UTS profile

UTS's vision is to be a world-leading university of technology. The university has an innovative teaching and learning model, which is both practice-oriented and research-inspired, and integrates the best of online and face-to-face experiences.

Students gain real-world experience through UTS's strong links to industry and graduates are equipped with the latest discipline-specific skills and practices.

UTS research spans a range of disciplines, including health, data sciences, civil engineering, sustainability, social futures, future work and industry, applied economics, robotics, microbiology and quantum computation. UTS researchers provide practical and relevant solutions to issues of national and international importance.

The social and cultural diversity of the UTS community creates a vibrant and rich place to learn and work. The university is based in the heart of Sydney's creative precinct and close to the city centre. Its state-of-the-art campus features innovative spaces to support new ways of thinking, and utilises new technologies to equip students for the workplaces of the future.

UTS is the top ranked young university in Australia (*Times Higher Education* Young University Rankings 2017 and the QS Top 50 Under 50 ranking 2017–2018).

Strategic plan

The vision, objectives and priorities of the university are set out in the UTS Strategic Plan 2009–2018.

Four key strategic objectives have been established to help UTS achieve its vision of being a world-leading university of technology.

1. Inspire graduate success: Engage our students in creative and inspiring learning that enables them to build strong professional identities, future-focused graduate capabilities and global citizenship.
2. Enhance our research performance: Increase the scale, quality and impact of research in our discipline fields.
3. Connect and engage: Leverage our environment to connect students, staff, alumni, industry and the community to create sustained opportunities for collaborative learning, innovative research and enduring relationships.
4. Adapt and thrive: Lead UTS into a sustainable future; fostering creativity, agility and resilience in our people, processes and systems.

An important part of the strategic plan is the statement of UTS values: discover, engage, empower, deliver and sustain. These values guide the behaviours that support UTS in achieving its vision.

Governance at UTS

UTS's object and functions are outlined in section 6 of the *University of Technology Sydney Act 1989* (NSW) (UTS Act).

Governance at UTS operates within the framework prescribed by the UTS Act and the University of Technology Sydney By-law 2005 (NSW), and the rules, policies and directives as determined by the authoritative decision-making bodies of the university.

UTS Council, the governing body

The university is governed by a 20-member Council, including elected and appointed members who have the expertise and background relevant to UTS's governance needs. The Council's powers are set out in the UTS Act, the UTS By-law and UTS Rules.

Academic Board

Council has delegated to Academic Board a range of powers for academic matters. Academic Board advises Council on the university's core business of teaching, learning and research.

UTS Council

UTS Council is the university's governing body. Council's powers and functions include the control and management of the university's affairs and concerns. Council may act in all matters in a manner that best promotes UTS's objectives and interests. As constituted in accordance with the provisions of the UTS Act, and other university governance instruments, the UTS Council consists of the following members.

- 3.1.2 The University will publish details of approved courses of study in the UTS: Handbook and other official publications of the University from time to time. Such publication does not constitute an offer or undertaking of the availability of any course at any particular time.
- 3.1.3 The University reserves the right not to make offers of admission to any course for either a specific or indeterminate period of time.
- 3.1.4 The University reserves the right to phase out, discontinue, review or vary courses, arrangements for courses or staff allocations at any time without notice.
- 3.1.5 Available places in courses are limited and also subject to the availability of resources, facilities, staff and supervisors. It may not be possible to make offers of admission to all applicants who satisfy the requirements for admission. Where this is the case, the University will take reasonable measures to ensure that admission is made on the basis of academic merit, comparative aptitude and such other criteria as are approved and published from time to time.

3.2 General course requirements

3.3 Legislative requirements

- 3.3.1 Special conditions may need to be specified in respect of certain courses offered by the University because of legislative requirements.
- 3.3.2 For students undertaking professional experience that involves direct contact with people under the age of 18, the following conditions will apply:
 - (1) all students admitted to these courses must complete required declarations and have required personal information checked by government authorities;
 - (2) eligibility for commencement and continuing participation in these courses is determined on the basis of information obtained through these checks;
 - (3) the provision of inaccurate or unsatisfactory information, the receipt of unsatisfactory information or the refusal to undergo these checks may result in withdrawal of an offer of admission to that course and/or cancellation of enrolment.

3.4 Professional experience requirements

- 3.4.1 A number of courses offered by the University require students to undertake professional experience.
- 3.4.2 The University and the provider of professional experience may appoint a suitably qualified supervisor who is external to the University to supervise a student's practical professional experience.
- 3.4.3 While undertaking professional experience, a student may be summarily excluded from facilities and/or from participation in activities in accordance with Rule 16.9.
- 3.4.4 If, while undertaking professional experience, a student is summarily excluded from facilities and/or from participation in activities then under Rule 16.9.7 the relevant circumstance or incident may be referred to the Director, Governance Support Unit as an allegation of student misconduct; or referred to the Vice-Chancellor or Vice-Chancellor's nominee to be handled under Rule 2.1.9; or dealt with under Rule 3.4.5.
- 3.4.5 If a student is assessed as not ready to proceed with, or unsuitable to continue, the required professional experience, the student may be unable to complete the course requirements. The following process will apply:
 - (1) Where the Responsible Academic Officer believes it necessary, the Responsible Academic Officer, in consultation with the external supervisor (if any), will assess whether a student is ready to proceed with or is suitable to continue, any part of the required professional experience on its scheduled commencement, and the Responsible Academic Officer may defer or reschedule the student's participation;
 - (2) The Responsible Academic Officer must advise the student and the Dean in writing of the decision within three working days of making it.
- 3.4.6 Where the deferral of a student's participation in any part of the required professional experience would have the effect of preventing the student from continuing his or her course the Responsible Academic Officer, with the agreement of the Dean, will refer the matter, with an appropriate recommendation, to the Deputy Vice-Chancellor (Education and Students), who will take action and make a decision as deemed appropriate. A decision may be made that a student is unsuited for further professional experience and his or her enrolment will be withdrawn.
The withdrawal of a student's enrolment will take effect from the later of the following:
 - (a) where a student does not lodge an appeal under Rule 3.4.8 – the date on which the deadline to lodge the appeal passed (taking into account any extensions granted under Rule 3.4.10); or
 - (b) where a student lodges, but subsequently withdraws an appeal under Rule 3.4.11 – the date on which the appeal was withdrawn; or
 - (c) where an appeal lodged by a student is referred to the Professional Experience Appeals Committee under Rule 3.4.13 and the Committee dismisses the appeal under Rule 17.7.2(4) – the date on which the student is notified of the Committee's decision.

- 3.4.10 A student may request an extension of time in which to lodge an appeal under Rule 3.4.8. The request must be made in writing to the Director, Governance Support Unit within 15 working days of the date on which the student was notified of the decision of the Deputy Vice-Chancellor (Education and Students). The decision to grant an extension, and the length of the extension, is at the discretion of the Director, Governance Support Unit.
- 3.4.11 At any stage of the appeal process, a student may withdraw their appeal by advising the Director, Governance Support Unit in writing.
- 3.4.12 The grounds for appeal are:
- (1) procedural irregularities in the decision-making process of a type and to an extent that are likely to have had a significant negative impact on the decision;
 - (2) mitigating circumstances, supported by documentary evidence, which directly and significantly affected the student's performance which were not known at the time of making the decision, of a type and to an extent that make it likely that the student could complete the professional experience in the future;
 - (3) the decision was based on factual errors of such magnitude as to invalidate the decision;
 - (4) the conclusion as to the student's suitability for further professional experience was manifestly unreasonable, taking account of all the circumstances of the matter and the relevant professional standards and practices.
- 3.4.13 The Director, Governance Support Unit will refer the student's appeal to the Professional Experience Appeals Committee, constituted under Rule 17.3, for consideration and decision. The student will be given the opportunity to address the Committee in person.

