

Academic Liaison Officers

Spring 2019

Academic Liaison Officers (ALOs) handle applications for assessment adjustment arrangements for two groups of students: students with disabilities and students with carer responsibilities.

Students with disabilities and ongoing illness need to [consult with an Accessibility Consultant](#) in the [Accessibility Service](#) of Student Services Unit to discuss suitable learning and assessment arrangements. Interviews with Accessibility Service staff are confidential and [appointments](#) can be made by phoning (02) 9514 1177. The Accessibility Service will recommend assessment arrangements to the ALO.

ALOs are also contacts for students who experience difficulties with their studies because of family commitments (e.g. primary [carers](#) for small children or family members with a disability / ongoing illness). Students should approach their ALO directly to discuss their needs.

Forms related to Learning and Assessment Arrangements and Special Conditions in Exams can be downloaded

For students with disabilities:

www.uts.edu.au/laaf-exam-provisions

For students who have carer responsibilities or who are pregnant:
