The Graduation Ceremony

The Graduation Ceremony is a celebration of the success of our graduates in fulfilling the requirements of their awards. Our ceremony observes many traditional elements and rituals representing continuity of generations of universities, but adapted in a way that reflects the culture and values that makes UTS such a special place. The attendance at a graduation ceremony has become a rite of passage for generations of students.

The Academic Procession signals the formal commencement of the UTS Graduation Ceremony. The procession comprises senior leaders, academic and professional staff of the University. Observing the grand tradition of graduation ceremonies, many participants in the procession wear ceremonial regalia that represent the origins and diversity of their academic qualifications. The senior presiding officers, such as the Chancellor and Vice-Chancellor, wear robes designed specifically for UTS that symbolise their important leadership roles.

The Graduation Processional Music

Belonging

In 2019, UTS commissioned the distinguished Australian composer, Nigel Westlake, to compose a new processional and a recessional that reflect the University's vibrancy and values. Both the processional and recessional are contemporary pieces that reflect the energy of the University.

UTS is still young by world standards and we embrace elements that reflect both the continuities of tradition from the evolution of universities and respect for many thousands of years of Indigenous knowledge.

The processional commences with the beautiful and evocative sounds of the Yigi Yigi (Western Yalanji language word for didgeridoo) by David Dahwurr Hudson. This immediately situates the location of the University on the land of First Australians, specifically the land of the Gadigal people of the Eora Nation where the UTS City Campus

is located. First Australians have, for thousands of years, nurtured their own traditions of knowledge acquisition and sharing. The processional piece then transitions to instrument orchestration that reflects the historical origins of our university structure. Finally, the Yigi Yigi can be heard in harmony with other instruments symbolising the coming together of two ancient traditions both rich in their celebration of learning, discovery and passing knowledge to the generations that follow.

Finally the recessional triumphantly marks the conclusion of the ceremony and the commencement of our graduates' transition to a new phase in their lives, taking with them the skills and attributes developed at UTS that will form critical pillars for future success.

The University of Technology Sydney would like to express its sincere appreciation to:

Nigel Westlake – Composer, musician, conductor

David Dahwurr Hudson – Yigi Yigi soloist, musician, artist, entertainer, presenter

Sydney Symphony Orchestra (SSO) conducted by Nigel Westlake

Co-creators with SSO:

Lachlan Carrick
Recording & mixing engineer

Jessica Wells
Recording producer

Chancellor's Message

Congratulations!

Your graduation is one of the most important moments in your life. Finishing a degree or diploma is a major achievement and we do not underestimate the hard work and sacrifices that you have made in reaching that goal. It is also an important occasion for your family and friends who have given their support, love and understanding during your studies.

Graduations are important times for everyone associated with them – both graduates and the wider university. For many it is the start of careers; for others, part of the career development path. It brings status and rewards, and builds capabilities and new skills. Graduation brings with it both opportunities and obligations; opportunities to enter professional fields and obligations to contribute to the society that has supported you.

The opportunities that you face have never been greater. The workplace is more diversified than it has ever been, and ever increasing international opportunities mean that many of you will live and work in countries other than those in which you were born. Conversely, the challenges in the workplace have never been greater.

Scrutiny and the expectations of society are already high and continue to grow. The future will depend upon knowledge being used constructively in the best interests of the current and future generations. It is knowledge, ideas and skills which will ensure a better society and living standards for all.

UTS graduates are held in high esteem by employers, not only because of the quality of the education that they have received but also because of its practical nature. Employers recognise, in UTS graduates, key characteristics including adaptability and flexibility in dealing with work and also workplace issues.

It is a great challenge for graduates today to achieve a balance between the commercial imperatives required by their employers, and the professional pride that is essential if the integrity and true worth of their work is to be maintained. I am sure that UTS graduates will be able to deal with those ethical dilemmas that may arise in their workplaces. Make yourselves, your families and your university proud by maintaining the highest professional and ethical standards.

Your relationship with UTS does not end today. In many ways, it is just beginning. Today we welcome you to the UTS alumni community; a powerful and extensive global network of creative and innovative UTS graduates making their mark on the world. I encourage you to utilise the exclusive benefits your membership of this community delivers, and to continue to stay involved with UTS.

On behalf of all of UTS, I congratulate you, and wish you every success in applying the skills and knowledge that you have gained from one of Australia's finest universities.

Best wishes,

Catherine Livingstone AO
Chancellor

Vice-Chancellor's Message

On behalf of UTS, I'd like to offer my heartfelt congratulations to all our graduates. Today marks a significant milestone in your university career. Congratulations on all you've achieved – you make us the vibrant community we are. I'd also like to welcome you to the UTS alumni family. We look forward to supporting and engaging with you as you continue to shape our society's future.

Best wishes,

Attila Brungs
Vice-Chancellor and President

Social Justice

As a public purpose institution, UTS is committed to driving social change within and beyond campus. Our social impact agenda focuses on research, education and practice from across the university to benefit people and communities. We are the first Australian university to formally set its own social impact agenda, through the Social Impact Framework.

The UTS Centre for Social Justice and Inclusion coordinates and implements the Social Impact Framework and maximises the capacity of UTS to deliver public benefit. Through the UTS Social Impact Framework, UTS will:

- Contribute to increased public good, social mobility and equity
- Support the creation of enabling environments for communities to thrive
- Positively influence and impact the public, the individual, and the systemic forces that shape justice

At the same time, the centre is pivotal in creating a culture at UTS that values social justice, impact and inclusion and ensures equal opportunity and access for everyone.

UTS Emblem

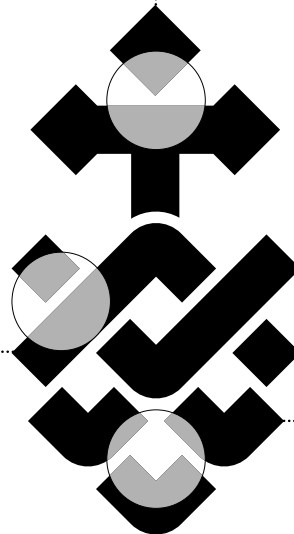

The UTS Emblem is a symbol that represents our history and commitment to technology, innovation and collaboration.

There are three components of the UTS Emblem:

- The anchor from the City of Sydney coat of arms
- The Double Helix inspired by the DNA molecule
- Three waves representing Sydney's maritime location

The top of the Emblem is drawn from the anchor on the City of Sydney coat of arms. It represents a historical tradition of discovery and exploration, and reinforces our close ties with government, commerce and industry.

This section of the Emblem represents a DNA molecule, the basic building block of life itself. For UTS this is strongly symbolic of our innovative, technological and collaborative character. The interlinking sections also represent the flow of ideas and collaboration between faculties, disciplines, students and industry.

The wave element at the base of the Emblem is symbolic of Sydney's maritime location. The three-part wave formation represents equality and strength in unity.

Academic Regalia

Ceremonial Mace and Staff

Originally a weapon of offence, the mace took on a ceremonial function in the sixteenth century. At UTS, it represents a medieval battle tradition, the Chancellor's authority and the good name of the University. The mace was a gift to the inaugural UTS Council by the New South Wales Department of Technical and Further Education to mark the establishment of UTS in 1988. Made of silver and titanium it represents the blend of traditional and modern technology, and its most prominent design feature is a double helix, the code of life.

The staff was gifted to UTS by the UTS Alumni Association in 1994. It is made of silver and Australian jarrah and also symbolises authority.

Academic Dress

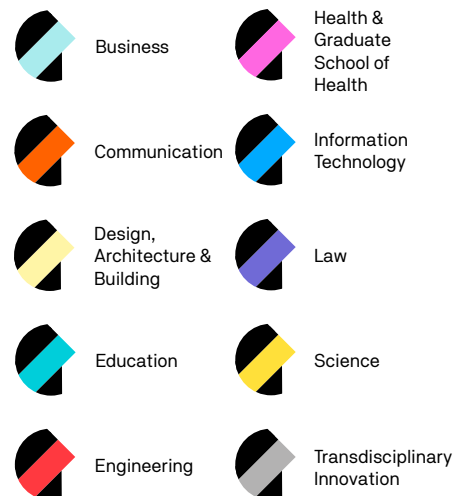

The academic gowns worn today have their origins in the costumes of twelfth century Europe. The trencher (hat) grew out of the pileus worn at Oxford and Cambridge universities around the seventeenth century. The festal gowns worn by the Chancellor, Deputy Chancellor, Pro-Chancellors and Vice-Chancellor are based on traditional British gowns, but contain embroidered Australian wattle (*acacia pycnantha*), Australia's national flower.

