

## **Document library – Indigenous fisheries and Sea Country**

The following document library is a list of documents on Indigenous fisheries and Sea Country, including downloadable links. This is intended to collate resources that can support better engagement between Indigenous and non-Indigenous groups with respect to these issues.

Documents included in this list cover primarily Indigenous-led sea country and Indigenous Protected Area planning documents produced since c.2000, and Commonwealth public inquiries or commissioned research since the mid-1980s (with some state level documents included). Our focus in collating these documents is to highlight those publicly available statements that have been made by Indigenous Nations related to their rights, responsibilities and interests in fisheries and their Sea Country over a very long period of time.

Work to collate documents in this database was undertaken with the financial support of the Fisheries Research and Development Corporation, support via Project 2021-024 “Development of an Indigenous Engagement Strategy for fishing interests with a focus on Commonwealth fisheries.” The document library at this stage reflects the Commonwealth focus of the project that supported its development. Future work on this document library may include a more comprehensive set of documents, for example covering each state/territory jurisdiction in more detail, and key international cases of relevance to current developments in Australia, and creating a simple web-hosted database to facilitate easier access of these documents.

If you would like more information or would like to provide documents to add to the library please contact UTS project co-ordinator Nick McClean.

### **Note on copyright and intellectual property:**

UTS respect the ownership of all cultural and intellectual property in these documents by Indigenous owners. Quotation and reproduction of documents in this library is subject to the terms specified in each document.

Where an item has the following attributes it is considered in the public domain and has been uploaded to the UTS website with a link shared here, to ensure accessibility into the future for as long as possible:

- Creative commons license specified.
- Reproduction or use for non-commercial and/or research purposes specified.
- Document is a government report already in the public domain.

Where an item has not had any of these attributes specified, a link to the public website where the report has been made available by the owners is provided. The document library is accurate as at Feb 2025. Errors in web links may occur, and documents may not be available in perpetuity, where the owners of those documents choose to remove from the public domain.

The following documents were used in the initial review but were no longer available online at the time of compiling the database. *Mandimalbay IPA Planning* by the Mandimalbay Yidinji Aboriginal Corporation (2010) and the *Cape York Turtle and Dugong Regional Plan* by the Traditional Owners of Cape York with support from Balkanu Cape York Development Corporation (2013)
