an explanation of plagiarism and the reasons why the student's work appears to constitute plagiarism;
 3. inform the student that the University views plagiarism as serious misconduct and that a record of the meeting and the outcome will be placed on the student's confidential file; and
 4. invite the student to provide an explanation about the allegation.
- 5.2 At the conclusion of the meeting the student will be requested to sign a statement about good academic practice.

6. Matters to be referred to the Registrar

- 6.1 If at any time during his or her consideration of the allegation the Responsible Academic Officer believes the alleged misconduct involves:
- (a) misconduct other than plagiarism; or
 - (b) plagiarism and any other form of misconduct the Responsible Academic Officer must refer the matter to the Registrar to be handled in accordance with Rule 16.12.

7. Responsible Academic Officer's Decision

- 7.1 If a student fails to respond to reasonable attempts by the Responsible Academic Officer for the student to provide a written response to the allegation of plagiarism, or fails to provide acceptable reasons for not complying with a request to attend a meeting, the Responsible Academic Officer must proceed to handle the matter in accordance with these guidelines and based on the Supporting Evidence.
- 7.2 In determining what penalty, if any, to impose, the Responsible Academic Officer may have regard to:
1. the extent of the alleged plagiarism as it relates to the work being assessed;
 2. the proportion of the overall mark for the subject represented by the assessment item;
 3. any conventions associated with the discipline to which the subject relates and the academic discipline overall;
 4. whether the student has a previous record of plagiarism;
 5. whether the student is inexperienced or demonstrates a genuine lack of understanding of academic integrity and honesty;
 6. whether the circumstances reveal confusion among students enrolled in a subject about assessment (for instance, confusion about acceptable levels of cooperation among students involved in collaborative group work); and
 7. in relation to group work, if a particular student responsible for part of an assignment or project submits plagiarised work, another individual in the group should not be penalised unless that other individual in the group has knowingly participated in the submission of the plagiarised work.
- 7.3 In coming to a decision, the Responsible Academic Officer must have regard to:
- (a) the student's written representation or representations at the meeting (if any); and
 - (b) any previous case of student misconduct which the Responsive Academic Officer believes is similar to the case that he or she is considering.

- 7.4 In cases where there is no record of previous misconduct involving plagiarism or the matter is found not to have involved a deliberate attempt to deceive or to gain an unfair advantage, or a clear disregard of assessment requirements including but not limited to situations where:
- (a) the student is inexperienced or demonstrates a genuine lack of understanding of academic integrity and honesty; or
 - (b) the circumstances reveal confusion among students enrolled in a subject about assessment (for instance, confusion about acceptable levels of cooperation among students involved in collaborative group work) the Responsible Academic Officer may do one or more of the following:
 - (i) issue the student with a formal warning;
 - (ii) permit the student to re-do and submit the assessment item with appropriate acknowledgment of source material included with a reduced mark to no more than a specified percentage, normally fifty (50)%, of the maximum possible mark in the assessment task;
 - (iii) allow further work to be submitted (normally a revised submission of the original work). The revised assignment or further work can only be awarded a specified percentage, normally fifty (50)%, of the total possible marks for the assessment item. For subjects where the submission of a revised assessment item is not practical, the Responsible Academic Officer may determine another penalty below as appropriate.
- 7.5 If the Responsible Academic Officer finds that there has been misconduct involving plagiarism, the Responsible Academic Officer must also inform the student that any similar incident occurring at any time in the future may result in a further penalty such as zero mark, suspension or exclusion.
- 7.6 If there is a record of previous misconduct involving plagiarism, and/or there is clear evidence of an attempt to deceive, gain an unfair advantage, or a clear disregard of assessment requirements, the Responsible Academic Officer may impose any of the penalties below as appropriate, as provided in Rule 16.3.1(9):
- (a) a zero mark and 'Fail' result for any part or parts of the assessment of the subject;
 - (b) a requirement that the student re-do and submit a specific assessment task, with a reduction in marks to no more than a specified percentage, normally fifty (50) per cent, of the maximum possible mark in the assessment task;
 - (c) a requirement that the student must undertake another alternative assessment task, for which the maximum possible mark can be no greater than a specified percentage, normally fifty (50) per cent, of the maximum possible mark in the assessment task;
 - (d) a zero mark and 'Fail' result for the total assessment in the subject, in which case the zero mark and 'Fail' result will be denoted on the official record of the student in the same way as a 'Fail' result awarded in the usual way.
- 7.7 Where one of the above penalties has been imposed, the Responsible Academic Officer must notify the student in writing of the decision and the student's right of appeal under Rule 16.15.
- 7.8 If the Responsible Academic Officer determines that a more serious penalty is appropriate, such as suspension or exclusion from the course or the University, the Responsible Academic Officer must refer the matter to the Registrar to be handled in accordance with Rule 16.12. The Responsible Academic Officer must notify the student in writing that the matter has been referred to the Registrar and that the student may within 5 working days make written representations to the Registrar about the recommendation.
- 7.9 A copy of all relevant documentation must be sent to the Student Misconduct and Appeals Team, Governance Support Unit, or as directed by the Registrar, for relevant details to be entered on the Student System as appropriate and to file the documentation on the student's confidential file. Where a zero mark for the subject has been imposed an Authority to Vary Results (AVR) form must be submitted with the documentation.