Other professional and academic staff in the procession wear the gowns that commensurate with the highest level of award they have earned. Often their gowns are from other universities in Australia or abroad, adding to the variety of each UTS ceremony.

Graduate Dress

UTS graduates wear black gowns in the Cambridge style but their hoods are unique to the university. The number and colour of the bands on the edge of the lining designate each graduate's faculty level of the award. Sashes and inserts are worn by undergraduate, associate diploma, and double degree recipients. All graduates wear a black trencher cap (also referred to as a mortarboard).

UTS Hood Colours

Creative Intelligence and Innovation Sash

Bachelor of Creative Intelligence and Innovation

This sash represents students who have completed a combined degree, which includes the Bachelor of Creative Intelligence and Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Innovation Sash

Diploma in Innovation

This sash represents students who have completed a combined degree, which includes the Diploma in Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Indigenous Sash

Aboriginal

Torres Strait Islander

Our Indigenous graduates wear sashes at graduation to proudly celebrate their identity and ancient cultural heritage alongside their academic achievement. The sashes are based upon the colours of the Aboriginal flag and the Torres Strait Islander flag – both are official flags of Australia.

International Studies Insert

Bachelor of Arts in International Studies

The light grey insert signifies the Bachelor of Arts in International Studies which is part of a double degree. The hood colour reflects the second degree from one of the 25 core UTS undergraduate degrees.

PhD Gown and Bonnet

PhD Gown (left) and Bonnet (right)

The PhD (Doctor of Philosophy) is a University-wide degree that involves an intense period of supervised study and research. The degree of Doctor of Philosophy is awarded to successful candidates who have made a distinct contribution to knowledge, whether by original investigation, review or criticism. Doctoral graduates wear a black bonnet.

Honorary Awards

Honorary Doctors

Fellow of the University

UTS confers honorary awards and titles on people who have contributed to the achievement of the university's vision and objectives, to scholarship or professional practice, or to the advancement of society in Australia or overseas. Following are the three awards which are conferred at a Graduation ceremony:

- Honorary Doctors
- Fellow of the University
- UTS Distinguished Service Award (no regalia)

Academic Documentation

Testamur, Academic Transcript and Australian Higher Education Graduate Statement

TESTAMUR

The UTS Testamur (referred to at some institutions as a 'certificate') is produced under secure conditions with the utmost care to ensure graduates receive a document of presentation quality worthy of framing. It is both an official document of the university and a keepsake.

ACADEMIC TRANSCRIPT

Like the Testamur, the Academic Transcript is also an official document of the university produced under secure conditions. Unlike the Testamur, the Academic Transcript is frequently sought by prospective employers and other higher education institutions as evidence of a graduate's academic achievements while at UTS. It details the name of the degree awarded, the subjects undertaken, the marks and grades earned and the calculated Grade Point Average (GPA). The reverse of the document provides information about reading and interpreting the information detailed on the Academic Transcript.

AUSTRALIAN HIGHER EDUCATION GRADUATION STATEMENT

The Australian Higher Education Graduation Statement (AHEGS) was introduced by the Commonwealth in 2010 to make Australian qualifications recognised and renowned throughout the world.

Like the Academic Transcript, the AHEGS details academic performance, which provides potential employers and other institutions with a greater understanding of the achievements of each graduate. However, unlike the Academic Transcript, the AHEGS also includes many of a graduate's extracurricular achievements, such as scholarships and prizes won, elected offices held (e.g. elected student representative on UTS Council), and participation in leadership programs such as Beyond UTS International Leadership Development (BUILD).

MY EQUALS

UTS provides all graduates with a printed copy of their Testamur at graduation ceremonies and digital copies of all three official academic documents soon after conferral (prior to graduation ceremonies) via My eEquals. Graduates register with My eEquals and, when their documentation becomes available, they can easily and securely share their certified digital copies with prospective employers, universities to which they apply for graduate studies, etc.

For more information about academic documentation visit the UTS website (uts.edu.au) and search for 'student records'. To register with My eEquals, visit myequals.edu.au.

Honorary Awards

Kate Eastman AM SC

Doctor of Laws

Kate Eastman AM SC is a barrister specialising in human rights, discrimination, employment, public and constitutional law. She is presently Counsel Assisting the Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability.

Throughout her 30 years law practice, she has been committed to human rights and equality, undertaking pro-bono representation of asylum seekers in detention at Allens, and working as Senior Legal Officer at the Australian Human Rights Commission before joining the Bar in 1998. She has taught human rights law at UTS, Monash University and the University of Sydney, and in a number of international programs.

She is currently Chair of the Australia Bar Association's Diversity and Inclusion Committee, the Law Council of Australia's Equal Opportunity Committee and the NSW Bar Association's Diversity Committee. Kate has received numerous awards and in 2020, she was appointed a Member of the Order of Australia for significant service to the law, to human rights, and to professional organisations.

Kate Eastman AM SC holds a Master of Laws from UTS, a Master of Laws with Distinction from University College London and a Bachelor of Arts/Bachelor of Laws from the University of New South Wales.

Dr Ron Sandland AM

Doctor of the University

Dr Ron Sandland AM joined the Division of Mathematics and Statistics, CSIRO in 1969 and became chief of the division in 1988. In 1999, he became Deputy Chief Executive of CSIRO where he brought together six major cross-disciplinary research programs to address problems of national priority. He was awarded the CSIRO Medal for Lifetime Achievement in recognition of 37 years of research leadership.

He was appointed President of Statistical Society of Australia and awarded Honorary Life Member of the Society in 1998. Ron is a Fellow of the Australian Academy of Technology and Engineering, and a member of the Order of Australia.

Ron served on UTS Council from 2008 to 2020, was Pro-Chancellor from 2011 to 2020, and chair of Commercial Activities Committee since 2010.

He has chaired a number of committees and continues to chair the ARC Centre of Excellence for Mathematical and Statistical Frontiers (ACEMS). He chairs the Australian Plant Phenomics Facility Advisory Board, and Bureau of Meteorology's Data Integrity Advisory and Assurance Committee.

Dr Ron Sandland holds a Bachelor of Science (Honours) from the University of Sydney, actuarial qualifications and a Doctor of Philosophy from the University of New South Wales, and an Honorary Doctor of Science by University of Melbourne.

Monika Law

Fellow of the University

Monika Law's desire to help indigenous women access higher education has started a remarkable family legacy that continues to make an impact on the lives of female indigenous students today at UTS.

Her contribution to the Roberta Sykes Indigenous Education Foundation's scholarships led to her involvement at UTS, after the foundation assisted UTS alumna Larissa Behrendt (now Distinguished Professor of Law and Director of Research at the Jumbunna Institute for Indigenous Education and Research) to study at Harvard University.

Now known as the Schiff Family Scholarship, in memory of Monika's parents, Johannes and Friederike Schiff, this scholarship provides financial support for indigenous women undertaking both undergraduate and Honours study at UTS.

In 2009, Monika made a substantial future gift to ensure subsequent generations of indigenous women would continue to be inspired to study at UTS.

Monika Law holds a Bachelor of Arts (Philosophy) from the University of Sydney and was a school counsellor throughout her working life.

Jacqui Wise

Distinguished Service Award

Jacqui Wise joined UTS in 2007 as Director, Marketing and Communication Unit (MCU). During her nine years at the helm of MCU, Jacqui established UTS as a founding partner of The Conversation; launched Brink, a monthly supplement in the Sydney Morning Herald; and spearheaded the Campus Masterplan public relations activities and events, including the opening of the Dr Chau Chak Wing Building.

In February 2016, Jacqui was appointed Director, Student Administration Unit (SAU) leading a 120-person team committed to continuously improving the student experience. In 2019 Jacqui also assumed responsibility for the University's Office of Quality Assurance, managing and reporting key teaching,

research and organisational quality indicators.

More recently, Jacqui was appointed the Executive Director, Lifetime Learner Experience (LLE) Unit. LLE is a 200 plus strong team of higher education professionals dedicated to meeting the needs of future learners, current learners and the University.

Jacqui serves on a range of governance boards and committees. She is a long-standing contributor to the UTS Staff Giving program, has established a bequest, and is enrolled in the University's body donation program.

Jacqui holds a Master of Arts in Creative Writing from the University of Technology Sydney.

Associate Professor Jonathan Tyler

Distinguished Service Award

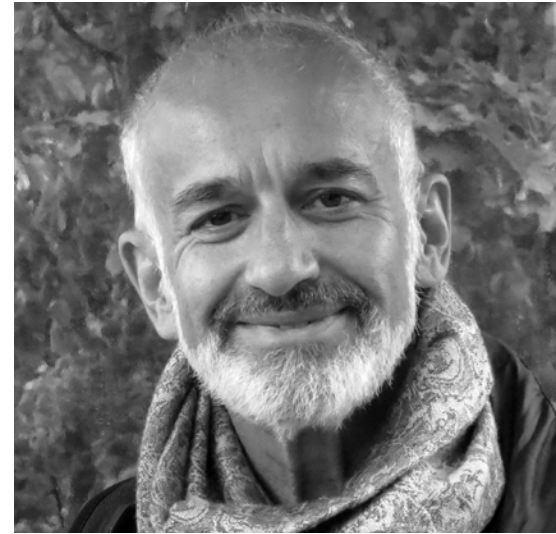

Associate Professor Jonathan Tyler is the Deputy Head, Accounting Discipline Group at UTS. For over forty years Jonathan has taught, studied, served, researched, and published in accounting, most of the time at UTS, but also in the United States of America and the United Kingdom.

Jonathan secured a place to study Commerce at UNSW upon leaving Coffs Harbour High School in 1975. He was 'first in family' to attend university and enjoyed it so much he quickly abandoned employment at a chartered accounting firm when offered a tutoring position at his old university.

He is a Fellow of Chartered Accountants Australia and New Zealand, and was a Director of Sydney Education Broadcasting (2SER FM), the UTS / Macquarie University radio station for over 25 years.

He has published an extensive range of journals and accounting textbooks and now consults in higher education.

Associate Professor Jonathan Tyler holds a Bachelor of Commerce (Honours) and Master of Commerce from the University of New South Wales, and a Doctor of Philosophy from UTS.

Research Awards

Professor Shoudong Huang

2020 Chancellor's Medal for Research Excellence

Shoudong Huang is an Associate Professor in the School of Mechanical and Mechatronic Engineering at UTS and an internationally recognised researcher whose work focusses on mobile robot navigation in many different areas, including search and rescue, underwater, and underground mining.

He is motivated by a desire to see robots collaborating with humans and helping people in their daily lives, and his work has made significant contributions to the fields of mobile robot simultaneous localisation

and mapping, operations research, nonlinear state estimation and nonlinear robust control.

He is a Deputy Director of the UTS Centre for Autonomous Systems, which specialises in robotics research that creates positive change for government, industry and the wider community. He is also the Director of the Joint Centre in Robotics Research that was established by UTS and Zhejiang University.

Associate Prof Christina Ho

UTS Medal for Excellence in Teaching and Research

Much of Christina Ho's research of Asian migrants and the Australian education system draws upon her experience as a migrant to Australia. An Associate Professor in Social and Political Sciences at UTS researching cultural diversity, equity and education in Australia, Christina has always been interested in how a migrant background can affect someone's life chances.

She sometimes describes her work as "the study of tiger mothers" because of her special interest in Asian migrant parents' approaches to education. Her research reflects the conversations,

concerns and anxieties around different approaches to education and to that end, she works closely with educators, professional bodies, parents, students and specific communities, such as Asian students at selective schools. Christina's approach to her work was recognised in 2021 with the UTS Medal for Excellence in Teaching and Research.

Alumni Awards

Professor Darren Martin

*PhD Science, 1996; Bachelor of Applied Science
(Materials Science), 1993*

UTS Chancellor's Award
for Excellence 2020

UTS Alumni Award for
Excellence 2020 –
Faculty of Science

“The shared joy of developing better materials and products is still a ‘drug’, because oftentimes it takes a decade and many minds and hands to make it work. That big, shared experience is pretty cool.”

Professor Martin is a materials scientist and globally recognised innovator in the research and commercialisation of polyurethanes, polymer nanocomposites and renewable nanomaterials. A desire to solve the world's ‘wicked problems’ led him to develop bio-stable polyurethane materials for improved pacemaker lead insulation for his PhD research at UTS. Professor Martin has since founded two successful start-ups and leads the Martin Group – part of the University of Queensland's Australian Institute for Bioengineering and Nanotechnology – where he develops the science, engineering, regulation, and translation of research discoveries for the benefit of Australia. One of these projects is partnership between academia and an Indigenous corporation to derive new sustainable materials derived from spinifex grass, which he aims to commercialise in a way that incorporates traditional Indigenous knowledge and includes future commercial benefits and Indigenous economic development.

Dr Paul Beinat

PhD Computing Sciences, 2008

UTS Alumni Award for Excellence 2020 – Faculty of Engineering and Information Technology

Dr Paul Beinat is a Principal at Finity Consulting where he heads up the Artificial Intelligence team and an Adjunct Professor at UTS, where he is an advisor to the Centre for Artificial Intelligence and a member of the executive leadership team at the Advanced Analytics Institute. Feeling inspired to build something that represented a new capability, he tapped into his interest in Artificial Intelligence to design and develop Colossus, the insurance industry's largest expert system in the world at the time. Dr Beinat has been involved in Finity's Artificial Immune System product from research to inception, and also designed the Claims Outcome system. His future goal is to build new algorithms to solve completely new problems.

“There’s a pleasure in creating something new and seeing how it works. Ultimately, I would like to leave some sort of a mark, so that others can see what I did.”

Angelo Candalepas

Bachelor of Architecture, 1992

UTS Alumni Award for Excellence 2020 – Faculty of Design, Architecture and Building

Angelo Candalepas is an award-winning architect and Fellow of the Australian Institute of Architects. He aims to mend the world's injustices through practice. His goal for the future is to deliver work that has a broader social offering; one that changes people's lives through an awakening of an awareness about our place and time. He has received numerous honours, including first prize in an international competition for his design of housing in Pyrmont in 1994, just two years after graduating from UTS. Since establishing Candalepas Associates in 1999, he has won the Australian Institute of Architects Sulman Medal for Public Architecture twice, the Frederick Romberg National Architecture Award, the Seidler Award for Commercial Architecture, and the Aaron M Bolot Award for Residential Architecture twice. Angelo was awarded the Premier's Award for Architecture in NSW in 2016.

“Creating beautiful work is the only relevant act in architecture, for architecture does not reach a level of art without the aesthetic dimension.”

Phillipa McDermott

Bachelor of Arts (Communication), 1998

UTS Indigenous Australian Alumni Award 2020

Phillipa McDermott is a proud Wakka Wakka and Mulinjali woman who has been Head of Indigenous Employment and Diversity at the ABC since 2013. Social justice has always been the driving force in all that Phillipa does, and her time spent at UTS has only strengthened this core value. Phillipa's current focus is to make Australian media look and sound like a true representation of Australian society, with strong representation from Indigenous and diverse people working in the media industry. Under her leadership, the ABC has exceeded its two per cent Indigenous employment target. She is the current Chair of Bangarra Dance Theatre and has worked as a radio broadcaster, media manager, and economic development manager.

“In society at large, I would like to see Australia come to terms with its true history, which might go some way towards eliminating systemic racism. This history needs to be taught in schools properly, and not just be left up to the school to navigate or integrate Indigenous perspectives into the existing curriculum.”

