UTS RULES, DATES AND WEB REFERENCES .................................................................................. 21
INTRODUCTION

This guide presents a range of information that applies across the wider UTS and Faculty level, which all students need to be aware of. The information consists of:

- Policies, Rules and Services
- Location and Contact Details

The information provided is drawn from a number of sources:

- UTS Handbook
- UTS Calendar
- UTS Policies and VC Directives
- Student and Related Rules
- subject outlines

In some cases, the information is only provided in summary form, with an indication of where further details can be found. Additional and more comprehensive information is provided in the official UTS sources that are located on the FASS and UTS websites. Please refer to these sites via the links below:

- www.fass.uts.edu.au
- www.uts.edu.au

Students are strongly encouraged to visit these sites for further details. It is important that this guide is read in conjunction with the subject outline for the specific subject/s in which students are enrolled.
GENERAL INFORMATION – TEACHING AND LEARNING

Expectations

Students are expected to:

- Participate in subjects in accordance with the requirements of students described in subject outlines and in this study guide.
- Read subject outlines and ensure that they are familiar with subject requirements.
- Participate fully in subjects and submit assignments by the due dates.
- Check subject outlines and other relevant sources to see whether their question has been answered, before contacting staff and asking individual questions.
- Use publicised consultation times and places to seek assistance from Subject Coordinators, lecturers and tutors.
- Book appointments with staff if unavailable during posted consultation times.
- If leaving a phone message, provide contact phone numbers and several possible contact times.
- Check that their email address is correct before sending an email to UTS staff. Please note: all students MUST use a UTS email address when dealing with UTS staff.
- Prepare for lectures, seminars, workshops and/or tutorial classes each week by following advice provided in subject outlines and in the online subject sites.
- Familiarise themselves with the referencing system used in their subjects. Most FASS subjects use the APA referencing system. Communication subjects use the UTS (modified) Harvard system.
- Familiarise themselves with UTS policies on academic integrity and misconduct, including consequences. The UTS Avoiding Plagiarism Quiz (https://www.uts.edu.au/current-students/support/helps/self-help-resources/referencing-and-plagiarism/avoiding-plagiarism) and the detailed information in this study guide may be helpful.

Students have a right to expect:

- That courses be of a level consistent with Australian standards and, where appropriate, satisfy the requirements of relevant professional societies, organisations and regulatory authorities.
- That course content will be up to date and based on research, scholarship, as well as professional practice.
- Feedback on their work and their performance will be provided in a timely manner.
- Subject Coordinators to provide full information at the beginning of each session for each subject including:
  - learning objectives/goals
  - assessment tasks, their due dates and their relative importance, together with general assessment guidelines
- To have access throughout the session to relevant lecturers, coordinators and professional staff, including access to teaching staff outside class times in accordance with consultation and contact information provided for each subject.
- To have access to information and guidelines to enable them to acknowledge appropriately all sources of information used in assignments.

See the UTS Student Charter: www.gsu.uts.edu.au/policies/studentcharter.html

Students should ask their tutor, lecturer or Subject Coordinator if they have any questions.
Equity and Diversity

An integral part of the UTS character is its equity and diversity principles, which include:

- celebrating student and staff diversity,
- promoting equality,
- encouraging social and environmental responsibility,
- fostering community leadership and community service,
- making the University's resources and knowledge open to the community,
- creating a supportive culture that helps students and staff to develop to their full potential, and
- fostering responsible and ethical management.

In FASS, we are committed to social inclusion and cultural diversity, and support the UTS mission to provide equitable access to university education and support for all students to reach their full personal and career potential. UTS offers a wide range of support services to help students with all aspects of study, work and student life. Many of these services are designed to meet the specific needs of individuals including disability, Indigenous and language support. These include:

Attendance

In most FASS programs, sessions are 12 weeks long. The 12 weeks include ‘Week One’ which is intended for subject preparatory and induction activities which may be online, face-to-face or both. In addition, there are also two Stuvac weeks which are generally non-teaching weeks (make-up classes only). In Teacher Education program, sessions are 14 weeks long and include periods of professional experience. The 14 weeks include 9 weeks of on-campus attendance in classes, and up to 5 weeks in professional experience placements.

Other modes of teaching and learning (block, distance, in-country study, etc.) are also common in FASS and have different timetabling and attendance requirements.

Students are expected to attend and participate in learning activities in all classes. While all university subjects have a significant independent study component, it is very difficult to pass without attending all classes. Please ensure familiarity with attendance requirements in the subject outline as they may differ from subject to subject.

### About Week One

In each session, participation in week one is mandatory for both new and continuing students. Week one is intended for subject preparatory and induction activities and these may include online activities, face-to-face sessions on campus or both. In FASS, all students are expected to check the Learning management system: [UTSOnline](https://utsonline.uts.edu.au) or [CANVAS](https://canvas.uts.edu.au) in the week before a session commences and consult subject outlines and notices from Subject Coordinators about arrangements for any scheduled activities, preliminary reading, required tasks, etc. for week one.

### Assessment

#### UTS Assessment Policy

UTS’s Coursework Assessments Policy and Procedures can be found at: [http://www.gsu.uts.edu.au/policies/coursework-assessments.html](http://www.gsu.uts.edu.au/policies/coursework-assessments.html)

Details of assessment requirements are specified in the subject outline for each subject and students have a responsibility to ensure that they are fully informed of all aspects of the subject assessment requirements and of the assessment process. Students are responsible for familiarising themselves with, and acting upon, all requirements relating to assessment tasks.

#### Assessment: Faculty procedures and advice

The following conditions apply to all assessment tasks in FASS subjects:

- Marks will be deducted for lateness unless arrangements have been made in advance for extensions (see Lateness Page 10 of this guide).
- Students may be given the opportunity to resubmit unsatisfactory work, at the discretion of the Subject Coordinator (see Resubmission of assignments Page 11 of this guide).
- All tasks must be the student’s own individual work, or the student's and their team members’ in the case of team-based tasks, and must not have been submitted previously for assessment.

#### Who to contact about assessment tasks

Students should contact their tutor, lecturer or Subject Coordinator about assessment tasks, which are explained in detail in the subject outline and/or on [UTSOnline](https://utsonline.uts.edu.au) or [CANVAS](https://canvas.uts.edu.au).

#### In-class and Online Tests

In-class and online tests in FASS subjects, while not usually formal examinations administered centrally by the University, are bound by university requirements. Students are expected to attend in-class tests and to comply with UTS policies and rules governing exams. Students who fail to sit an in-class or online test on the due date and do not meet the criteria for Special Consideration will receive a zero mark. For further information about in-class tests students should contact their Subject Coordinator or tutor (not other faculties and not the UTS Student Centres).

Procedures for centrally conducted exams will be communicated in the subject outline.
Grades and Marks

Detailed assessment criteria are provided with each assessment task in the subject outline for every subject in FASS. Marks and grades will be awarded on the following basis, in line with UTS Coursework Assessment Procedures.

Final subject assessment results are typically not released to students prior to the UTS official release of results. All subject assessment results are provisional until released officially by the Provost following ratification by the Faculty.

Grades: The relevant UTS grading descriptors are as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Mark Range</th>
<th>Grade Point Average (GPA) Score [1]</th>
<th>Descriptor</th>
</tr>
</thead>
<tbody>
<tr>
<td>High Distinction (HD)</td>
<td>85–100%</td>
<td>4</td>
<td>Work of outstanding quality on all objectives of the subject. This may be demonstrated by means of criticism, logical argument, interpretation of materials or use of methodology. This grade may also be given to recognise particular originality or creativity.</td>
</tr>
<tr>
<td>Distinction (D)</td>
<td>75–84%</td>
<td>3.5</td>
<td>Work of superior quality on all objectives of the subject, demonstrating a sound grasp of content, together with efficient organisation and selectivity.</td>
</tr>
<tr>
<td>Credit (C)</td>
<td>65–74%</td>
<td>2.5</td>
<td>Work of good quality showing more than satisfactory achievement on all objectives of the subject, or work of superior quality on most of the objectives.</td>
</tr>
<tr>
<td>Pass (P)</td>
<td>50–64%</td>
<td>1.5</td>
<td>Work showing a satisfactory achievement on the overall objectives of the subject.</td>
</tr>
<tr>
<td>Satisfactory</td>
<td>NA</td>
<td>N/A</td>
<td>Awarded for projects or theses.</td>
</tr>
<tr>
<td>Fail (X)</td>
<td>50% or more</td>
<td>0.5</td>
<td>Unsatisfactory performance in a compulsory component of the subject. A ‘Fail (X)’ grade may be awarded only where approved by the relevant faculty board, on the basis that the compulsory component is essential for meeting the objectives of the subject. Faculty boards need to review the subject assessment pattern if students with a Fail (X) grade receive a final mark of more than 50 per cent.</td>
</tr>
<tr>
<td>Fail (Z)</td>
<td>0–49%</td>
<td>0.5</td>
<td>Unsatisfactory performance in one or more objectives of the subject as contained within the assessment items.</td>
</tr>
</tbody>
</table>
### Other notations

<table>
<thead>
<tr>
<th>Notation</th>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Industrial experience</td>
<td>NA</td>
<td>NA</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Professional experience/industrial training. A number may appear next to this grade to indicate the level of industrial experience.</td>
</tr>
<tr>
<td>Withdrawn</td>
<td>NA</td>
<td>NA</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Granted withdrawal from a subject without academic fail after the prescribed date.</td>
</tr>
<tr>
<td>Withdrawn Fail</td>
<td>NA</td>
<td>NA</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Withdrawn after the prescribed date.</td>
</tr>
</tbody>
</table>

### Administrative notations — results not finalised

<table>
<thead>
<tr>
<th>Notation</th>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Result not submitted (E)</td>
<td>NA</td>
<td>NA</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Grade not submitted. This result is allocated by the student administration system when a result has not been submitted by a subject coordinator. Students who receive a ‘E’ result must immediately contact the subject coordinator or, where unavailable, the relevant faculty academic adviser, and take any actions necessary to complete subject requirements, otherwise the result will be changed to ’0 Fail’ after the prescribed period.</td>
</tr>
<tr>
<td>Results pending (Q)</td>
<td>NA</td>
<td>NA</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Result pending the completion of a project, clinical practicum or field excursion where the student has not completed assessment task(s) by the end of the teaching period. ‘Q’ results must be finalised before the result ratification deadline for the following teaching period, otherwise the result will be changed to ’0 Fail’.</td>
</tr>
<tr>
<td>Supplementary exam to be completed (T)</td>
<td>45–49%</td>
<td>NA</td>
</tr>
</tbody>
</table>
|                              |       | Formal supplementary examination to be completed within a designated examination period before a grade can be awarded. A supplementary assessment may be awarded on the recommendation of the Responsible Academic Officer (RAO) or subject coordinator; normally in the following cases:  
  - students with borderline results (45–49 per cent or equivalent marginal fail in a subject where marks are not awarded), or  
  - a student in their final teaching period under Rule 8.5. |
Withheld (W)  |  NA  |  NA  | Result withheld.

The RAO or subject coordinator may determine that supplementary assessments are required, or that alternative examiners and/or alternative assessments are required because of misadventure.

Students who receive a ‘W’ result must immediately contact the subject coordinator to ensure that they understand what is required and take any actions necessary to complete subject requirements otherwise the mark will be unchanged (where a mark has been submitted) or recorded as a ‘0 Fail’ (otherwise) after the prescribed period.

---

1. The Grade Point Average (GPA) is an internationally recognised measure of a student's academic achievement in a course. The Grade Point Average is the average of all grades achieved by a student in a course of study weighted by the credit point value of each subject approved by Academic Board. See notes on results and grades.

2. Not applicable.

For more details, please see UTS grading schema for coursework subjects

**Extension/change to due date of written assignments**

Students are required to submit or complete assessment tasks by the specified due date and time. If a student is experiencing extenuating circumstances (illness, misadventure, etc.) they may apply for an extension. The type of extension time and the process involved depends on the difficulty being experienced.

1) **Requesting an extension of one week or less:**

- Students must apply for an extension before the due date/time of the assessment task
- Students should apply for an extension directly with the Subject Coordinator with supporting evidence (medical certificate or other valid information). An email template for students to send to Subject Coordinators for an extension of one week or less is below:

<table>
<thead>
<tr>
<th>Student ID</th>
<th>Student name</th>
</tr>
</thead>
<tbody>
<tr>
<td>UTS email address</td>
<td>Mobile</td>
</tr>
<tr>
<td>Subject no.</td>
<td>Subject ID</td>
</tr>
<tr>
<td>Subject Coordinator</td>
<td>Tutor (if applicable)</td>
</tr>
<tr>
<td>Assessment due date</td>
<td>Year / Session</td>
</tr>
<tr>
<td>Reason for request</td>
<td></td>
</tr>
<tr>
<td>Supporting document details (as appropriate)</td>
<td></td>
</tr>
<tr>
<td>Length of extension requested</td>
<td></td>
</tr>
</tbody>
</table>

2) **Requesting an extension of more than a week:**

- Students need to go through the online Special Consideration application system.
If students are experiencing ongoing illnesses or disability, they should contact UTS: Accessibility Service, as they may be eligible for registration with the service and therefore may have alternative assessment arrangements made.

**Lateness**

Assignments are to be submitted by the due date/time specified unless an extension is approved beforehand. The Faculty policy for all assessment tasks submitted after the due date without an agreed extension or valid special consideration, is as follows:

- **Penalties accrue from the stipulated time of submission.**
- **a 5% penalty deduction per day late for the first 5 calendar days (or part thereof) following the missed deadline. Example: if an assignment scored out of 40 is submitted three days late, its raw mark will be reduced from 34/40 to 28/40, losing 2 marks (5% of 40) for each day late.**
- **a 50% penalty deduction applies to assessment tasks submitted more than 5 calendar days after the due date. Example: if an assignment scored out of 40 is submitted more than 5 days late, its raw mark will be reduced from 34/40 to 14/40, with a flat deduction of 20 marks (50% of 40).**
- **No assessment task can be accepted more than 14 calendar days after the due date except in exceptional circumstances.**
- **Written feedback will not be provided on late work.**
- **No resubmission is available on late work.**

In some subjects, however (for example, Language and Culture), due to the nature of continuous assessment, overdue work is not accepted. The Subject Coordinator will clarify any exceptions in the subject outline.

**Word length**

It is important to respect the allocated word length for all written assessments. A general rule is that there is +/- 10% leeway beyond which assessments will be penalised. For instance, if an assessment asks students to submit a piece of writing of 2,000 words, the submitted work may be between 1800 and 2200 words. Written work that exceeds the allocated word length by more than 10% of the total required, or that is considerably under the allocated work length, will be marked down. In some subjects, sections of material beyond the specified length will not be considered for assessment. Information on these special cases is provided in subject outlines or on the associated online subject site.

**Assignment cover sheet**

Students are required to complete and sign an Assignment Cover Sheet for written assessment tasks. It should be attached to the front of their electronic submissions.

Communication cover sheets: [https://www.uts.edu.au/sites/default/files/communication-assignment-cover.doc](https://www.uts.edu.au/sites/default/files/communication-assignment-cover.doc)

Separate coversheets are available for Language and Culture and In-Country- Studies subjects. See the subject site for these cover sheets.
Submission of assignments

Information regarding when, how and where to submit assignments is provided in subject outlines. Unless specified otherwise in the subject outline, assignments are to be submitted online via Turnitin.

Resubmission of assignments

Students who submit an unsatisfactory major assignment in a subject may be given an opportunity to resubmit the assignment, taking feedback into account, if the Subject Coordinator thinks resubmission is warranted. It is not up to the student to decide whether resubmission is warranted; this is at the Coordinator’s discretion. Resubmission must take place within the period determined by the Subject Coordinator, usually one week. Assignments may be resubmitted only once. Resubmitted assignments can gain a maximum of 50% / Pass for the assignment. Work submitted late without a valid extension is not eligible for resubmission. See 4.51 in link below:

http://www.gsu.uts.edu.au/policies/coursework-assessments-procedures.html#responsibility-ownership-and-support

Return of Assignments

For work submitted online, students will be notified when marked assignments are available to view. Any hardcopy assignments will be returned during class wherever possible. Students are responsible for viewing their marked work online or for collecting their assignments in class.

Under Rule 3.9 the university may retain the original or a copy of any student work.

Academic Liaison Officers

Students registered with UTS Accessibility Service are expected to contact the Academic Liaison Officer (ALO) at the beginning of their course about any particular learning and assessment arrangements. Students should contact their ALO at the start of each session to advise of their subject enrolments. Please note that the Academic Liaison Officer is also the person to contact for assistance arising from caring responsibilities.

The ALO is a member of academic staff who receives and determines requests for:

- Assessment adjustments from students who have permanent or temporary disabilities;
- Special provision for students who are sole carers.

Any special assessment arrangements must be negotiated within the first 6 weeks of session. These requests are negotiated on terms that are acceptable to the staff and students concerned.

For contact details of Academic Liaison Officers in particular FASS programs, please see: https://www.uts.edu.au/current-students/students-with-accessibility-requirements/accessibility-service/services-and-2

Accessibility Service

Students with a disability or ongoing medical condition who require support services are encouraged to contact the Accessibility Service for a confidential interview. The Accessibility Service provides services for people with disabilities, who may be entitled to request special learning and assessment arrangements.

https://www.uts.edu.au/current-students/students-with-accessibility-requirements/accessibility-service
Special Consideration

If a student is prevented from meeting prescribed attendance or participation requirements as a result of illness or other circumstances beyond their reasonable control, they may apply for consideration of alternative arrangements. Applications must be made through the prescribed University processes, and students are advised to consult with staff at the Student Centre to ascertain the appropriate method of application.

Referencing

Students in International Studies and Education courses use the APA referencing style. Information is available in the APA referencing guide: http://www.lib.uts.edu.au/help/referencing/apa-referencing-guide

Copyright

Incorrect or improper use of copyright protected material could result in breaking Australian Copyright Law, for which significant penalties apply. Incorrect or improper use of copyright protected material at UTS could result in consideration under the UTS Student Misconduct and Appeals Rules.

Australian Copyright applies to any sort of published or unpublished work, and includes written material, tables and compilations, designs, drawings (including maps and plans), paintings, photographs, sculpture, craft work, films (such as feature films, television programs, commercials and computer video games), software (such as computer programs and databases), sound recordings, performances and broadcasts (including podcasts and vodcasts of these) and text, including books, journals, websites, emails and other electronic messages.

It is important to remember that only a limited amount of other people’s works can be used for study or research purposes and that anything used must also needs to correctly acknowledge the author and reference their material.

Teaching materials and resources provided by UTS are also protected by copyright. It is unlawful to re-use these for commercial purposes without permission of the copyright owner. Improper or illegal use of teaching materials can lead to prosecution.

UTS Student Requirements and Rules (see: www.gsu.uts.edu.au/rules/2-1.html) and the UTS Student Charter (see: www.gsu.uts.edu.au/policies/studentcharter.html) require that students familiarise themselves and comply with UTS student policies rules and procedures.

Information about Copyright for UTS students and researchers is found at: www.lib.uts.edu.au/about-us/policies-guidelines/copyright-and-uts/students-researchers-and-copyright

Academic Integrity

At UTS we operate with integrity. Integrity means having the strength of character to act in an honest, fair and responsible manner. Academic integrity upholds these values in relation to all learning, teaching and research activities and is key to success at university and beyond. We support our community through the promotion of academic integrity and professionalism.

In order to assess students’ understanding of a subject, rather than merely reward a good memory or quick mind, some forms of assessment (such as essays) require extended independent research. To
do this research, students have to refer to the work of various scholars who are authorities in the field, and often also to media sources, printed and electronic media, and documents produced by government and non-government organisations. This is normal academic practice because all scholarship depends in some way on building on the work and ideas of others.

Students must be careful, however, to acknowledge the original authors of the ideas, facts, results etc. to which they refer. In doing so, they both respect the intellectual property rights of those authors and enable their own efforts to be recognised and properly evaluated. Failure to acknowledge these sources may constitute an act of plagiarism. This includes failure to indicate direct quotes with quotation marks and in text referenced (including page numbers).

At UTS, plagiarism is defined in Rule 16.2.1 (4) as taking and using someone else’s ideas or manner of expressing them and passing them off as his or her own by failing to give appropriate acknowledgement of the source to seek to gain an advantage by unfair means. Plagiarism is academic fraud because the student is attempting to deceive the marker. It is an act of academic misconduct for which students will be penalised.

Within this definition, examples of plagiarism include, but are not limited to:

- copying, paraphrasing or summarising words, or ideas, from any part of a document, website, reference book, journal, newspaper or other source (including written, audio, visual and computer-based material) without acknowledging the source;
- using somebody else’s ideas, results or conclusions;
- paraphrasing material taken from other sources, to change the words but keep the ideas, without acknowledging the source;
- downloading or copying material from the internet and including it as part of one’s own work without acknowledging the source;

The definition assumes that if the source had been appropriately referenced, the student’s work would have met the required academic standard. Referencing another student’s work is unlikely (except in the context of legitimate cooperation, such as team work) to be academically appropriate. Accordingly, the definition of plagiarism rarely applies to work that is sourced from another student.

How to Avoid Plagiarism and Maintain Academic Integrity

- Assume that the marker/reader will be able to detect plagiarism and that work will be checked in Turnitin (see below).
- Make sure to complete the ‘Avoiding Plagiarism’ tutorial and quiz available from: [https://avoidingplagiarism.uts.edu.au/#grid3d](https://avoidingplagiarism.uts.edu.au/#grid3d)
- Be familiar with the referencing system appropriate to the subject(s).
- Write the source on any notes or copies made from any document (including page numbers). Keep a detailed complete list of sources throughout the course of assignment preparation.
- Sources that should be acknowledged include those containing the concepts, experiments or results from which idea have been extracted or developed, even if these are rephrased.
- When quoting directly from a work always use quotation marks and include the specific page references. It is not enough to merely acknowledge the source in general.
- Always follow the requirements of the referencing style guide to ensure quotations are appropriately cited / referenced / acknowledged.
- Avoid excessive paraphrasing, even when acknowledging the source. Use different phrasings to demonstrate understanding of the material and its relevance to the assessment task
- Do not recycle or resubmit work previously submitted in another subject or in a previous attempt at a subject. This is considered to be cheating.
- Do not cut and paste quotations from various sources to formulate a meaningful and coherent research project. This technique is easy to detect and is poor academic practice

If in doubt about any of these matters, consult the lecturer, tutor, or Subject Coordinator or go to HELPS
Student Misconduct

The Student and Related Rules (see: http://www.gsu.uts.edu.au/rules/student/index.html) assist with the academic integrity and reputation of the University. As outlined in the Rules students are required to maintain an acceptable standard of conduct at all times while engaged in any activity related to their study at or through the University, in relation to both academic and non-academic matters. The normal codes of good academic practice and the rules regarding conduct apply to all assessment items.

FASS students are expected to be aware of the definitions of misconduct and the potential implications and penalties resulting from such misconduct (see Section 16 – Student Misconduct and Appeals: http://www.gsu.uts.edu.au/rules/student/section-16.html).

Student misconduct can occur in a number of ways in assessment tasks including plagiarism or cheating. Misconduct that is identified as plagiarism is dealt with by the Responsible Academic Officer in the Faculty (Rule 16.10) while cheating is handled centrally by the Registrar (Rule 16.12.5).

Cheating is defined but is not limited to:

- helping or receiving assistance from other students during an examination or test;
- bringing any materials or sources of assistance into an examination or test room not explicitly permitted for that examination or test;
- gaining assistance from others for assessment items intended to be done individually;
- submitting work previously submitted and assessed;
- translating material from another language without acknowledgement;
- using translation software for the production of homework or other assessment tasks;
- copying work, in whole or in part, from other people and submitting it as one’s own work;
- purchasing an assignment from an online site and submitting it as one’s own work;
- requesting or paying someone else to write original work, such as an assignment, essay or computer program, and submitting it as one’s own work.

Students should familiarise themselves with the University’s Assessment of Coursework Assessments Policy and Procedures: http://www.gsu.uts.edu.au/policies/coursework-assessments.html

Advice to Students on Good Academic Practice is found at: www.gsu.uts.edu.au/policies/academicpractice.html

Turnitin and forensic analysis of texts

Staff in FASS use plagiarism detection software (such as Turnitin) on a routine basis for checking student work or when plagiarism is suspected. The Turnitin system verifies the originality of submitted work, checking for matching text on the web, through electronic journals and books, and in a large database of student assignments from around the world. For further information on this system see the website: https://turnitin.com

Students should be aware that if they submit work to Turnitin it remains in the Turnitin database even after the subject is finished, so that future assignments can be checked against it.

Students should check their own work in Turnitin prior to final submission and work to amend their text if concerning results (e.g. a high degree of similarity, improperly acknowledge sources etc.) are returned. Staff responsible for making decisions regarding academic misconduct and appeals in cases of plagiarism will make use of evidence from plagiarism detection software or from forensic analysis of texts, computer code, images or other works. Where plagiarism is detected, appropriate disciplinary action will be instigated.
HELPs

HELPs (Higher Education Language & Presentation Support) is dedicated to providing English language and academic literacy support to all UTS students. Programs and services are free and non-award. Topics addressed will include weekly study/reading/writing/speaking skills workshops, daily drop-in consultations, individual consultations by referral and/or appointment, writing clinics, conversations@UTS, and intensive academic English programs. Academic staff may recommend seeking assistance from HELPs and provide students a recommendation sheet outlining the support needed.

HELPs is located in Building 1, Level 5, Room 25
Ph. 9514 9733 | Email: helps@uts.edu.au | Website: http://www.ssu.uts.edu.au/helps/index.html

Academic English Program

Academic English — the language students are required to understand (when listening and reading) and produce (in writing and speaking) at university — has special features, which makes it different from the language people use in other contexts. Postgraduate or undergraduate coursework students who have been identified as benefiting from developing their academic language skills are strongly encouraged to undertake the subjects below as electives:

- Developing Academic Writing and Speaking Skills (59356 - 8cps or 59355 - 6cps): if students are in the first year of study at UTS
- Academic English: Communication Fundamentals (59721 - 8cps or 59720 - 6cps) – if in subsequent sessions.
- 013983 Learning Academic English - for students enrolled in Applied Linguistics and TESOL programs

More information can be found at: www.uts.edu.au/future-students/international-studies/study-areas/academic-english-program.

Fieldwork and Excursions

In many subjects students are required to undertake fieldwork, excursions or other activities away from campus. All students are required to familiarise themselves with the UTS Fieldwork Guidelines (including for overnight stays in remote locations) mentioned in the link below:

The guidelines have been prepared to ensure that all fieldwork activities are properly planned, managed and coordinated in such a way as to meet the best interests of the University while protecting the safety of staff members, students and the wider community. Please note the following, which are intended to minimise risk in respect of fieldwork trips:

- Subject Coordinators will provide students with specific procedures that should be followed in order to ensure the health, safety and welfare of staff members and students and the protection of the environment;
- Students should follow all reasonable directions in respect of fieldwork trips (including attendance at all compulsory briefing sessions prior to fieldwork trips); and
- Students should read, and sign the acknowledgement in respect of the UTS Student Code of Conduct for Field Excursions.
**Work Experience**

FASS degrees are designed with a practical orientation that prepares students to work in dynamic and changing professional environments. Through a variety of work-integrated learning opportunities, students are given exposure to a range of professional and practice-related experiences. These include internships and work placements, extended participation in activities such as problem-based learning with industry partners, simulations, case studies, workplace audits and field trips, issues-based or practice case-based approaches to learning, and industry input via guest lectures, vodcasts or podcasts from professional practitioners.

For voluntary internships as well as for-credit internships in the School of Communication and in Global Studies, students are required to complete their internship paperwork for approval and insurance cover via UTS CareerHub: [https://careerhub.uts.edu.au](https://careerhub.uts.edu.au).

Students completing practicums in the School of Education handle their paperwork via the UTS MyPlacement system.

Information on internship opportunities in FASS degrees can be found at: [https://www.uts.edu.au/about/faculty-arts-and-social-sciences/partners-and-community/internships](https://www.uts.edu.au/about/faculty-arts-and-social-sciences/partners-and-community/internships)

Subject Coordinators will supply all relevant information for course-required internships or practicums.

**Relations with the External Community**

FASS recognises that students across the Faculty need to actively intersect with the wider community as part of their professional development.

Students should identify themselves as UTS students when undertaking tasks related to their course (formal assessments; informal contacts, and so on) in the wider community.

As outlined in the UTS Student and Related Rules, students at UTS are required to maintain an acceptable standard of conduct at all times, while engaged in any activity related to their study at or through the University. This includes participating in professional, industry or practical experience. If the Rules or the Code of Ethics are breached, student misconduct proceedings may apply.

**Ethical Considerations**

Being ethical is a key element of being professional. Many assignments in FASS subjects involve using people as subjects for student learning. In any research or writing about actually existing people (whether connecting with them in person or via social media or data sources) it is important for students to consider the ethics of the way they are using and engaging with people in their research. As well as personal ethics, there are institutional legal consequences governing research done in the name of UTS.

Undergraduate assignments in FASS do not normally require Human Research Ethics Committee (HREC) approval. However, it is important that, when appropriate, students consider ethical principles before undertaking assignments. Please consult the Ethics Guidelines for FASS coursework students: [http://www.uts.edu.au/sites/default/files/fass-coursework-ethics.pdf](http://www.uts.edu.au/sites/default/files/fass-coursework-ethics.pdf)

**Journalism students** should operate within the Ethics Code of the Media, Arts and Entertainment Alliance. They will be guided in the application of these guidelines by their tutors. (See: [https://www.meaa.org/meaa-media/code-of-ethics/](https://www.meaa.org/meaa-media/code-of-ethics/)

Where required for specific assessment tasks, Subject Coordinators will make proforma documents for students to use. These will be available through UTSOnline or CANVAS.

**Intellectual Property**

Some subjects in FASS require individual or group projects that are related to specific community organisations. Part of the requirement for such subjects is that the community organisation can use in any way the results of individual or group projects as part of the students’ donation to the community. In return the community organisation agrees to credit the student’s work that is published.

The University does not assert ownership of Intellectual Property created by students except under certain conditions. See the UTS Policy on Intellectual Property (5.1.6) for more information. UTS reserves the right to use students’ assessment works created as part of this subject for teaching purposes in UTS award courses and in UTS short forms of learning, advertising and promotion, including in the UTS Website and in UTSOpen, and as otherwise permitted under the UTS Policy on Intellectual Property. Students who do not want their work to be used for these purposes, must inform their lecturer of this in writing by the date formal classes for the subject end. UTS will use reasonable efforts to ensure that students are credited for their work where used for the purposes described. The student assessment work will be retained by the University until it is no longer needed for teaching, advertising and promotion or in order to comply with its reporting and legal obligations.
RESOURCES

Subject readings and readers

Reading a wide range of academic material related to the topics in a subject is vital to success. Lecturers use the library’s e-reserve system to make key readings easily available to students. These texts can be read online and/or downloaded and printed. These key readings can be found via the library at: https://drr.lib.uts.edu.au/search.html.

If the subject has a printed reader, it can be obtained through:

- UTS Union Shop: Order and pay for readers at the UTS Union Shop. Order placed by 3pm will be available at 12.30pm on the next business day.
- UTS Resource Centre: Download the readings onto a USB and print and bind the information at the UTS Resource centre for the standard price.
- Instant Service providers: Take the downloaded files to other instant print providers for a total service, but the price may vary between service providers.

Student Services

UTS provides students with a wide range of services. For further information please see: http://www.uts.edu.au/current-students/support.

Library

The UTS Library can help students to:

- find scholarly information for assessment tasks.
- evaluate resources ensuring they are task-appropriate.
- correctly reference and avoid plagiarism.

Below are links to helpful information to get started using the Library (homepage: www.lib.uts.edu.au/)

Orientation

- HeadsUp video modules on starting at uni: www.lib.uts.edu.au/headsup

Study

- Subject Study Guides: www.lib.uts.edu.au/guides
- Borrowing items: www.lib.uts.edu.au/borrow/borrowing-items

Assignments & Writing

Referencing

- Online referencing guides: www.lib.uts.edu.au/help/referencing
- Tutorial videos: www.youtube.com/playlist?list=PL33E43721BA8C2529

Questions or requests for further assistance can be directed to the Library via online chat, email or in person, www.lib.uts.edu.au/help/ask-librarian
UTS Learning Online

FASS subjects use either UTSOnline or CANVAS as the online learning management systems. These can be accessed by most web browsers from inside or outside the university.

Information on how to use UTSOnline can be found at: https://help.online.uts.edu.au/information-for-all-users/for-students/.

The URL for the UTSOnline log in page is: https://online.uts.edu.au/.

The URL for the CANVAS log in page is: https://canvas.open.uts.edu.au/login/canvas

Students experiencing difficulties logging on or who forget their password should contact the ITD helpdesk at: https://uts.service-now.com/ess/

Student Centres

The staff at UTS Student Centres provide general student administration information and advice to any UTS student or staff member, and specific administration services for the students and staff of the faculties nearby. Services provided by the student centres include:

- Subject and course information
- Enrolment enquiries
- Withdrawal enquiries
- Study plan enquiries
- Class allocation enquiries
- Credit Recognition and subject substitution applications
- E-Requests
- Leave of Absence and concurrent study applications
- Exam related and academic progress applications
- Progression and academic caution matters
- Graduation enquiries

An e-Request is an online request to the UTS Student Centre. Submit an eRequest at: https://mystudent.uts.edu.au/

- For access to subjects with restrictions, this may be something that is blocking enrolment
- To enrol in more than the allowable credit point limit per session for a course
- To enrol in cross faculty electives
- Make a change to a study plan
- To select or change sub-structures, such as majors or sub majors, choice block or stream
- For assistance with enrolment and timetable issues

Student Centres enquiry number (general):
1300 ASK UTS (1300 275 887) (from within Australia)

Student Centre location
City Campus Building 10, Level 2, 235 Jones Street, Ultimo, NSW 2007

Indigenous Students

UTS and Jumbunna recognise the Gadigal people of the Eora nation as the Traditional Owners and holders of knowledge of the places where our campus stands. We acknowledge elders both past and present and recognise the contribution that Indigenous people make to the academic and cultural life of the university.

FASS has made the university's Indigenous commitment core business –the responsibility of all of us. FASS has an Associate Dean (Indigenous Leadership and Engagement) to promote strategic
outcomes and each School has an Indigenous Liaison Officer who is there to support Indigenous students in succeeding at university. Jumbunna Institute for Indigenous Education and Research offers a range of support services and dynamic facilities to UTS Aboriginal and Torres Strait Islander students. Details can be found at: https://www.uts.edu.au/current-students/info-indigenous-australians/about-jumbunna

MediaLab

The MediaLab is a specialist Teaching and Learning support unit within FASS. The MediaLab team support the Faculty’s practice-based teaching and learning activities in the creative industries including Music and Sound Design, Journalism and Media Arts Production. MediaLab support includes the delivery of specialised technical instruction and demonstration workshops, and the management of the Faculty’s professional video and audio production equipment and facilities. Through MediaLab, students enrolled in Music and Sound Design, Journalism and Media Arts Production subjects have access to:

- Media production facilities, including Apple computer labs and specialised video post-production suites
- Sound facilities that allow students to specialise in music, audio arts, post-production and sound mixing
- Bon Marche Studio which provides students with a shooting stage and performance / media arts production space
- FASS Portable Equipment Store giving students access to an extensive range of professional video and audio production equipment

For more information on the support provided by MediaLab go to https://www.uts.edu.au/future-students/communication/about-communication/media-lab. When using MediaLab’s facilities and equipment students should familiarise themselves with the general information and conditions found here http://www.uts.edu.au/current-students/communication/film-video-and-audio-production-resources. This webpage also has information regarding the video and audio production documents and procedures that students will require to complete their practice-based projects

Handheld Devices

In many subjects, including those in Teacher Education and Journalism, students are encouraged to bring their own portable, handheld device to campus-based classes and to Professional Experience subjects. Devices will facilitate technology-mediated pedagogies in the course and participation in approaches evident in professional or industry settings. They will also act as conduits for digital fluency development and professional networking and engagement in the field.

*What device is recommended?* Subject Coordinators will advise on the technologies most relevant. Students are encouraged to explore options that suit their professional needs and budget.

*Students who do not have their own devices* will not be disadvantaged in classes. There are (limited numbers of) Faculty devices and all students have access to UTS General Computer facilities (see: http://www.itd.uts.edu.au/index.html). There are also a small number of laptops (PC) that are available. The IT Support Centre provides a laptop loan service to UTS Students Note: Students considering purchasing a device in the future may be eligible to apply for financial assistance. For eligibility information visit: http://www.uts.edu.au/current-students/support/financial-help/financial-assistance-service.

UTS Students’ Association

The UTS Students’ Association is a completely independent and democratic organisation run by students, for students. It runs campaigns based on student issues, provides free student services, and supports student collectives and clubs in their initiatives. https://www.uts.edu.au/current-students/campus-life/communication-uts/students-association

*Is there wi-fi at UTS?* There is excellent access to wi-fi on all UTS campuses.
UTS RULES, DATES AND WEB REFERENCES

Rules of the University

Students are strongly advised to read the Rules of the University, available from the UTS website at www.gsu.uts.edu.au/rules/index.html, and to understand the requirements of their course by referring to the online Handbook at www.handbook.uts.edu.au

Students should refer to their subject outlines to see if there are any other prescribed requirements for their subjects.