In special cases, consideration will be given to experience obtained prior to admission to a course.
- 3.5.2 Where students have not satisfied the required occupational requirements prescribed for the particular course within the time limits for completion of the particular course, or as otherwise specified for that course, the matter will be considered in the first instance by the relevant Responsible Academic Officer for an appropriate recommendation to the Dean who will take action and make a decision as deemed appropriate. The decision may include that the student's enrolment will be withdrawn.
- 3.5.3 The Dean must notify the student in writing of any decision made within three working days of making it.
- 3.5.4 The Dean's decision is final and there is no appeal.

3.6 Changes to courses

- 3.6.1 Academic Board has authority to approve the phasing out, discontinuation, revision or variation of an existing course.

- 3.6.4 If a student is required to undertake a revised version of a course, the relevant Responsible Academic Officer, in consultation with the student, must provide transitional arrangements for the student which will satisfy the requirements of the revised version of the course. Details of these arrangements must be provided to the Director, Student Administration Unit (or nominee) who shall ensure that they are recorded and the University shall use these arrangements as the basis for determining the student's academic progress and completion of course requirements.
- 3.6.5 If a student who is enrolled in a course that has been approved for discontinuation does not complete the course within the approved phasing out period, the relevant Responsible Academic Officer will provide advice to the student on alternative arrangements that the student may wish to pursue at the University or elsewhere.

- 3.8.4 Where appropriate, the Responsible Academic Officer in consultation with the Subject Coordinator may approve suitable alternative arrangements.
- 3.8.5 Approval of alternative arrangements for attendance and/or participation does not imply exemption from payment of any fees or charges, nor does it imply exemption from, or concessions relating to, assessment or examinations. Alternative arrangements will be subject to normal assessment grading.

3.9 Retention of students' work

- 3.9.1 The University reserves the right to retain the original or one copy of any work executed and/or submitted by a student as part of the course including, but not limited to, drawings, models, designs, plans and specifications, essays, programs, reports and theses, for any of the purposes designated in Rule 3.9.2. Schedule 3 — Guidelines Relating to Student Misconduct and Appeals

1. Introduction

- 1.1 These guidelines have been prepared for the benefit of all people involved in the processes established by the University to deal with allegations of misconduct made against students and with appeals lodged by students against decisions arising from such allegations.
- 1.2 The guidelines are divided into four sections: this introduction, general principles, guidelines for inquiry bodies and guidelines for student misconduct appeals committees.
- 1.3 The term ‘inquiry bodies’ refers to the University Student Conduct Committees and Student Misconduct Appeals Committees, but also extends, as necessary, to the Vice-Chancellor, Vice-Chancellor’s nominee, Provost, Responsible Academic Officer and the Director, Governance Support Unit.
- 1.4 Notwithstanding these sectional headings, the guidelines are designed for use by all who play some role in these processes and should be freely distributed to students and their advisers and academic and support staff who have a need for knowledge of student misconduct and appeal matters. In particular, they are to be given to all students at the time formal allegations of misconduct are made against them.
- 1.5 The guidelines take into account the University’s Rules and procedures and the principles of procedural fairness.

2. General principles

- 2.1 All persons who are the subject of recommendations or decisions of others are entitled to be treated fairly, with dignity and with due regard to their privacy.
- 2.2 Persons are entitled to be regarded as not having behaved in an alleged manner until and unless they admit that behaviour or a fair and proper inquiry leads to a reasonable conclusion that they have so behaved.
- 2.3 Knowledge that a person has behaved in a particular way in the past is not evidence that the person has behaved in the same manner again. Such knowledge may be evidence that the person is aware that the behaviour is an act of misconduct (or it may be relevant to the level of penalty).
- 2.4 Each case must be dealt with on its own terms and merits and in accordance with its own circumstances.

3. Guidelines for inquiry bodies

- 3.1 Before any conclusion is reached in an inquiry into alleged misconduct by a student, the student must be:
 - given the precise terms of and any reasons for the allegation;
 - given an outline or summary of all details intended to be given to the inquiry body;
 - given access to or a copy of documentation intended to be given to the inquiry body; and
 - given an opportunity to address all the information supplied.
- 3.2 The inquiry body must ensure that the student has a clear understanding of the allegation, of the nature of the evidence in its support and of the process which the inquiry body intends to follow and of the student’s rights with respect to that process. A copy of, or an electronic link to, these guidelines is to be given to the student at the time the student is formally made aware of the allegation.
- 3.3 The amount of detail that is given to the student is dependent upon the circumstances. Generally, a student’s request for details and access to documents relating to allegations about that student should be met, except where the information being sought:
 - is an infringement upon the privacy of others;
 - may cause the safety of others to be at risk;
 - is irrelevant and/or excessive in amount.
- 3.4 The student must be given adequate time to prepare for the inquiry and to deal with the information provided. What is adequate depends upon the nature of the matter and the volume and complexity of the information.
- 3.5 The student must have an opportunity to seek advice. In some circumstances it may be appropriate for the University to make arrangements for advice to be given. The Director, Governance Support Unit may seek advice on the University’s behalf at any stage. There may be a need for translating and/or interpreting services to be provided.
- 3.6 If the student fails to respond to reasonable attempts by the committee to communicate or does not provide the committee with acceptable reasons for not attending a hearing, the committee will make its own determination as to whether it will adjourn or proceed in the absence of the student.

- 3.7 The student's opportunity to address the information should be in person, in writing or both. The student should always have the option of having a friend or adviser present during any questioning or hearing. The inquiry body may place limitations on the role of a friend or adviser, for example, in some circumstances it may be appropriate for the student's friend or adviser to assist the investigating body by answering questions or addressing raised issues on the student's behalf. In most University circumstances, a friend or adviser present is not permitted by the inquiry body to act as an advocate or legal representative. Only in exceptional circumstances will legal representation be allowed.
- 3.8 The student may admit or deny the allegation, correct information as presented, provide an explanation, disclose mitigating factors or address the matters in other ways which the inquiry body finds relevant.
- 3.9 The student must be given the opportunity of calling other persons to provide evidence in support of the student's defence against the allegation and the student should be allowed to lead any such witnesses through their evidence.
- 3.10 During the course of a hearing, the student should be given an opportunity of questioning any witness or other person who has supplied information to the inquiry body. A right to question does not imply a right to harass.
- 3.11 A person whose evidence provided to the inquiry body is questioned should be given an opportunity to respond to such questions.
- 3.12 During the course of inquiry, neither the fact that there is an inquiry nor any information relating to it or to the student should be disclosed to people who do not have a legitimate reason to have such information. Accordingly, hearings are normally held in camera.
- 3.13 Without compromising the thoroughness of an inquiry it should take place without any unnecessary delays, taking into account the reasonable needs of the student to be properly prepared.
- 3.14 The inquiry body should take into account all of the relevant information it has before it except any information which the student has not had an opportunity of addressing.
- 3.15 Knowledge which the inquiry body has of any past offences or other misconduct committed by the student may be taken into account only:
 - as evidence that the student was aware that certain actions constitute misconduct; and
 - as one factor in the consideration of the level of penalty, if the inquiry body finds that the present allegation of misconduct is proven.
- 3.16 The student is entitled to be given the reasons for the decision and/or recommendation at the time it is made known to the student.
- 3.17 The inquiry body is responsible for determining who, in addition to the student and any other person as provided for in the Rules against whom the allegation was made, should receive formal notification of the decision and/or recommendation and the reasons for it. In making this determination, the inquiry body will take into account potentially conflicting needs of the student for privacy and of others who participated in the process and who may have ongoing responsibility for University courses or facilities. In circumstances where an alleged victim of a crime of violence or a nonforcible sex offence makes a written request, the University will disclose to the alleged victim any decision and/or recommendation and the reasons for it with respect to any disciplinary proceeding conducted by the University against a student who is the alleged perpetrator of such crime or offence with respect to such crime or offence. The inquiry body may impose conditions of confidentiality on any person who is so notified.