Geoffrey McNamara AM

Graduate Certificate in Design Tech, 2000; Diploma of Teaching in Technical Education, 1989; Bachelor of Adult Education, 1997

UTS Community Alumni Award 2020

Geoffrey McNamara AM is a passionate champion for science and education who has been a teacher for 33 years. In 2008 he developed the Science Mentors Program to connect high school students with scientific mentors to encourage their passion for science and give them real-world experience in it. Geoff has authored over 100 papers for science magazines, published several books and helped to develop telescopes, including the McNamara–Saunders Astronomical Teaching Telescope. In 2018 he was awarded a Member of the Order of Australia for significant service to secondary education, particularly in the disciplines of science and astronomy.

“Above all, wherever possible, follow your heart, do what fulfils you, do what gives you a sense at the end of the day that you made some small, positive difference in the world.”

George Savvides AM

Master of Business Administration, 1985

UTS Alumni Award for Excellence 2020 – UTS Business School

George Savvides is a business leader with over 30 years of experience in the health care, government enterprise and not-for-profit sectors, and he believes his success as a leader comes down to having an adaptive mindset. His style of leadership is about people: investing in teams and connecting employees to a meaningful purpose while inspiring people by engaging their hearts as well as their heads. George's experience includes CEO of Medibank Private, Chair of World Vision Australia and Chair of Macquarie University Hospital. He is currently Chair of SBS Australia and Next Science, and a board member of Insurance Australia Group and Ryman Healthcare. He was made a member of the Order of Australia for significant service to the community, charitable groups, and business in 2020.

“I want to help redefine leadership from a power, status and individual ambition stereotype to leadership that is about serving the mission and the organisation, its people and customers. That is how you unleash an organisation’s full potential.”

Mayrah Sonter

Master of Arts (Journalism), 2012; Bachelor of Communications, 2005

UTS Alumni Award for Excellence 2020 – Faculty of Arts and Social Sciences

Mayrah Sonter is a proud Wiradjuri woman who is passionate about creating more opportunities for Aboriginal and Torres Strait Islander voices in the media and in business. This desire to empower her people has driven her career as a communications specialist, events producer, journalist, and business director. Her support for the Indigenous business sector inspired her to become a co-director of 33 Creative, a co-founder of Indigenous Business and the host of 'The Real' Podcast. Mayrah is also Chair of the National Aboriginal and Islander Skills Development Association, a member of the NSW Aboriginal Housing Office Board, National Indigenous Culinary Institute and Commonwealth Bank Indigenous Advisory Council.

“I want to help get more Indigenous voices heard and more Indigenous stories told. The more we share our experiences and understand each other, the better the nation we will create for ourselves and the next generation.”

Emma Watkins

Master of Media Arts Production, 2012

UTS Young Alumni Award 2020

Emma Watkins has become a household name as the first female member of Australia's iconic band, The Wiggles. Emma began performing with The Wiggles in 2010, and was the beloved Yellow Wiggle from 2012 until 2021. Emma is a charity ambassador who is committed to supporting young children in the Deaf Community and an ambassador for StorySign – an app that translates written text into sign language. She also regularly incorporated sign language into her performances to ensure more children can enjoy The Wiggles. She is collaborating with Deaf artists to direct and produce multidisciplinary film works. Emma is also a UNICEF Ambassador and the NSW Ambassador for Endometriosis Australia. She has been awarded two ARIA Awards for her work with The Wiggles.

“I would like to see a much more mindful approach to working with communities, rather than talking about them or tokenising them. I think we need to be aware of how everybody’s experience is different, but also celebrate those differences – because there’s so much we can learn from each other.”

Dominic Woolrych

Juris Doctor, 2012; Bachelor of Business, 2009

UTS Alumni Award for Excellence 2020 – Faculty of Law

Dominic Woolrych is the CEO of Lawpath, Australia's largest and fastest growing online legal platform. Lawpath enables legal practitioners to participate in the gig economy and has helped over 130,000 Australian businesses to access legal services more easily and affordably. Dominic is determined to utilise technology to make legal services, access to justice, and legal protection more accessible to Australians. He hopes that the prohibitive cost of legal services and the difficulties involved in connecting with a lawyer will soon be a thing of the past. Dominic is also a founding member of the Australian Legal Tech Association and an Adjunct Professor at the UTS Law School.

“The legal industry is ripe for disruption. As one of the last professional services industries to be considerably touched by technology, I hope that I can affect change in the legal industry through technology adoption.”

Associate Professor Leanne (Lulu) Zalapa

Bachelor of Nursing, 1993

UTS Alumni Award for Excellence 2020 – Faculty of Health

Associate Professor Leanne (Lulu) Zalapa is a health industry front-runner with extensive leadership experience in nursing and philanthropic services. As the CEO and Founder of the Prince of Wales Hospital Foundation, she raised over \$50 million for infrastructure, research, equipment, and patient care projects including the Nelune Comprehensive Cancer Centre and the Louisa Hope Fund for Nurses. She credits her approach of setting small goals which ultimately lead to big goals as the secret to her outstanding success as a fundraiser. Professor Zalapa has launched a range of high-profile charities, including Dry July and Dreams2Live4 and is an Adjunct Associate Professor in the UTS Faculty of Health.

“I would like to see more research and education in the area of public health. And a move towards virtual care through wearables and telehealth, making the home the centre for patient care.”

Madhavi Shankar

Master of Business Administration, 2015; Master of Engineering Management, 2014

UTS International Alumni Award 2020

Madhavi Shankar is an entrepreneur who is passionate about creating equal opportunities and employment for women. Following a stint as Asia-Pacific Product Manager for Vodlo, an Australian software development enterprise, she returned to India with a mission to create impact using technology in under-served sectors. She co-founded the app SpaceBasic, a platform to manage hostels and student housing communities in 2017. SpaceBasic has since grown rapidly and as CEO, Madhavi has pledged 1 per cent of the app's profits towards educating women. In 2019 she was named one of the Top 60 Women Transforming India by the Indian Government and the United Nations. She has presented several TEDx talks and was named in the Forbes 30 under 30 Asia in 2020.

“Solve a real problem, conduct thorough due diligence, and always validate your product with your customers and potential customers. Most importantly, trust your gut and don't give up!”

Chancellor's Award and List

One of the most important missions of universities is the creation and dissemination of knowledge, through research and publication. UTS endeavours to foster a climate conducive to research of the highest order. To this end, the Chancellor's Award has been established to be given to the person who submits the outstanding PhD thesis each year. This award was established by the late Emeritus Professor Peter Johnson, the University's Foundation Chancellor. Those placed on the Chancellor's List are recognised for their achievement.

2020 Chancellor's Award Winner

Dr Thanh Huong Nguyen

University
Medal

Congratulations

The University Medal

The prestigious University Medal is awarded each year to a select few undergraduate students for outstanding academic achievement.

University Medal

Lauren Baird

Bachelor of Midwifery with Distinction and University Medal

Margaret Cai

Bachelor of Communication (Social and Political Sciences), Bachelor of Laws (Honours) with First Class Honours and University Medal

Michael Joseph Cardillo

Bachelor of Construction Project Management with First Class Honours and University Medal

Li-Hsiang Shawn Chen

Bachelor of Science in Information Technology with Distinction and University Medal

Yvonne Cheung

Bachelor of Design (Honours) in Animation with First Class Honours and University Medal

Sierra Collender

Bachelor of Business (Honours) with First Class Honours and University Medal

Harrison Fursman

Bachelor of Forensic Science (Honours) with First Class Honours and University Medal

Alexandra Gassner

Bachelor of Laws (Honours) with First Class Honours and University Medal, Bachelor of Medical Science

Dale Terry Grant

Bachelor of Science in Games Development with Distinction and University Medal

Liam James Harper

Bachelor of Business (Honours) with First Class Honours and University Medal

Eldrin Hermoso

Bachelor of Business (Honours) with First Class Honours and University Medal

Tomas John Kennedy

Bachelor of Business (Honours) with First Class Honours and University Medal

Tony Kha

Bachelor of Information Technology with Distinction and University Medal

Wendy Khin

Bachelor of Construction Project Management with First Class Honours and University Medal

Annabel Varvara Manoleras

Bachelor of Medicinal Chemistry (Honours) with First Class Honours and University Medal

Hugh Alexander McKinn

Bachelor of Business (Honours) with First Class Honours and University Medal

Jonathan Moallem

Bachelor of Science (Honours) in Information Technology with First Class Honours and University Medal

Jessica Ong

Bachelor of Business with Distinction,
Bachelor of Science in Information
Technology with Distinction and
University Medal

Charlie Jules Peter

Bachelor of Science (Honours) in
Mathematics with First Class Honours
and University Medal

Max William Riley

Medal

The beginning of a journey of connection and lifelong learning

You've just taken a giant leap from life as a UTS student to your new beginning as a UTS graduate. Today you join a worldwide community of over 250,000 UTS alumni, connected to the thousands of UTS graduates who've come before you, and the many more who will graduate in the future.

