

# NATURAL SCIENCE AND VISUAL ARTS WORKSHOP: WORLD OF BEES

School holiday workshops at UTS :: October 2019

**WHEN:** Wednesday 9 October 2019, 9:30am – 4:00pm

**WHERE:** University of Technology Sydney, Broadway Campus

**FOR WHOM:** Year 4 – 7 students

**REGISTER:** [www.bit.do/brightfutures19](http://www.bit.do/brightfutures19)

**COST:** \$100

**WORKSHOP:** Have you ever wondered about how bees make honey? Or, where would we 'bee' with no bees? This workshop is designed for students with a passion for the natural world. Focusing on the role of the pollinators, like bees and other honey-lovers, in a variety of ecosystems, the students will learn through drawings, role plays and hands on science activities. There will be an exclusive opportunity to use all the tools (bee smoker, honey racks etc) that a professional bee keeper has. The workshop offers young scientists a deeper understanding of the interrelated life of pollinators and plants.

**FACILITATOR:** Samuel McNair is an apiarist, teacher and cartoonist, possibly the best person to help young scientists to begin their journey of discovery into the study of pollinators. Many hats indeed. Sam's current artistic endeavour is appropriating the works of Pieter Bruegel to release a labyrinth-esque picture book in 2019.

Registrations are now open!