4. Guidelines for Student Misconduct Appeals Committees

- 4.1 Each Student Misconduct Appeals Committee will determine its own procedures consistent with these guidelines.
- 4.2 Where a student does not dispute a finding of an inquiry body, but appeals against the severity of a penalty imposed, the Student Misconduct Appeals Committee may decide to rehear the matter in full or to limit its work to a consideration of the penalty.
- 4.3 Where the Student Misconduct Appeals Committee finds it cannot discharge its responsibilities unless it rehears the matter in full (i.e. treats it as a fresh investigation), it shall do so. There may be circumstances that make it acceptable for a committee to confine itself to dealing afresh with points raised by the student in any stated grounds for the appeal.
- 4.4 The student is free to raise questions of process and/or merit with respect to the original inquiry. The student may repeat, correct or otherwise amend points made at the original inquiry, provide further explanation, disclose additional mitigating factors or address the matters in other ways which the committee finds relevant. If the student advances new evidence, the committee may hear the appeal or refer the matter to the original inquiry body.
- 4.5 The student must be given reasonable time to prepare an appeal based upon stated reasons for the original decision.

- 4.6 The student must have an opportunity to seek advice; in some circumstances it may be appropriate for the University to make arrangements for advice to be given. There may be a need for translating and/or interpreting services to be provided.
- 4.7 The student's opportunity to address the information should be in person, in writing or both. The student should always have the option of having a friend or adviser present during any hearing. The committee may determine any limitations that may be placed on the role of a friend or adviser present at a hearing. For example, in some circumstances it may be appropriate for the student's friend or adviser to assist the committee by answering questions or addressing raised issues on the student's behalf. In most University circumstances, any friend or adviser present need not be permitted by the committee to act as an advocate or legal representative. Only in exceptional circumstances will legal representation be allowed.
- 4.8 If the committee considers that a student has an acceptable reason for being unable to attend a hearing (e.g. an international student who has returned home during a vacation period), the committee may permit the student to nominate a representative to attend. The committee may permit the student to use telecommunication facilities to participate in all or part of a hearing, if such facilities are readily available at reasonable cost, or may adjourn for a reasonable time until the student is available.
- 4.9 If the student fails to respond to reasonable attempts by the committee to communicate or does not provide the committee with acceptable reasons for not attending a hearing, the committee will make its own determination as to whether it will adjourn or proceed in the absence of the student.
- 4.10 The Student Misconduct Appeals Committee determines the order of presentation, i.e. whether the student should open (by presenting a case for the overturning of the original finding and/or penalty) or whether the University should commence the appeal proceedings (by defending the decision of the inquiry body). The nature of the appeal and its circumstances are the determining factors.
- 4.11 In presenting the appeal case, the student is normally to be given the opportunity of calling other persons to provide evidence in support of the appeal and the student should be allowed to lead any such witnesses through their evidence in which case the appeal may proceed by way of rehearing afresh.
- 4.12 During the course of a hearing, the student should be given an opportunity of questioning any witness or other person who is giving evidence to the committee.
A right to question does not imply a right to harass.
- 4.13 The recommendation or decision against which the appeal is being made will be supported by the Director, Governance Support Unit (or nominee). The person providing this support must also be given adequate time to prepare.
- 4.14 Provided it is relevant to the approach taken by the committee, a person whose information given at the earlier inquiry is being questioned at the appeal, should be given an opportunity to respond to such questions.
- 4.15 The committee may appoint advisers as it deems appropriate but it will not commit itself to expenditure without the Director, Governance Support Unit's agreement. The Director, Governance Support Unit may also seek advice on the University's behalf at any stage of an appeal process.
- 4.16 During the course of an appeal, neither the fact that there has been an inquiry and there is now an appeal, nor any information relating to them or to the student, should be disclosed to people who do not have a legitimate reason to have such information. Accordingly, hearings are normally held in camera.
- 4.17 Without compromising the appeal's thoroughness, it should take place without any unnecessary delays, taking into account the reasonable needs of people involved to be properly prepared.
- 4.18 The Student Misconduct Appeals Committee should take into account all of the relevant information it has before it except any information which the student has not been given an opportunity of addressing.
- 4.19 Knowledge that the Student Misconduct Appeals Committee has of any past offences or other misconduct committed by the student may be taken into account only:
- as evidence that the student was aware that certain actions constitute misconduct; and
 - as one factor in the consideration of the level of penalty, if the Student Misconduct Appeals Committee finds that the allegation of misconduct, the decision on which is currently under appeal, is proven.
- 4.20 The Student Misconduct Appeals Committee has the following options:
- 4.20.1 it may, for any reason, refer a matter back to the inquiry body for further inquiry and decision;
- 4.20.2 it may uphold an appeal against a finding that the student has committed an act of misconduct, in which case any penalty imposed shall be nullified;
- 4.20.3 it may uphold an appeal against the severity of a penalty and reduce it to a lesser penalty from among those provided in the Rules;

4.20.4 it may dismiss an appeal against a finding that the student has committed an act of misconduct but determine that the penalty should be reduced to a lesser one from among those provided in the Rules;

4.20.5 it may dismiss the appeal.

If the Student Misconduct Appeals Committee chooses the option in Rule 4.20.1, the Director, Governance Support Unit will notify the Student Misconduct Appeals Committee Chair of the result of the inquiry body's reconsideration and whether or not it has been accepted by the student. If the student requests it, the Student Misconduct Appeals Committee will reconvene to hear the appeal.

- 4.21 The student is entitled to be given the reasons for the appeal decision at the time the decision is made known to the student.
- 4.22 The Student Misconduct Appeals Committee is responsible for determining who, in addition to the appellant student, should receive formal notification of the result of the appeal and the reasons for it. In making this determination, the committee will take into account potentially conflicting needs of the student for privacy and of others who participated in the process and who may have ongoing responsibility for University courses or facilities. The Student Misconduct Appeals Committee may impose conditions of confidentiality on any person who is so notified.

Schedule 4 — Guidelines on determining an appropriate penalty for instances of student misconduct

These guidelines have been prepared to assist all those involved in recommending, imposing and reviewing penalties for instances of misconduct, including the Vice-Chancellor, Vice-Chancellor's nominee, Responsible Academic Officers, University Student Conduct Committee, and Student Misconduct Appeals Committee.

The information contained in these guidelines may also be useful for academic and administrative staff dealing generally with cases of misconduct, as well as for any student subject to an allegation of misconduct.

The guidelines are structured as follows:

1. Principles
2. Scale of penalties
3. Issues specific to each type of penalty
4. Differential effects of penalties
5. Admissions of wrongdoing/level of contrition of student
6. Intent
7. Start/end dates of penalties
8. Status of student pending appeal outcomes
9. Timing of decisions
10. Records of misconduct on transcripts

While these guidelines provide general parameters for determining penalties, the appropriate penalty for an instance of misconduct ultimately must depend on the facts found in each case, and a body is free to depart from the principles set out in these guidelines where the facts indicate that such a course is appropriate. The appropriate penalty remains at the discretion of the body imposing it given that the circumstances of an instance of misconduct and the student present an almost infinite variety from case to case.

1. Principles

In recommending and/or determining an appropriate penalty for a proven instance of misconduct, an inquiry body and/or decision-maker must take into account:

- (1) the nature and context of the misconduct, including:
 - the objective circumstances of the misconduct (the facts in relation to the gravity of the misconduct itself) in order to gauge an appreciation of the seriousness of the misconduct;
 - the subjective circumstances of the student (aggravating and mitigating factors relating to the student rather than to the misconduct);
- (2) whether a student has admitted the misconduct, and/or has come forward of his or her own accord;
- (3) whether intent can be proven;
- (4) the student's expression of remorse or apology (where relevant);
- (5) the student's past conduct (refer 3.15 in Schedule 3 Guidelines Relating to Student Misconduct and Appeals). The nature and extent of a student's previous record of misconduct should be considered in all cases;

- (6) penalties imposed for previous similar cases to ensure consistency in decision-making;
- (7) the consequences of the penalty for the individual student (refer Section 4 (Differential effects of penalties)).

2. Scale of penalties

This scale provides a guide as to the normal, minimum and maximum penalties for specific cases of misconduct and the circumstances in which specific penalties are appropriate. This scale is not intended to be prescriptive and the Vice-Chancellor or Vice-Chancellor's nominee, Responsible Academic Officers or committees may need to adjust the penalty in individual cases according to the circumstances of that particular case. The penalties are generally graded according to severity, although it should be noted that some penalties are only appropriate for specific types of misconduct (e.g. fines can only apply to some forms of misconduct).

3. Issues specific to each type of penalty

3.1 Exclusion from the University

Refer Rule 16.3.1(4)

If a student is re-admitted to a course following a period of exclusion from the University, the student may be required to apply for credit recognition, i.e. for the subjects completed prior to the period of exclusion.

3.2 Exclusion from specified class/specified facility

Refer Rules 16.3.1(10) and 16.3.1(11)

A student who is excluded from specified classes or facilities may not be able to complete certain assessment tasks and this may impact on their final result for the subject.

3.3 Suspension from the University

Refer Rule 16.3.1(5)

Students who are suspended from the University for a specified period not exceeding 12 months will retain any credit points gained prior to the period of suspension.

3.4 Suspension from a course of the University

Refer Rule 16.3.1(6)

Students who are suspended from a course of the University will retain any credit points gained prior to the period of suspension. They may apply for admission to another course of the University during the period of suspension, except for non-award study in subjects that could be subsequently counted as exemptions towards the course from which they have been suspended.

3.5 Withholding of results/academic transcript/permission to graduate

Refer Rule 16.3.1(7)

Students whose results are withheld may not be able to proceed to the next stage of their course and it may impact on their employment situation or applications for admission to courses at other institutions. Students whose official academic records are withheld or who are not permitted to graduate may not be able to apply for admission to other courses, or may be limited in their employment opportunities. These penalties usually apply when a student is in, or has completed, their final teaching period before graduation. The penalties are usually imposed in conjunction with suspension and/or the withholding of results until fines or costs are paid.

3.6 Monetary penalties

- Rules 16.3.1(12) and 16.3.1(13)
These Rules enable the University to seek restitution for costs incurred in lengthy inquiries or proceedings or costs associated with loss and/or damage. These penalties are not fines. Fines are penalties imposed for the act of misconduct itself.
- Rule 16.3.1(14)
This Rule enables a reasonable monetary fine to be assessed. This penalty could be applied in conjunction with others such as Rules 16.3.1(12) and 16.3.1(13).

Fines may be appropriate for incidents such as:

- inappropriate and/or disruptive behaviour on campus (up to \$1000 maximum);
- contravening prescribed standards of acceptable conduct (up to \$1000 maximum);
- endangering the safety and/or security of people and/or property (up to \$2000 maximum);
- ignoring or disobeying a directive from a University Officer (up to \$500 maximum);
- refusing to identify oneself (up to \$100 maximum);
- allowing another person access to UTS email or computer account and facilities (up to \$500 maximum with increase to \$1000 for repeat offences);
- damage and destruction where the costs cannot be adequately measured for the purposes of cost recovery (e.g. destruction of intellectual property through hacking or destroying a computer which has other persons' work on it) (up to \$5000);
- library offences (up to \$150 per offence with upper limit of \$250 for repeat offence).

When considering fines as an effective and appropriate penalty for instances of misconduct, the following factors should be taken into account:

- A fine can only be imposed for certain forms of misconduct. A fine cannot be imposed for misconduct involving only plagiarism.
- A student's financial capability must be considered in imposing a fine; and where appropriate extensions of time to pay may be granted by the Director, Governance Support Unit.

3.7 Awarding of zero marks

Refer Rule 16.3.1(9)

When considering a penalty under Rule 16.3.1(9), it should be noted that if a student is awarded zero for any assessment item, it is unlikely that the student will be able to satisfactorily complete the subject for which the assessment task is set.

3.8 Conditions on enrolment

Refer Rule 16.3.1(8)

If conditions are imposed upon a student's enrolment and participation in specified subjects, this may impact on the student's ability to complete the course within a specified time period. This penalty may impose conditions on enrolment in certain subjects involving use of a laboratory, for example, or enrolment in subjects involving use of other facilities.

4. Differential effects of penalties

When imposing penalties, it is important that each student's individual circumstances, stage of enrolment and any relevant mitigating factors are taken into account. University Student Conduct Committees, Student Misconduct Appeals Committees, the Vice-Chancellor or Vice-Chancellor's nominee and Responsible Academic Officers may encourage students to make representation or submit evidence on the detrimental impacts of specific penalties in individual cases.

Some examples of situations in which penalties may impact more harshly include:

- **Penalties of suspension or exclusion for international students**
A penalty of suspension or exclusion may impact more severely on an international student because of visa requirements which stipulate that a student must leave the country if not enrolled. There are also additional financial costs involved for international students who must reapply for a visa following a period of suspension or exclusion and pay additional course fees. In appropriate circumstances, an alternative may be to consider penalties where an international student can complete course requirements prior to the penalty coming into effect. As an example, a student facing a period of suspension (to take effect at a specified time in the future) would be able to complete the course requirements, but, at the end of their course, the period of suspension would take effect and the student would be prevented from graduating, unable to access any academic results and official academic records.
- **Stage of enrolment**
Most penalties will have a greater impact on students in their final teaching period when they are applying for jobs or for admission to graduate courses or registration/admission to professional bodies.
- **Financial penalties**
Severe monetary penalties will have a greater impact on some international students and on students from economically disadvantaged groups.
- **Professional bodies**
Certain penalties will have an impact on students who may wish to apply for registration/admission to professional bodies.

5. Admissions of wrongdoing/level of contrition of student

If a student has admitted the misconduct, and/or displays a high and genuine level of contrition for the misconduct, this may be taken into account where appropriate.

- (1) The notice of penalty, the reasons and committee reports should explicitly state that the admission of wrongdoing and/or statement of contrition have been taken into account. Failure to do so would generally be taken to indicate that the admission or level of contrition was not given weight.
- (2) The effect of admission or level of contrition on the penalty should be stated insofar as it is appropriate to do so. This effect could encompass any or all of the matters to which the admission or level of contrition may be relevant. Where other matters are regarded as relevant in a particular case, e.g. assistance to authorities, this should be included in the report or notice of decision and penalty.
- (3) An admission of wrongdoing or statement of contrition should generally be assessed in relation to the seriousness of the misconduct. One consideration is the timing of the admission or statement of contrition. Another factor is the potential time saved by University staff to undertake investigations and attend hearings. The relevance of an early admission will vary according to the circumstances of the case.
- (4) In some cases the admission or statement of contrition, in combination with other relevant factors, could lead to a degree of leniency in relation to the type of the penalties imposed. In some cases the weight given to the admission or statement of contrition will be significant in assessing parity between other students involved in the misconduct.