During your years of learning and discovery at UTS you've achieved educational goals, formed enduring friendships and established valuable professional networks. Your UTS experience, whether it has been on-campus or online, will continue to shape the amazing person and professional that you become. We hope that the foundation you have built through your time at UTS will lead you on to a future of lifelong learning. Your time here, in so many ways, has been transformative.

We hope that you will carry UTS values with you as you engage deeply with the world around you. We are confident that you will shape our world for the better. Simply put, we believe in you.

Vast opportunities await you. As you leave your graduation ceremony, we hope you transition into the next chapter of your life feeling empowered to grow, explore and contribute to your local and international communities. You are becoming tomorrow's leaders, innovators and inspired global citizens.

At UTS, we would like to continue to engage with you, hear about your accomplishments and be a part of your life.

You have earned the title of UTS Alumnus and we hope that you will wear it proudly. Whatever stage in your career and no matter the distances you travel, you remain a lifetime member of UTS.

You are forever UTS.

Faculty of Engineering and Information Technology

ENGINEERING

Doctor of Philosophy

DOCTOR OF PHILOSOPHY

Zulkarnaini Abdullah

Thesis: Combining Heat-pipes Heat-exchanger and Solar Energy for Comfort Cooling

Hasini Viranga Abeywickrama

Thesis: Energy-efficient Deployment of Unmanned Aerial Vehicles in Wireless Communication Systems

Nawshad Akther

Thesis: Development of Thin-Film Composite Membranes Incorporated with Graphene Oxide and Derivatives for Forward Osmosis Processes

Salman Al Zahrani

Thesis: Thermal Performance Analysis of Conventional and Enhanced Corrugated and Flat Plate Heat Exchangers

Stefano Aldini

Thesis: Prediction-Error Negativity in Physical Human-Robot Collaboration

Khaled Yahya A Alghamdi

Thesis: A Software Defined Paradigm for Mobile Networks

Syed Muztuza Ali

Thesis: Design and Optimization of a Full Scale Forward Osmosis System.

Jinsong Cao

Thesis: Assessment of Residual Load Capacity of ASR Affected

Reinforced Concrete Structures

Yongbo Chen

Thesis: Autonomous Navigation and Planning Technology for Quad-rotors Unmanned Aerial Vehicle (UAV) System

Dongle Cheng

Thesis: Specific Integrated Biochar – Microbial Fuel Cell Bioreactor for Removing Antibiotics from Swine Wastewater

Sam Huu Doan

Thesis: A Suite of Analytical Solutions for Free Strain Consolidation of Soft Soil Reinforced by Stone Columns

Yang Dong

Thesis: Three-Dimensional Discrete Element Simulation of Cavity Expansion from Zero Initial Radius in Sand

Ugyen Dorji

Thesis: A Combined Up-flow Anaerobic Sludge Blanket and Biofilter as an Improved Alternative On-site Sanitation in Urban Bhutan: Lab-scale to Pilot Studies

Dinushika Shyamali Senaviratne

Ekanayake

Thesis: New Developments in Stormwater Characterization and Remediation for Water Reuse

Mohsen Eskandari

Thesis: Intelligent and Robust Control Strategy for Improving Microgrids Operation and Stability

Xiaochen Fan

Thesis: Mobile Edge Computing: From Task Load Balancing to Real-World Mobile Sensing Applications

Yimeng Feng

Thesis: Smart Road Sensing for Intelligent Transportation Systems

Romina Ghobadi

Thesis: Improved Electrokinetic Process for Capturing Heavy Metals in Contaminated Soil

Ralph Rolly Gonzales

Thesis: Engineering the Polyamide Selective Layer of Thin Film Composite Membranes for Osmotic Power Generation

Kairui Guo

Thesis: Multi-mode Stroke Rehabilitation System Using Signal-Controlled Human Machine Interface

Yao Huang

Thesis: EMG Control Strategy of a Cable-based Upper Limb Rehabilitation Robot and its Verification

Mojtaba Jabbari Ghadi

Thesis: Active Distribution Network Operation Incorporating Distributed Generations and Compressed Air Energy Storage

Daluwatumullagamage Maleen Nipun Jayasuriya

Thesis: Deep Learning Aided Visual Localisation in Urban Pedestrian Environments

- Jamshed Ali Khan
Thesis: Volatile Fatty Acid and Water Extraction from Rumen Fluid by Forward Osmosis
- Md Noman Habib Khan
Thesis: Analysis and Design of Single-Phase Transformerless Inverter for Photovoltaic Applications
- Talha Ali Khan
Thesis: Population-Based Advanced Optimisation Algorithms for Electrical Impedance Tomography Image Reconstruction
- David Kim
Thesis: Membrane Capacitive Deionization Using Ion-exchange Polymer Coated Electrodes for Resource Recovery from Wastewater
- Seyedamir Latifaghili
Thesis: An Efficient PU-based Approach to Model Quasi-brittle Fracture and Interfaces
- Cedric Le Gentil
Thesis: Gaussian Process Preintegration for Inertial-Aided Navigation Systems
- Ju Heon Lee
Thesis: Optimal Path Planning for Autonomous Underwater Gliders in Time-varying Flow Fields
- Huan Li
Thesis: Development of a Novel Controllable Seismic Isolation System Based on Negative Stiffness Concept
- Shaoqi Li
Thesis: Characterisation and Modelling for Elastomeric and Gel-like Magnetorheological Materials
- Xilin Li
Thesis: Sleep Apnea Detection Using Multi-Bio Signals and Machine Learning
- Taoping Liu
Thesis: A Study on Stable Feature Representations for Artificial Olfactory System
- Zhiyu Luo
Thesis: Nano/Microcharacterization on Mechanical Properties and Structures of Geopolymeric Matrices and Interfacial Transition Zones
- Akram Youssry Abdelaziz Mohamed
Thesis: Characterization and Control of Quantum Systems Using Machine Learning and Information Theory
- Munasinghe Imiyage Nuwan Prabhath Munasinghe
Thesis: Integrated Sensor-based Condition Monitoring in Advanced Manufactured 3D-Printed Equipment
- Cong Thanh Nguyen
Thesis: A Study on Extended-Range Electric Vehicles Equipped with Two Motors and Automated Manual Transmission
- Thi Thuc Quyen Nguyen
Thesis: Novel Adsorbents and Electrocoagulation in Arsenate Removal from Water
- Thuc Nhu Nguyen
Thesis: Modelling Alkali-silica Reaction Effects for Condition Assessment and Capacity Evaluation of Reinforced Concrete Structures
- Nour Khlaifat
Thesis: Feasibility and Energy Efficiency of the Wind Turbine in New South Wales
- Elsie Nsiah-Baafi
Thesis: Investigation of Strategies for Risk Minimisation of Adverse Alkali-Silica Reaction in Concrete
- Somanath Pradhan
Thesis: Computationally Efficient Adaptive Algorithms for Active Control Systems
- Chuan Qin
Thesis: Fast and Accurate Angle-of-arrival Estimation in an Analog Array
- Mohsen Ranjbarzahedani
Thesis: Introducing, Examining and Optimising Flow Diversion Structure as an Innovative Countermeasure against Local Scour around Bridge Piers
- Seongchul Ryu
Thesis: Selective Resource Recovery from Acid Mine Drainage by Membrane Distillation and Adsorption Process
- Faraz Sadeghi
Thesis: Structural Health Monitoring of Composite Bridges by Integrating Model-based and Data-driven Methods
- Mahdi Saki
Thesis: Data Classification and Transportation in Rail Networks

