- Renowned for our hands-on approach to learning
Bachelor of Education (Primary)

Combine passion with purpose through a rewarding career in education. With an extensive professional experience program and access to purpose-built facilities, our hands-on Primary Education degree will give you the skills and confidence needed to shape the next generation.

This degree has been revised for 2021 to ensure graduates are prepared for the contemporary school environment. As well as a new focus on digital learning, students will now complete a professional experience placement in every session of study.

Duration: 4 years full-time

2020 Selection Rank: N/A - this course is new for 2021 intake*

UAC code: 6000410

Admission criteria: A minimum of three Band 5 HSC results (including 1 in English excluding ESL) and a personal statement.

CAREERS
Primary teaching (kindergarten to year 6). You can teach in a government or independent school in Australia or internationally where Australian teaching qualifications are recognised.

PROFESSIONAL RECOGNITION
This degree is currently undergoing accreditation by the NSW Education Standards Authority (NESA). It should be noted that NESA’s review work for all universities in NSW has been delayed due to COVID-19. This degree is, therefore, pending approval by NESA for professional accreditation.

‘YOU ARE THE AUTHOR, OF YOUR OWN LIFE STORY...’
Bachelor of Education (Primary)  
Bachelor of Arts in International Studies

Get the best of both worlds with a degree that combines a teacher education qualification with our renowned International Studies program. This unique combination will ensure you’re equipped to meet the challenges of local and international teaching.

Theory is one thing but real-world experience is another. Not only will you learn the language and culture of another country but you’ll also spend 12 months living and studying overseas at one of our partner universities.

Education Facilities

Second to none – that’s how we describe our purpose-built facilities in the School of Education. From customised science, music, dance and visual arts teaching environments to informal study and collaborative hubs, all of our spaces are designed to shape your education practice.

Our fully equipped art studios facilitate creative learning in different forms of visual arts. From painting and ceramics to digital art, you’ll learn how to bring creativity into the classroom.

Our science lab simulates a range of equipment and materials that are used in schools. In this lab, you’ll not only learn and practice the principles of teaching science, but you’ll also get to conduct some fun experiments.

Our experimental learning studio is a flexible teaching space that allows you to learn and practice teaching in an unconventional environment. You can explore creative teaching methods using our interactive boards, VR sets, a green screen and more.