6. Intent

If a student is found to have acted with intent when committing an act of misconduct, the penalty imposed on that student should be more severe than in a case where intent cannot be proven.

7. Start/end dates of penalties

Penalties usually come into effect from the date of notification of the penalty to the student and last until the last day of the relevant teaching period. In determining penalties, it is preferable that start and end dates are specified on a teaching period basis (e.g. first day of teaching period to the last day of teaching period). It is important to consider the effective dates of penalties, as a penalty specified by dates as opposed to teaching periods may have the unintended consequence of preventing a student enrolling in the teaching period following the period of penalty.

8. Status of student pending appeal outcomes

Under Rule 16.15.4, a student may apply to the Vice-Chancellor or Vice-Chancellor's nominee for a stay of decision. The Vice-Chancellor or Vice-Chancellor's nominee may direct that a decision be stayed until the time for making an appeal has expired or, if an appeal is made within the permitted time, until the appeal has been determined.

In such cases the Vice-Chancellor or Vice-Chancellor's nominee will determine the status of the student during the appeal process; in other words, whether the student is to be on a restricted or conditional

provisional program. This may include provisional class attendance, restricted attendance on campus, conditional use of University facilities, enrolment in online subjects, leave of absence and so on.

The following criteria will be considered in determining whether to grant a stay of decision and the student's status during the appeal process:

- student's reasoning for requesting the stay of decision;
- whether it is appropriate given the nature and seriousness of the misconduct to approve a stay of decision;
- whether there is a need to implement the penalty immediately to ensure the protection of other person(s) and/or facilities and property of University;
- an assessment of the likelihood of a successful appeal against the finding of misconduct and the penalty and, if the penalty includes payment of compensation to a third party under Rule 16.3.1(12), the capacity of the third party to repay the student if the penalty is nullified on appeal.

9. Timing of decisions

It is most important that decisions regarding penalties for misconduct and subsequent appeals are handled as expeditiously as possible to prevent lengthy delays and consequent applications by students for special consideration due to potential disadvantage. As a general guide, reports of the University Student Conduct Committee or Student Misconduct Appeals Committee can be expected within six weeks from the date of the conclusion of the committee's first meeting.

10. Records of misconduct on transcripts

- For suspensions and exclusions from a course or from the University the official academic transcript shows the period of suspension or exclusion.
- A penalty of zero mark for a subject is shown on official academic records in the same way as other results.
- All other penalties are recorded on the student system as internal comments and will only be shown on internal academic records.
- In cases where an appeal against suspension, exclusion or zero mark is lodged, the external academic transcript will show 'appeal pending' under the relevant course and teaching period.

Schedule 5 — Guidelines for handling student misconduct involving plagiarism

These guidelines have been prepared for the benefit of all people involved in the processes established by the University to deal with allegations of student misconduct involving plagiarism pursuant to Rules 16.6.2 and 16.10.

These guidelines have been prepared with a view to providing consistency in process and outcome.

1. Definitions

Academic judgment is the process by which a student's performance is measured in an assessment task, taking into account the stated learning outcomes and assessment criteria set for that assessment and based on the professional judgment of the academic staff member concerned.¹

Plagiarism is taking and using someone else's ideas or manner of expressing them and passing them off as his or her own by failing to give appropriate acknowledgement of the source to seek to gain an advantage by unfair means (Rule 16.2.1(4)).

Responsible Academic Officer means a person appointed as such by the Vice-Chancellor or the Provost on the advice of the Dean and such other persons as the Vice-Chancellor approves (Schedule 1 (Definitions)). (Also see the current list of Responsible Academic Officers.)

1. Definition from Australian Learning and Teaching Council (ALTC) *Good Practice Guide for Handling Student Grievances and Discipline Matters 2009*.

2. Principles

- 2.1 All actions taken under these guidelines must be fair and reasonable, implemented in a timely fashion, and with due regard to privacy of all involved in the matters under consideration.
- 2.2 Each case must be dealt with on its own terms and merits and in accordance with its own circumstances.
- 2.3 The Responsible Academic Officer must be supplied with all relevant information by the relevant staff members upon which to base a decision.
- 2.4 Students must be informed of their rights with respect to appeal under Rule 16.15.
- 2.5 No person involved may divulge to any unauthorised person any information related to an individual student's personal information, circumstances, marks/results/grades or any other matters relating to an allegation of misconduct.

3. Conflict of interest

- 3.1 A Responsible Academic Officer must not deal with or determine an allegation of student misconduct if he or she is personally involved in any aspect of the allegation (Rule 16.5).
- 3.2 In the event that a Responsible Academic Officer, an officer of the University, or a student believes that the involvement of a Responsible Academic Officer in a matter would lead to a conflict of interest, he or she must consult with the Dean. The Dean will determine another appropriate Responsible Academic Officer to deal with the matter.
- 3.3 A Responsible Academic Officer is not personally involved in any aspect of an allegation by reason only of the fact that he or she hears or deals with the allegation under the Rules.

4. Notification of an allegation

- 4.1 When an academic staff member, in his or her academic judgment, identifies a possible incident of plagiarism the matter may be referred as an allegation of misconduct to the Subject Coordinator (if applicable).
- 4.2 The academic staff member and/or the Subject Coordinator will obtain and collate all information relevant to the allegation of plagiarism (supporting evidence) and submit this to the Responsible Academic Officer.
- 4.3 The Responsible Academic Officer may make such other inquiries as he or she considers necessary in order to consider the allegation.
- 4.4 If, after considering the supporting evidence and any other relevant information, the Responsible Academic Officer determines that the allegation is without foundation, or that there is insufficient information to support the allegation or to warrant further investigation, the Responsible Academic Officer may determine not to take further action in relation to the allegation.
- 4.5 In all other cases, the Responsible Academic Officer must, in writing, and as soon as possible:
 - (1) notify the student of the allegation and provide a copy of the supporting evidence, or if it is not appropriate for the student to receive a copy of the whole of the supporting evidence (for reasons including but not limited to privacy issues), provide a redacted copy of the supporting evidence which includes all of the information on which the Responsible Academic Officer's decision will be based; and
 - (2) provide the student with a copy of, or an electronic link to, the relevant Rules and guidelines; and
 - (3) give the student a reasonable period, being a period of not less than five working days, to respond in writing; and
 - (4) if the Responsible Academic Officer considers it necessary, request the student to attend a meeting with the Responsible Academic Officer and the Subject Coordinator at least five working days after the date of notification; and
 - (5) in the event that the student is requested to attend a meeting, advise the student that he or she is entitled to bring a support person to the meeting.
- 4.6 The Responsible Academic Officer may place limitations on the role of any such support person. For example, in some circumstances it may be appropriate for such a support person to assist by answering questions, or addressing issues raised, on the student's behalf. A support person will not be permitted to act as an advocate or legal representative on behalf of the student unless the Responsible Academic Officer determines that this is warranted by exceptional circumstances.