- Qiaolin Shi
Thesis: Iterative Detection Algorithms for High Spectral Efficiency Wireless Communication Systems
- Bo Song
Thesis: Measurements and Evolution of Complex Networks with Propagation Dynamics
- Zhuo Tang
Thesis: Design and Properties of Sustainable Geopolymeric Recycled Aggregate Concrete
- Yang Tian
Thesis: Study on Two-speed Transmissions for Battery Electric Vehicles
- Hai Tran Thanh
Thesis: Modelling Flowable Engineered Cementitious Composites and Its Fibre Orientation and Distribution for Tensile Performance Evaluation
- Steven Walter Tuttle
Thesis: Information Preferences of Engineering Educators Faced with Remote Laboratory Adoption Decisions
- Md Bashir Uddin
Thesis: Airflow-Oximetry Combined Signal Based Automatic Detection of Sleep Apnea in Adults
- Phong Vo Hoang Nhat
Thesis: Remediation of Micropollutants in Water Sources by Microalgae Technologies
- Tran Huyen Vu
Thesis: Corrosion Mechanisms of Steel Reinforcement in Fly Ash/Slag Based Powder Form Of Geopolymer Concrete
- Tianming Wang
Thesis: Learning Based Active Rejection of Environmental Disturbances for Underwater Robots
- Zhongqin Wang
Thesis: Computer Vision-assisted Battery-free RFID Systems for Object Recognition, Localization and Orientation
- Kaixin Wei
Thesis: Analysis and Modeling of Thermal Coupling Effect Between Power Semiconductor Devices
- Keenan John Wilson
Thesis: High-sensitivity PET Using Optimised Continuous Cylindrical Shell Nanocomposite and Transparent Ceramic Scintillators
- Hanfei Wu
Thesis: Analysis of Multi-speed Dual-input Transmission for Electric Vehicles
- Yujiao Wu
Thesis: Rapid Detection and Prognosis of Lung Cancer
- Yue Xi
Thesis: Small Object Detection and Recognition Using Context and Representation Learning
- Caihong Xue
Thesis: Performance and Mechanism of Autogenous Self-healing in Cementitious Composites Materials
- Huipeng Xue
Thesis: Design of Auxetic Stents by Topology Optimization
- Tianyu Yang
Thesis: Polarization Maintaining Photonic Crystal Fibers and Their Application as Sensors for Environmental Monitoring
- Qi Yao
Thesis: Measurement, Modelling and State Estimation Techniques for Lithium-ion Batteries
- Guangsheng Yu
Thesis: Blockchain Meets IoT: What Needs to Be Addressed
- Yang Yu
Thesis: Revisit of Microscopic Car Following Models: Conventional and Machine Learning Perspectives
- Ying Zhang
Thesis: Intelligent Fault Diagnosis of Reciprocating Compressor Using Deep Learning Methods
- Jiaheng Zhao
Thesis: Research on 2D General Feature Based SLAM Algorithm for Mobile Robot
- Dianhao Zheng
Thesis: Cooperation of Multi-agent Systems
- Jingyang Zheng
Thesis: A Study of Mechanical Behaviour of the Double-row Tapered Ring Bearing for the Main Shaft of a Direct-drive Wind Turbine

Shilei Zhou

Thesis: Fuel Economy Analysis and Powertrain Dynamic Control of a Parallel Hydraulic Hybrid Vehicle

Weiwei Zhou

Thesis: Achieving Quality of Service for LTE in Unlicensed Bands

Postgraduate

MASTER OF ENGINEERING (RESEARCH)

Hieu Danh Huynh

Thesis: Modelling and Simulation of Handover in Light Fidelity (Li-Fi) Network

Weonjung Sohn

INFORMATION TECHNOLOGY

Doctor of Philosophy

DOCTOR OF PHILOSOPHY

Elias Abou Maroun

Thesis: Supporting the Forecasting of Uncertain Product Demand in Supply Chain with Digital Tools

Yahya Sulaiman Saud Al-Hadhrami

Thesis: Intelligent Machine Learning Architecture for Detecting DDoS Attacks in IoT Networks

Yaser Abdulaziz A Alsahafi

Thesis: Understanding Healthcare Consumers' Intention to Use the Integrated Electronic Personal Health Record System in Saudi Arabia

Saeed Amirgholipour Kasmani

Thesis: Convolutional Neural Network for Accurate Crowd Counting and Density Estimation

Memoona Javeria Anwar Anwar

Thesis: Adaptive Digital Identity Verification Reference Architecture (ADIVRA) Framework

Annie Gilda Roselin Arockia Baskaran

Thesis: End-to-End IoT Security: Authentication, Vulnerability Exploration and Data Analysis

Majid Azadi

Thesis: Performance Measurement of Cloud Service Suppliers and Cloud Supply Chain

Conrad Gayan Benedict

Thesis: A DLT Regulatory Control Framework for Decentrally Governed DLT Systems in the Australian Financial System

Xiaofeng Cao

Thesis: Distribution-based Active Learning

Charles Yu-Chia Chu

Thesis: Learning and Satisfying Customer Needs for Financial Adviser

Ben Culbert

Thesis: Better Member Outcomes in Superannuation Through Data Driven Financial Literacy Prediction

Nikolas Jack Dawson

Thesis: Changing Labour Market Dynamics in Australia: Skill Shortages, Job Transitions, and Artificial Intelligence Technology Adoption

Nur Atiqah Rochin Demong

Thesis: Data-driven Adaptive Personalized Property Investment Risk Analysis: Frameworks, Methods and System

Nguyen Tien Thong Do

Thesis: Human Brain Dynamics During Multitasking Physical Navigation

Xuanyi Dong

Thesis: Efficient and Reproducible Automated Deep Learning

Zhen Fang

Thesis: Bridging Theory and Algorithms For Open-set and Heterogeneous Domain Adaptations

Sara Farahmandian

Thesis: An Interaction-based Software-Defined Security Model and Platform to Secure Cloud Resources

Helia Farhood

Thesis: Reconstruction of 3D Surfaces with Complex Material Composure Using a Light Field Camera

Benjamin Faro

Thesis: Continuous Transformation of Government Agencies in the Digital Era: A Technological and Non-Technological Assessment

Qianyu Feng

Thesis: Connecting Perception with Cognition for Deep Representations Learning

Yongshun Gong

Thesis: Network-wide Spatio-Temporal Predictive Learning for the Intelligent Transportation System

Qingji Guan

Thesis: Chest X-ray Image Classification with Deep Learning

Daniel Herron

Thesis: Designing for Relationship Break Ups: Curation of Digital Possessions Summary

Chenlian Hu

Thesis: Models and Metaheuristics for Vehicle Routing Problems under Uncertainty

Wanming Huang

Thesis: Advanced Techniques of Cross Domain Translation Learning

Wei Huang

Thesis: Understanding Deep Learning Through Ultra-wide Neural Networks

Yan Huang

Thesis: Person Re-identification in the Wild: From Short-term to Long-term

Ratiranan Jena

Thesis: Development of Semi-quantitative Earthquake Risk Assessment Models Using Machine Learning, Multi-criteria Decision-making, and GIS

Thanh Tung Khuat

Thesis: Development of robust and scalable hyperbox based machine learning algorithms.