8. Records

- 8.1 A copy of all records must be sent from Student Misconduct and Appeals, Governance Support Unit to Student Administration Records to be scanned.

Form of ballot

24. (1) A ballot must be a secret ballot using the quota preferential system. Ballots may be conducted by post, by attendance at a polling booth or by way of an electronic

voting system that has been approved for use by the Registrar in accordance with clause 25. Subject to the Act, the By-law and these Rules, the Returning Officer shall determine which method or methods shall be used for any particular ballot.

- (2) Ballot papers, or the component of the electronic voting system that records a vote cast by the voter, as the case may be, must contain the names of the candidates in the order drawn at random by the Returning Officer or by a person appointed by the Returning Officer for the purposes of the election.

Requirements for electronic voting system

25. The Registrar may approve an electronic voting system for use where the Registrar is satisfied that the system:
- will provide a voter with instructions on how to vote;
 - will allow a voter to indicate his or her preferences of candidate or candidates;
 - gives a voter an opportunity to correct any mistakes before submitting his or her vote;
 - allows a voter to make an informal vote;
 - will not allow a person to find out how a particular voter cast his or her vote;
 - will not allow a voter to vote more than once for any ballot; and
 - will only allow a voter to vote in an election for which he or she is eligible to vote.

Conduct of ballot by post

26. (1) Where the Returning Officer has determined under clause 24 that a ballot will be conducted by post, the Returning Officer must send or deliver to each person whose name is on the roll of eligible voters for the relevant election, prepared in accordance with clause 19(4):
- a ballot paper, initialled by the Returning Officer or by a person authorised by the Returning Officer
 - the edited statements provided by candidates in accordance with clause 22(4)
 - a notice setting out how the ballot papers are to be completed and specifying the date and time of the close of ballot
 - two envelopes, one marked "Ballot Paper" and the other addressed to the Returning Officer, on the inside of which must be printed a form of declaration of identity and of entitlement to vote to be signed by the voter.
- (2) Following receipt of a written application, the Returning Officer may, on being satisfied that a ballot paper has been lost or destroyed, supply a duplicate ballot paper to the person to whom the lost or destroyed ballot paper was issued.