5. Meeting with the student (if required)

- 5.1 If the student has been requested to attend a meeting with the Responsible Academic Officer, he or she must:
 - (1) explain the nature of the allegation of plagiarism;
 - (2) provide an explanation of plagiarism and the reasons why the student's work appears to constitute plagiarism;
 - (3) inform the student that the University views plagiarism as serious misconduct and that a record of the meeting and the outcome will be placed on the student's confidential file; and
 - (4) invite the student to provide an explanation about the allegation.
- 5.2 At the conclusion of the meeting the student will be requested to sign a statement about good academic practice.

6. Matters to be referred to the Director, Governance Support Unit

- 6.1 If at any time during his or her consideration of the allegation the Responsible Academic Officer believes the alleged misconduct involves:
- (1) misconduct other than plagiarism; or
 - (2) plagiarism and any other form of misconduct the Responsible Academic Officer must refer the matter to the Director, Governance Support Unit to be handled in accordance with Rule 16.12.

7. Responsible Academic Officer's decision

- 7.1 If a student fails to respond to reasonable attempts by the Responsible Academic Officer for the student to provide a written response to the allegation of plagiarism, or fails to provide acceptable reasons for not complying with a request to attend a meeting, the Responsible Academic Officer must proceed to handle the matter in accordance with these guidelines and based on the supporting evidence.
- 7.2 In determining what penalty, if any, to impose, the Responsible Academic Officer may have regard to:
- (1) the extent of the alleged plagiarism as it relates to the work being assessed;
 - (2) the proportion of the overall mark for the subject represented by the assessment item;
 - (3) any conventions associated with the discipline to which the subject relates and the academic discipline overall;
 - (4) whether the student has a previous record of plagiarism;
 - (5) whether the student is inexperienced or demonstrates a genuine lack of understanding of academic integrity and honesty;
 - (6) whether the circumstances reveal confusion among students enrolled in a subject about assessment (for instance, confusion about acceptable levels of cooperation among students involved in collaborative group work); and
 - (7) in relation to group work, if a particular student responsible for part of an assignment or project submits plagiarised work, another individual in the group should not be penalised unless that other individual in the group has knowingly participated in the submission of the plagiarised work.
- 7.3 In coming to a decision, the Responsible Academic Officer must have regard to:
- (1) the student's written representation or representations at the meeting (if any); and
 - (2) any previous case of student misconduct which the Responsible Academic Officer believes is similar to the case that he or she is considering.
- 7.4 In cases where there is no record of previous misconduct involving plagiarism and the matter is found not to have involved a deliberate attempt to deceive or to gain an unfair advantage, or a clear disregard of assessment requirements including but not limited to situations where:
- (1) the student is inexperienced or demonstrates a genuine lack of understanding of academic integrity and honesty; or
 - (2) the circumstances reveal confusion among students enrolled in a subject about assessment (for instance, confusion about acceptable levels of cooperation among students involved in collaborative group work). The Responsible Academic Officer may do one or more of the following:
 - (a) impose no penalty;
 - (b) issue the student with a formal warning;
 - (c) permit the student to re-do and submit the assessment item with appropriate acknowledgement of source material included with a reduced mark to no more than a specified percentage, normally 50 per cent, of the maximum possible mark in the assessment task;
 - (d) allow further work to be submitted (normally a revised submission of the original work). The revised assignment or further work can only be awarded a specified percentage, normally 50 per cent, of the total possible marks for the assessment item. For subjects where the submission of a revised assessment item is not practical, the Responsible Academic Officer may determine another penalty as appropriate.
- 7.5 If the Responsible Academic Officer finds that there has been misconduct involving plagiarism, the Responsible Academic Officer must also inform the student that any similar incident occurring at any time in the future may result in a further penalty such as a zero mark, suspension or exclusion.

- 7.6 If there is a record of previous misconduct involving plagiarism, and/or there is clear evidence of an attempt to deceive, gain an unfair advantage, or a clear disregard of assessment requirements, the Responsible Academic Officer may impose any of the penalties below as appropriate, as provided in Rule 16.3.1(9):
- (1) a reduction in marks for any part or parts of the assessment;
 - (2) a zero mark and 'Fail' result for any part or parts of the assessment of the subject;
 - (3) a requirement that the student re-write and submit a specific assessment task, with a reduction in marks to no more than a specified percentage, normally 50 per cent, of the maximum possible mark in the assessment task;
 - (4) a requirement that the student must undertake another alternative assessment task, for which the maximum possible mark can be no greater than a specified percentage, normally 50 per cent, of the maximum possible mark in the assessment task;
 - (5) a zero mark and 'Fail' result for the subject, in which case the zero mark and 'Fail' result will be denoted on the official record of the student in the same way as a 'Fail' result awarded in the usual way.
- 7.7 Where one of the above penalties has been imposed, the Responsible Academic Officer must notify the student in writing of the decision and the student's right of appeal under Rule 16.15.
- 7.8 If the Responsible Academic Officer determines that a more serious penalty is appropriate, such as suspension or exclusion from the course or the University, the Responsible Academic Officer must refer the matter to the Director, Governance Support Unit to be handled in accordance with Rule 16.12. The Responsible Academic Officer must notify the student in writing that the matter has been referred to the Director, Governance Support Unit and that the student may within five working days make written representations to the Director, Governance Support Unit about the recommendation.
- 7.9 A copy of all relevant documentation must be sent to the Student Misconduct and Appeals Team, Governance Support Unit, or as directed by the Director, Governance Support Unit, for relevant details to be entered on the student system as appropriate and to file the documentation on the student's confidential file. Where a zero mark for the subject has been imposed an Authority to Vary Results (AVR) form must be submitted with the documentation.

8. Records

- 8.1 A copy of all records must be sent from Student Misconduct and Appeals Team, Governance Support Unit to Student Administration Records to be scanned.
- 8.2 Records of previous misconduct involving plagiarism may be accessed via Student Administration Records by a Responsible Academic Officer and taken into account in determining an appropriate penalty under Section 7 in Schedule 5.

Dealing with nominations

28. At the close of nominations, where the number of valid nominations of persons for election in each elected membership category is fewer than or the same as the positions to be filled, the Returning Officer must declare the person or persons nominated to be elected. If there are more nominations than positions to be filled in an elected membership category, there must be a ballot.

Form of ballot

29. (1) A ballot must be a secret ballot using the quota preferential system. Ballots may be conducted by attendance at a polling booth or by way of an electronic voting system that has been approved for use by the Returning Officer in accordance with Rule G3-31. Subject to the UTS Act, the By-law and these Rules, the Returning Officer shall determine which method or methods shall be used for any particular ballot.

- (2) Ballot papers, or the component of the electronic voting system that records a vote cast by the voter, as the case may be, must contain the names of the candidates in the order drawn at random by the Returning Officer or by a person appointed by the Returning Officer for the purposes of the election.

Expected standards of behaviour

30. The Code of Conduct for UTS Elections sets out the expected standards of behaviour for UTS staff and students involved in the conduct of UTS elections or election campaigns.

Requirements for electronic voting system

31. The Returning Officer may approve an electronic voting system for use where the Returning Officer is satisfied that the system:
 - (1) will provide a voter with instructions on how to vote;
 - (2) will allow a voter to indicate his or her preferences of candidate or candidates;
 - (3) gives a voter an opportunity to correct any mistakes before submitting his or her vote;
 - (4) allows a voter to make an informal vote;
 - (5) will not allow a person to find out how a particular voter cast his or her vote;
 - (6) will not allow a voter to vote more than once for any ballot; and
 - (7) will only allow a voter to vote in an election for which he or she is eligible to vote.