Rinta Kridalukmana

Thesis: Human-autonomy Teaming with a Supportive Situation Awareness Model

Conggai Li

Thesis: Cohesive Subgraph Search in Big Graphs

Guang Li

Thesis: The Attention Mechanism in Vision and Language Analysis

Mingjie Li

Thesis: Nearest Neighbor Search in High Dimensional Space

Qian Li

Thesis: Reliable Sentiment Analysis in Social Media

Wentao Li

Thesis: Measuring Graphs with Shortest Distances

Yang Li

Thesis: Deep Learning Based Human Pose Estimation

Zhibin Li

Thesis: Big Data Analytics for Condition Based Monitoring and Maintenance

Adi Lin

Thesis: Causal Inference Using Bayesian Deep Learning

Zhipeng Lin

Thesis: Multi-dimensional Channel Parameter Estimation for mmWave Cylindrical Arrays

Yanbin Liu

Thesis: Learning with Limited Labeled Data

Nisha Malik

Thesis: Blockchain Based Security for Vehicular Ad hoc Networks

Jiaxu Miao

Thesis: Part-Aware and Robust Deep Learning Models for Vision Applications

Pingbo Pan

Thesis: Structured Models for Representation Inference and Data Generation

Sammy Pfeiffer

Thesis: Code for Success: Software Development for Robotics Competitions

Md Shamsur Rahim

Thesis: Using Data Analytics and Artificial Intelligence-based Techniques to Promote Water-conscious Behaviour Through Personalised Recommendations

Junaid Rehman

Thesis: Creating Multi-stakeholder Value by Leveraging High Performance Work Practices: An Intellectual Capital Perspective

Aedan Gavin Keir Roberts

Thesis: A Hierarchical Model to Detect Differential Gene Expression Distributions, and Their Investigation as a Reflection of Dysregulation in Cancer

Evanthia Samaras

Thesis: Safeguarding Digital Telecinematic History and Culture: Archiving Film and Television Visual Effects Records

Lei Sang

Thesis: Graph Representation Learning-Based Recommender Systems

Tao Shen

Thesis: Self-Attention Network for Text Representation Learning

Yaxin Shi

Thesis: Revisiting Data Representation Learning, Generation and Translation from a Consistency Perspective

Yangyang Shu

Thesis: Privileged Machine Learning for Prediction

Mohammad Siaminamini

Thesis: A Data-driven Decision Support System for Mobile Telematics

Firouzeh Taghikhah

Thesis: Extended Sustainable Supply Chain: Pathways to Sustainability through Consumer Behavior Change

Tao Tang

Thesis: Unsupervised Learning for High Performance Compression of Genomic Data Collections

Carlos Alfredo Tirado Cortes

Thesis: Providing Safer Virtual Reality Experiences with the Help of Brain-computer Interfaces

Margaret Victoria Tonkin

Thesis: Socially Responsible Design for Social Robots in Public Spaces

Ayesha Ubaid

Thesis: Intelligent Data-Driven Methods for Demand and Price Prediction in the Shipping Industry

Madhav Krishnan Vijayan

Thesis: One-shot Resource Distillation in Quantum Resource Theories, and W-state Encoding for Optical QEC

Chun Wang

Thesis: Deep Graph Neural Networks for Unsupervised Graph Learning

Hanchen Wang

Thesis: Designing Machine Learning Models for Graph Analytics

Xiaohan Wang

Thesis: Collaborative Dual-Stream Modeling for Video Understanding

Yu Wu

Thesis: Multimodal Learning and Video Analysis with Deep Neural Networks

Bohua Yang

Thesis: Cohesive Subgraph Detection on Large Graphs

Hong Yang

Thesis: Discrete Representation Learning for Network Data

Yukun Yang

Thesis: Multiple Camera Multiple Object 3D Localization in Sports Videos

Zongxin Yang

Thesis: Sequence Modeling with Deep Learning for Visual Content Generation and Understanding

Xunxiang Yao

Thesis: Image super-resolution based on fractal analysis

Hang Yu

Thesis: Streaming Data Regression

Jie Zeng

Thesis: Research on Key Technologies of Low-Latency Uplink Non-Orthogonal Multiple Access

Lu Zhang

Thesis: Online Media Information Enhancement by Fusing Multimodal Media Data

Ruiheng Zhang

Thesis: Exploring Region-based Deep Learning to Understand Objects in Real-world Scenarios

Xiaocai Zhang

Thesis: Deep Learning for Traffic Time Series Data Analysis

Xiaolin Zhang

Thesis: Learning for Object Localization with Imperfect Data

Xuan Zhang

Thesis: Error Correction Algorithms for Genomic Sequencing Data

Zongjian Zhang

Thesis: Exploring Visual Attention Mechanism for Scene Understanding in Image Captioning

Zhedong Zheng

Thesis: Generative and Discriminative Learning for Visual Matching

Postgraduate

MASTER OF ANALYTICS (RESEARCH)

Wenfeng Hou

Thesis: Semantic Enhancement for Text Representation

Mengyao Li

Thesis: Transformer-Based Siamese Textual Encoder for Knowledge Base Completion

Baodi Ning

Thesis: Analysis of the Latest Trojans on Android Operating System

Peter William Pinnington

Thesis: What Information Technology Do Young Aboriginal Men Use for Their Health and Wellbeing, Identity and Resilience?

MASTER OF SCIENCE (RESEARCH) IN COMPUTING SCIENCES

Tuan Vinh Ha

Thesis: An IT Model to Engage Elderly People to the Community

Jingwei Liu

Thesis: Heartbeat Detection with Complicated Noises Using FMCW Radar

Alexander Clyde McKinlay

Thesis: Rényi Divergence Inequalities via Interpolation, with Applications to Generalised Entropic Uncertainty Relations.

Kamrun Nahar

Thesis: An Ontology Based Identity and Access Management Metamodel for Secure Adaptive Enterprise Architecture

Andrew William Rafe

Thesis: An Exploration of Spiking Neural Networks and Their Use on Reinforcement Learning Tasks

Honorary Award

DOCTOR OF THE UNIVERSITY (HONORIS CAUSA)

Ronald Lindsay Sandland
AM, FTSE, PhD (UNSW)

Doctor of Philosophy

DOCTOR OF PHILOSOPHY

Rhiannon Leigh Alder

Thesis: Development of a Surface-Enhanced Raman Spectroscopy Substrate for the Detection of Illicit Drugs in Oral Fluid

Matthew Balzer

Thesis: The Role of Allochthonous Dissolved Organic Carbon in Supporting Food Webs in Australian Lowland Rivers

Guochen Bao

Thesis: The Study of Photophysical Properties of Organic-Lanthanide Hybrid Materials and Their Applications

Lorenzo Barolo

Thesis: Comparative Protein Analysis to Investigate Chlamydomonas Reinhardtii As a Cell Biofactory

Abanti Barua

Thesis: Molecular Ecology and Toxicity of Alexandrium Pacificum in Australian Waters

Harvey Bates

Thesis: Development and implementation of high-throughput phenotyping tools for microalgae

Thomas Berry

Thesis: A Study of the Effect of Membrane Targeting Antimicrobial Compounds on Ionic Transport Across Lipid Bilayer Membranes

Tamika Ayisha Blair

Thesis: The Function of CedA of Escherichia Coli and its Relevance to Urinary Tract Infections

Jack Edward Bozier

Thesis: Electronic Cigarette Exposure: Inflammatory and Immunological Implications in Structural Lung Cells and the Potential Public Health Consequences

Nicole Lauren Cattarossi

Thesis: Comparison of Authentic and Synthetic Training Aids for Drug-Detection Dogs

Kathryn Marie Chartrand

Thesis: Growth Dynamics and Drivers of Deep-water Seagrasses From the Great Barrier Reef Lagoon

Alicia Minetta Cook

Thesis: Variation in the Photosynthetic Heat Tolerance of Plants from Extreme Environments: The Influence of Heat Exposure and Environmental Context

Claudia D'Amario

Thesis: Cellular Study of the Human Chloride Intracellular Ion Channel Proteins: Exploring Their Physiological Role and Potential as Novel Targets for Treating Disease

Mahmoud El Safadi

Thesis: New Metal Chelators for Chelation Therapy in Neurodegenerative Diseases

Jordan Alexander Facey

Thesis: Importance of Micronutrients for Freshwater Cyanobacterial Growth and Bloom Formation