- (3) A voter must:
 - (a) mark a vote on the ballot paper by placing the figure "1" in the square opposite the name of the candidate to whom the voter desires to give his or her first preference vote, and may place consecutive figures (commencing with the figure "2") in the squares opposite the names of any of the remaining candidates, so as to indicate by numerical sequence the order of the voter's preference for them
 - (b) sign the form of declaration of identity and entitlement to vote
 - (c) ensure that the Returning Officer receives the ballot paper enclosed and sealed in the envelope marked "Ballot Paper" which must be enclosed and sealed in the envelope addressed to the Returning Officer; and
 - (d) ensure that the Returning Officer receives the ballot paper before the close of ballot.
- (4) All envelopes received by the Returning Officer under this clause must be deposited in the relevant ballot box and remain unopened until the close of ballot.
- (5) An election is not invalid only because a person whose name is on the relevant roll of eligible voters did not receive ballot papers.
- (6) Only those ballot papers received by the close of ballot will be counted as part of the procedure outlined in clause 29.

Conduct of ballot by attendance at polling booth

27. (1) Where the Returning Officer has determined under clause 24 that a ballot will be conducted by attendance at a polling booth, the Returning Officer must
 - (a) publish in such manner as the Returning Officer considers necessary a notice specifying the dates and times of polling, the location of polling booths, the procedures governing the application for a postal vote by voters who are unable to attend a polling booth, and any other relevant information, and
 - (b) establish on the University premises polling booths attended, during the dates and times for polling, by persons appointed by the Returning Officer for the purpose of initialling and issuing ballot papers to each person who requests one and is recognised by one of the appointed attendants as being a person whose name is on the roll of eligible voters prepared in accordance with clause 19(4), and
 - (c) display at the polling booths the edited statements provided by candidates in accordance with clause 22(4).

- (2) A voter must, before the close of ballot, attend a polling booth to obtain a ballot paper and
 - (a) mark a vote on the ballot paper by placing the figure "1" in the square opposite the name of the candidate to whom the voter desires to give his or her first preference vote, and may place consecutive figures (commencing with the figure "2") in the squares opposite the names of any of the remaining candidates, so as to indicate by numerical sequence the order of the voter's preference for them
 - (b) deposit the ballot paper in the relevant ballot box provided for the purpose at the polling booth.
- (3) The ballot box is to remain unopened until the close of ballot.
- (4) An election is not invalid only because a person whose name is on the relevant roll of eligible voters did not see the notice published in accordance with sub-clause (1)(a).

Conduct of ballot by electronic voting system

28. (1) Where the Returning Officer has determined under clause 24 that a ballot will be conducted by way of an electronic voting system, the Returning Officer must publish a notice:
 - (a) detailing the nature of the election and setting out instructions on how and when voters may obtain access to the electronic voting system
 - (b) advising how voters may obtain access to the edited statements provided by candidates in accordance with clause 22(4).
- (2) The voter must submit a vote, after the commencement of the ballot and before the close of ballot, in accordance with the instructions provided in the electronic voting system.
- (3) An election is not invalid only because a person whose name is on the relevant roll of eligible voters did not see the notice published in accordance with sub-clause (1).

Procedure on close of ballot

29. As soon as practicable after the close of the ballot, the Returning Officer or a person appointed by the Returning Officer must:
 - (1) in the case of an election conducted by post or by attendance at a polling booth:
 - (a) open the ballot boxes, and
 - (b) open any envelopes addressed to the Returning Officer and received before the close of the ballot, and
 - (c) if any declaration of identity is duly signed by a qualified voter, place the unopened envelope containing the ballot paper with other similar envelopes, and

- (d) open the envelopes referred to in paragraph (c) and take out the ballot papers, and
 - (e) count the votes, and ascertain the result of the ballot, in the manner set out in clause 32.
- (2) in the case of an election conducted by way of an electronic voting system, generate a count of the votes, using a methodology such that the results obtained are as if the votes were recorded on ballot papers and the count was conducted in accordance with clause 32.