Conduct of ballot by attendance at polling booth

32.
 - (1) Where the Returning Officer has determined under Rule G3-29 that a ballot will be conducted by attendance at a polling booth, the Returning Officer must:
 - (a) publish in such manner as the Returning Officer considers necessary a notice specifying the dates and times of polling, the location of polling booths, and any other relevant information;
 - (b) establish on the University premises polling booths attended, during the dates and times for polling, by persons appointed by the Returning Officer for the purpose of initialling and issuing ballot papers to each person who requests one and is recognised by one of the appointed attendants as being a person whose name is on the roll of eligible voters prepared in accordance with Rule G3-23 and G3-24; and
 - (c) display at the polling booths the edited statements provided by candidates in accordance with Rule G3-27(6) and (7).
 - (2) A voter must, before the close of ballot, attend a polling booth to obtain a ballot paper initialled by the Returning Officer or by a person appointed by the Returning Officer, and:
 - (a) mark a vote on the ballot paper by placing the figure '1' in the square opposite the name of the candidate to whom the voter desires to give his or her first preference vote, and may place consecutive figures (commencing with the figure '2') in the squares opposite the names of any of the remaining candidates, so as to indicate by numerical sequence the order of the voter's preference for them;
 - (b) deposit the ballot paper in the relevant ballot box provided for the purpose at the polling booth.
 - (3) The ballot box is to remain unopened until the close of ballot.
 - (4) An election is not invalid only because a person whose name is on the relevant roll of eligible voters did not see the notice published in accordance with Rule G3-32(1)(a).
 - (5) In this Rule, a reference to a person's name being on a relevant roll of eligible voters is a reference to the person's name being on that roll at the opening of nominations for the relevant election.

Conduct of ballot by electronic voting system

33.
 - (1) Where the Returning Officer has determined under Rule G3-29(1) that a ballot will be conducted by way of an electronic voting system, the Returning Officer must publish a notice:
 - (a) detailing the nature of the election and setting out instructions on how and when voters may obtain access to the electronic voting system; and
 - (b) advising how voters may obtain access to the edited statements provided by candidates in accordance with Rule G3-27(6) and (7).
 - (2) The Returning Officer or person authorised by the Returning Officer must make arrangements to ensure that each person, whose name is on the roll of eligible voters, can access the electronic voting system.
 - (3) The voter must submit a vote, after the commencement of the ballot and before the close of ballot, in accordance with the instructions provided in the electronic voting system.

- (4) An election is not invalid only because a person whose name is on the relevant roll of eligible voters did not see the notice published in accordance with Rule G3-33(1).
- (5) In this Rule, a reference to a person's name being on a relevant roll of eligible voters is a reference to the person's name being on that roll at the opening of nominations for the relevant election.

Procedure on close of ballot

34. As soon as practicable after the close of the ballot, the Returning Officer or a person appointed by the Returning Officer must:
 - (1) in the case of an election conducted by attendance at a polling booth:
 - (a) open the ballot boxes; and
 - (b) count the votes, and then ascertain the result of the ballot, in the manner set out in Rule G3-37.
 - (2) in the case of an election conducted by way of an electronic voting system, generate a count of the votes, using a methodology such that the results obtained are as if the votes were recorded on ballot papers and the count was conducted in accordance with Rule G3-37.

Informal vote

35.
 - (1) A vote is informal if the voter has not indicated a clear preference for at least one candidate or if it is possible, in the opinion of the Returning Officer, to identify the voter.
 - (2) In the case of a ballot conducted by attendance at a polling booth, a vote is also informal if the ballot paper has not been initialled in accordance with Rule G3-32(2).
 - (3) In the case of a ballot conducted by attendance at a polling booth and despite any other provision of this Rule, a vote is not informal only because any figures placed on the ballot paper are not placed in or entirely in the squares opposite the candidates' names, if the figures are placed on the ballot in such positions as, in the opinion of the Returning Officer, clearly indicate the order of the voter's preference for the candidates.
 - (4) In the case of a ballot conducted by electronic voting system, the electronic voting system is to provide a warning message to any person casting an informal electronic vote that their proposed vote is informal prior to the recording of that vote.
 - (5) Each informal electronic vote is to be recorded by the electronic voting system as an informal vote.

Nomination of scrutineers

36.
 - (1) Each candidate is entitled to nominate one scrutineer who is a member of the staff or students of the University to be present at the count.
 - (2) A person is not to be a scrutineer in an election in which he or she is a candidate.
 - (3) A scrutineer is subject to the conditions specified by the Returning Officer for attendance at the count.

 - (3) Following the Declaration of Poll the number of formal votes, the number of informal votes and ranking of candidates will be communicated to candidates and published on the UTS Noticeboard.
 - (4) Candidates in an election may request details of the distribution of votes for their own information.

Schedules

Schedule G1 – Delegations Principles

These Delegations Principles should be read in conjunction with the Strategic Delegations (Schedule G2) and Delegations Schedule, which together form the 'Delegations'.

In exercising any delegated function, a delegate must observe the following principles.

- (1) Delegated functions may only be exercised if provided for by the Delegations or a specific resolution from Council.
- (2) These delegations are to be exercised subject to and in accordance with any relevant legislation, including, but not limited to, the UTS Act and UTS By-law, as well as the UTS Rules, UTS enterprise agreements, UTS policies, codes of conduct, guidelines, procedures and management designations, authorisations and instructions.
- (3) In the event of any inconsistency between the contents of the Delegations, and the contents of any policy or procedural documents, the contents of the Delegations shall prevail.
- (4) In exercising any delegation, the delegate must comply with relevant laws and the University's governance instruments, and have regard to general principles of procedural fairness.
- (5) A delegation is limited to the business and affairs of the relevant business area unless otherwise specified in the terms of the delegation.
- (6) Any exercise of delegation is to be within approved budgets, aligned with business plans and staff profiles, and within requirements of any enterprise agreements (unless otherwise noted).
- (7) In exercising a delegated function, a delegate may seek appropriate advice in order to be properly informed. However, the delegated function must be exercised by the delegate without any undue influence by any other person or body.
- (8) A delegate has the authority to make decisions in either the positive or negative. That is, for all decisions taken, the delegate may either determine to take a particular action (including to rescind, disestablish and terminate) or to take no action.
- (9) To ensure administrative efficiency of UTS operations:
 - (a) a delegate under Delegation 1.2 may authorise an employee under that delegate's supervision to expend funds for and on behalf of, and in the name of, that delegate, which do not exceed thresholds of \$50,000, \$20,000, \$10,000 and \$5000 (these are identified as bands 5 to 8 respectively). Any authorisation may only be granted and exercised in accordance with guidelines issued from time to time by the Chief Financial Officer, who must also maintain a register of authorisations. The principles relevant to the exercise of Council delegations apply equally to holders of authorisations to expend funds.
 - (b) where provision is made within section 2 of the Delegations Schedule, a delegate may authorise an employee under that delegate's supervision to perform functions for and on behalf of, and in the name of, that delegate, provided that the authorisation is approved by the Provost (for academic staff) and the Deputy Vice-Chancellor (Corporate Services) (for professional staff). Any authorisation may only be granted and exercised in accordance with guidelines issued from time to time by the Director, Human Resources, who must also maintain a register of authorisations. The principles relevant to the exercise of Council delegations apply equally to holders of human resources authorisations.
- (10) A delegation relates to the delegate's position, not the individual occupying the position. A delegation extends to any person officially acting in that position on a temporary basis, unless otherwise specified in the appointment to act.
- (11) Delegations have been created with the University's organisation structure in mind. Delegations are therefore also held by a delegate's supervisor. If a delegate is unable to carry out the duties associated with his or her delegation for any reason, including a potential or actual conflict of interest or a temporary incapacity or absence, the delegation may be exercised by the delegate's supervisor. Delegations 1.10 to 1.13 operate in exception to this principle.
- (12) Where a power or authority is delegated to exercise functions, then that power or authority extends to the execution of documents (eg contracts, agreements) necessary to give effect to that function (in accordance with the relevant UTS Rules, policies and procedures relating to the execution of documents) unless a specific delegation states otherwise.

- (13) Delegation limits apply to transactions, and a transaction may not be separated into parts, nor may the total cost of a transaction be set off by deductions or trade-ins in order to meet a limit on a delegate's authority. Generally, taxes and duties are to be included in the total cost of the transaction except, where claimable¹, the goods and services tax (GST), which is not to be included. A delegation is required both to enter into the transaction and to authorise the payments under the transaction. Except in the case of capital works (see Delegation 1.3), a variation in the cost of a transaction must be approved by the delegate who approved the original transaction if the total amount is within their delegation. Should the sum of the variation and the original cost exceed the delegate's authority, the variation must be submitted for approval to another delegate who has the necessary level of authority.
- (14) (a) Delegated functions may not be exercised by a person who is not a UTS employee unless the instrument of delegation or specific Council resolution expressly states that such delegation may be exercised.
- (b) In exercising any delegation the delegate must act in the interests of the University for the purpose delegated and not for any improper purpose.
- (15) (a) A delegate may not exercise a delegation that would provide them with any direct or indirect benefit (section 4.4.2, Code of Conduct). Therefore, delegates may not approve matters including their own appointment, remuneration, payment or reimbursement, promotion, transfer or secondment, travel, absence or termination.
- (b) Where members of the UTS Council or a Council committee are involved in any way other than in their role as a Council or Council committee member, and the delegate (or nominee) is aware of that involvement, the delegate (or nominee) must disclose that involvement to the University Secretary. The University Secretary must notify the Chancellor. In such cases, no delegation may be exercised until the University Secretary has confirmed in writing the approval of the use of the delegated authority.
- (16) It is a requirement that records be kept of all decisions taken under the Delegations.
- (17) Members of the UTS Senior Executive may act on urgent matters in the absence of other members, in accordance with section 2.2, Schedule G2. Council has determined that, in the deemed absence of both the Chancellor and the Deputy Chancellor, the Chancellor's authority with respect to affixing the seal, taking executive action or approving any matter which Council has delegated to the Chancellor shall be exercised by a member of the Council, not being a member of UTS staff, in a specified order subject to their availability: section 2.3, Schedule G2.

1. For all taxable supplies except the following: entertainment (unless subject to Fringe Benefits Tax (FBT)); relatives; travel (unless subject to FBT); club and leisure facilities or boats (unless subject to FBT); residential rent (unless the charity exemption applies); non-compulsory uniforms; penalties; and certain non-cash business benefits used for private purposes.

The Academic Board may, if it so wishes and provided that a quorum is present, go 'into closed session', whereupon all non-members who are present shall, with the exception of those non-members as the Academic Board may determine, be required to leave the room and shall not be readmitted until the Chair declares that open session has resumed.
 - (a) The minutes of the meeting shall record the motions for the commencement and cessation of discussions in a closed session. Minutes of discussions in a closed session will be considered confidential and kept separately.

30. The Chair may, with the consent of the Academic Board or if so directed by the Academic Board, adjourn a meeting to another time and/or place.

When a meeting is adjourned:

- (a) no further business will be dealt with. Business left unfinished will be carried over to the next regular meeting or special meeting where applicable.

Alternate members

32.

 - (2) If an elected student member is unable to attend a meeting of the Board, the relevant Faculty Manager or equivalent manager of a University graduate school, centre or institute (where appropriate) is responsible for requesting the alternate member to attend that meeting in place of the student member. The Faculty Manager or equivalent manager of a University graduate school, centre or institute (where appropriate) is also responsible for notifying the Executive Officer to Academic Board that the alternate will be in attendance.
- (3)
 - (a) An alternate student member is entitled to receive the agenda papers for Academic Board meetings and to attend and vote at meetings of Academic Board if and when the elected student member is not or will not be present for a meeting.
 - (b) When both the elected member and the alternate member are present at a meeting of Academic Board, only the elected member has speaking and voting rights.
 - (c) Immediately prior to the commencement of a meeting of Academic Board, or as soon as possible thereafter but during the meeting, an alternate member who is attending in place of a member shall confirm that attendance with the Executive Officer to Academic Board.
 - (d) When both the member and the alternate are unable to attend a meeting of Academic Board, the member is responsible for notifying the Executive Officer to Academic Board that the absence will not be covered by the alternate member and the member's formal apology will be registered.
 - (e) If, for three consecutive meetings of Academic Board, neither the student member nor the alternate member has attended and the student member has not registered a formal apology with the Executive Officer to Academic Board for any of those meetings, the membership of the student member lapses, and that of the alternate member with it (see Rule G3, Part 1, Division 1, clause 1(4) in the Rules relating to Academic Board).

Subject to the Chair's approval and the limitations outlined in clause 5.1(iii) below, decisions can be made between meetings either by circulating a flying minute, in accordance with clause 5.1(i), or by executive action on behalf of Faculty Board, in accordance with clause 5.1(ii).

(i) Flying minute

- (a) Subject to limitations outlined in clause 5.1(iii), the Chair of Faculty Board may pass a resolution on behalf of Faculty Board, outside of a formal meeting, by circulating a flying minute to all members of Faculty Board, outlining the proposed action and providing full information to members at least seven calendar days before the proposed action which the resolution authorises, unless one-third of the number of members or more indicate in writing before the expiration of the seven calendar days that the decision should be made by the Board at a meeting.
- (b) The flying minute shall include a clear and accurate statement of material facts and reasoning for the proposed action, and the urgent need to circulate the flying minute, with the advice that the Chair will take the action after the expiration of the seven calendar days, unless one-third of the number of members or more indicate in writing (including electronic means) before the expiration of the seven calendar days that the decision should be made by the Faculty Board at a meeting.
- (c) Upon expiration of seven calendar days, the Chair and members of Faculty Board are to be informed about the outcome of the flying minute. Subsequently, the Chair can take the action detailed in flying minute, unless one-third of the number of members or more indicate in writing before the expiration of the seven calendar days that the decision should be made by the Board at a meeting.
- (d) Details of action taken by Chair under this provision must be reported at the next Faculty Board meeting, and included in the minutes of the meeting.

- (b) Notice of the action the Dean (or Chair of the Faculty Board, if different) proposes to take should be given to members of the Faculty Board, at least seven calendar days before the proposed action. If this requirement is not met, a record of rationale for extenuating circumstance must be maintained and reported at the next Faculty Board meeting; and included in the minutes of the meeting.
- (c) Details of action taken by the Dean (or Chair of the Faculty Board, if different) under this provision must be reported at the next Faculty Board meeting and included in the minutes of the meeting.
- (d) Faculty Board shall maintain; a register of executive action recording all actions taken under this provision; and relevant records on a registered file/TRIM.

(iii) Limitations

- (a) For endorsement of Award Course Accreditation material to be submitted to the UTS Courses Accreditation Committee, a full Faculty Board decision must be made either at a Faculty Board meeting, or if timing renders an urgent decision be made, by utilising only method in clause 5.1(i) detailed above.

6. Elections and filling of remaining vacancies

- 6.1 The elections for all elected members of a Faculty Board (except Deputy Chair, see clauses 4.2 and 6.2) will be conducted in accordance with UTS General Rules G3 Part 2.