Informal vote

30. (1) A vote is informal if the voter has not indicated a clear preference for at least one candidate or if it is possible, in the opinion of the Returning Officer, to identify the voter.
- (2) In the case of a ballot conducted by post or by attendance at a polling booth, a vote is also informal if the ballot paper has not been initialled in accordance with clause 26(1)(a) or clause 27(1)(b), respectively.
- (3) In the case of a ballot conducted by post or by attendance at a polling booth and despite any other provision of this clause, a vote is not informal only because any figures placed on the ballot paper are not placed in or entirely in the squares opposite the candidates' names, if the figures are placed on the ballot in such positions as, in the opinion of the Returning Officer, clearly indicate the order of the voter's preference for the candidates.

Nomination of scrutineers

31. (1) Each candidate is entitled to nominate one scrutineer who is a member of the staff or students of the University to be present at the count.
- (2) A person is not to be a scrutineer in an election in which he or she is a candidate.
- (3) A scrutineer is subject to the conditions specified by the Returning Officer for attendance at the count.

Determination of result of ballot

32. (1) In this clause:
- an absolute majority of votes** means a greater number than one-half of the whole number of formal ballot votes counted.
- continuing candidate** means a candidate not already excluded from the count.
- determine by lot** means determine in accordance with the following directions:
- (a) the names of the candidates concerned must be written on separate and similar slips of paper,
 - (b) the slips must be folded so as to prevent identification and mixed and drawn at random,
 - (c) the candidate whose name is first drawn must be excluded.

- (2) If a ballot has been held for the purpose of an election the result of the ballot must be determined as provided in this clause.
- (3) The Returning Officer must count the total number of ballot votes and exclude any informal votes.
- (4) The Returning Officer must count the number of first preference votes given for each candidate.
- (5) Where there is one position to be filled:
 - (a) The candidate who has received the largest number of first preference votes must, if that number constitutes an absolute majority of votes, be declared by the Returning Officer to be elected.
 - (b) If no candidate has received an absolute majority of first preference votes, the candidate who has received the fewest first preference votes must be excluded and each of the ballot papers counted to that candidate must be counted to the continuing candidate next in order of the voter's preference.
 - (c) If on any count 2 or more candidates have an equal number of votes and one of them has to be excluded, the candidate to be excluded must be determined as follows:
 - (i) if the count is the first made in connection with the ballot, the Returning Officer must determine by lot which of those candidates is to be excluded,
 - (ii) if the count is the second or subsequent count made in connection with the ballot:
 - (A) that candidate must be excluded who had the least number of votes at the last count at which one of those candidates received fewer votes than each of the others, or
 - (B) the Returning Officer must determine by lot which of those candidates is to be excluded, if at all preceding counts no one of those candidates received fewer votes than each of the others.
 - (d) The process of excluding the candidate who has the fewest votes and counting each of the ballot papers counted to that candidate to the continuing candidate next in order of the voter's preference must (subject to subclause (5)(e)) be continued:
 - (i) until one continuing candidate has an absolute majority of votes in which event that candidate must be declared by the Returning Officer to be elected, or

- (ii) until all candidates but one have been excluded in which event the remaining candidate must be declared elected.
- (e) If at any point during any particular count after the first preference votes have been counted, the candidate next in order of a voter's preference is not indicated or cannot be ascertained, that ballot paper must, from that point onwards, be excluded from that particular count and the total of the ballot papers counted must be amended accordingly.
- (6) Where there is more than one position to be filled the result of the ballot is to be determined in accordance with the procedures set out in the most recently published edition of the publication entitled *Proportional Representation Manual: Rules for Conducting Elections by the Quota Preferential Method* published by the Proportional Representation Society of Australia, a copy of which is available from the Returning Officer.

Secrecy of ballot to be maintained

- 33. (1) The result of the ballot must remain confidential until the declaration of poll by the Returning Officer.
- (2) The Returning Officer or any person appointed by the Returning Officer or any scrutineer must not in any way disclose or aid in disclosing the manner in which any voter has voted.