Guocheng Fang

Thesis: Development of Spheroids and Organoids on the Microfluidic Chip

Gabrielle Federici

Thesis: Unravelling the Wnt-3a Signalling Mechanisms That Modulate Inflammation and Neurodegeneration in Cell Cultures and in an Animal Model of Parkinson's Disease

Nerissa Fisher

Thesis: Strategies of Resource Allocation by Diatoms under Dynamic Light

Johannes Emanuel Froch

Thesis: Integration of Novel Quantum Emitters into On-Chip Photonic Devices

Daniela Gaio

Thesis: The Generation of the Largest to Date Pig Gut Metagenomic Dataset and the Insights Gained into Microbiome Composition and Function

Jestin George

Thesis: Exploring Genetic Engineering Strategies to Enable Heterologous Monoterpenoid Production in Model Microalgae, Chlamydomonas Reinhardtii and Phaeodactylum Tricornutum

Priyanka Shirish Hastak

Thesis: Genomic Epidemiology of Escherichia Coli in Human Blood-Stream Infections

Mohammad Asif Iqbal

Thesis: Chemical Profiling of Exhaled Breath from Cystic Fibrosis Subjects Using Comprehensive Two Dimensional Gas Chromatography

George Kalatzis

Thesis: Investigating Cognitive Function in Clinical and Non-clinical Samples Using Electroencephalography and Psychometric Assessment: A Comparative Study

Ipek Karacan

Thesis: Antimicrobial PLA and Calcium Phosphate Coatings and Thin Film Composites for Implants Applications

Joshua Charles Klingberg

Thesis: Detection and Profiling of Synthetic Opioids

Yingyod Lapwong

Thesis: Thermal and Behavioral Adaptations of the Invasive Asian House Geckos (Hemidactylus Frenatus)

Piyachat Leelasilapasart

Thesis: Implementation, Numerics, and Application of Duality for Optimal Stochastic Switching

Huey Sze Leong

Thesis: Cytotoxicity and Metabolic Study of New Psychoactive Substances

Gerard Eric Li

Thesis: Intrauterine Exposure to E-vapour Disrupts Metabolic and Hepatic Homeostasis in Mice

Yongtao Liu

Thesis: Up-converting Multimodality Super-resolution Microscopy

Yuan Liu

Thesis: Programming Magnetic Ordering for Smart Micromachines

Erick Lundgren

Thesis: Biodiversity and Ecological Function in an Age of Biotic Redistribution

Bojana Manojlovic

Thesis: Data Assimilation Techniques for Aquatic Ecological Processes

Rami Mazraani

Thesis: Pelvic Inflammatory Disease in Women; Improving Diagnosis and Better Understanding the Disease Process

Annaclaire Gwendolyn McDonald

Thesis: Fantastic Metals & Where to Phyt Them: Assessing the Potential of Metal Accumulation in Edible Garden Plants

Noah Bernard Carlson Mendelson

Thesis: Bottom-up Fabrication of Single Photon Emitters in Hexagonal Boron Nitride

Laura Michie

Thesis: Thermal pollution in Australian freshwater ecosystems: ecological consequences for fish larvae and juveniles

Ahmed Mostafa Taha Mohamed

Thesis: Coordination Between Chromosome Translocation and Peptidoglycan Remodelling During Spore Development.

Minh Anh Phan Nguyen

Thesis: Creation and Manipulation of Quantum Emitters in Solid-state Materials

Nguyen Viet Khue

Thesis: Characterisation of the Sydney Rock Oyster Microbiota and its Association with QX Disease

Naomi Jessica Paull

Thesis: Green Wall Technology for Sustainably Improving Environmental Quality: Investigations into Green Wall Plant Health and Particulate Deposition

Jessica Louise Pedersen

Thesis: Identification and Investigation of a Novel Biomarker Signature for Active Tuberculosis

Ana Popovic

Thesis: Understanding Methylamphetamine Drug Markets in an Australian Context

Ekena Rangel Pinage

Thesis: Structure and Function in Degraded Forests in the Amazon From Multi-source Remote Sensing

Dilan Seckiner

Thesis: The Development and Testing of a Forensic Interpretation Framework for Use on Anthropometric and Morphological Data Collected During Stance and Gait

Lijie Shi

Thesis: Climate Change Impacts on Potential Evapotranspiration, Drought, and Runoff in Eastern Australia

Romain Steiner

Thesis: Inkjet Printing of Artificial Latent Fingermarks for Improved Quality Assurance and Research Efficiency

Alexandra Summerell

Thesis: A Wildlife Forensic Genetic Toolbox to Combat the Illegal Trade of the Short Beaked Echidna

Jin Sun

Thesis: Pricing Pension, Life Insurance and Investment Products

Vickie Tang

Thesis: The Role of DNA Damage and Extracellular Trap Formation in Atherosclerosis

Anastasiia Tkacheva

Thesis: Redox Mediators and Electrolytes for High-performance Li-O₂ Batteries

Aleksandra Teresa Trycz

Thesis: Bottom up Engineering of Group IV Color Centers in Nanodiamonds and Nanoscale Diamond Membranes by MPCVD

Baoming Wang

Thesis: The Air Pollution Impact to Maternal Mice and Offspring

Tianyi Wang

Thesis: Development of Nanomaterials for High-Performance Energy Storage Technology

Lauren Jane Waters

Thesis: Investigating Novel Ways to Improve the Safety and Quality of Cryopreserved Platelet Components

Ross Gregory Wenzel

Thesis: Laboratory Investigation of Cobalt Regulation in Horses

Roy Rolf Woldhuis

Thesis: The Role of Accelerated Ageing In Aberrant Lung Tissue Repair and Remodelling in COPD

Xiaoqin Wu

Thesis: Investigation of the Effects of Needling the Acupuncture Point Houxi (SI 3) on Pressure Pain Threshold, Needling Sensation and Needling Pain in Healthy Participants

Jingya Yan

Thesis: Metabolomics of Cerebrospinal Fluids to Identify Novel Biomarkers as a Predictive Tool for Brain Inflammatory Conditions

James Charles Frederick Yu

Thesis: Accurate Frequentist Generalised Linear Mixed Model Analysis via Expectation Propagation

Xiao Chen Yu

Thesis: Semiparametric and Nonparametric Density Deconvolution for Data with Measurement Error; Applications to Nutrition Data

Xuefei Yu

Thesis: The Role of Vitamin D in Controlling and Managing Glycaemic Control in Patients with Type 2 Diabetes (D4D)

Muhammad Zakria

Thesis: ZnO and MgZnO Nanostructures and Heterostructures

Fan Zhang

Thesis: Rational Design of Advanced Materials for Li-Se and Na-Se Batteries

Hong Zhang

Thesis: Individual and Coupled Effects of Future Climate and Land Use Scenarios on Water Balance Components in Australia

Le Zhang

Thesis: Superfast Evolution of Bacterial Resistance to Beta-Lactam Antibiotics Mediated by Bacterial DNA Recombination

You Zhang

Thesis: Hybrid Vigour and Hybrid Mimics in Rice

Shuoqing Zhao

Thesis: Advanced Electrode Materials for Lithium- and Potassium-based Energy Storage Devices

Postgraduate

MASTER OF SCIENCE (RESEARCH)

Philippa Roslyn Alvarez

Thesis: The Hitchhiker's Guide to Post-Heatwave Seed Germination: Don't Panic!

Holly Grace Gunton

*Thesis: Movement, Connectivity and Population Structure of *Acanthopagrus Australis* (Yellowfin Bream) along the NSW Coast*

Hai Phuong Ha

Thesis: Structural Elucidation, Modification and Anticancer Properties of a Lead Compound Nicotinamide N-Methyltransferase Inhibitor

Vinaya Devidas Shinde

*Thesis: Probing Self-association of CetZ1 Cytoskeletal Protein from *Haloferax Volcanii**

Eva Wilhelmina St. Clair

Thesis: Targeted EDV™ Nanocells Carrying Small Interfering RNA (siRNA) Molecules to Overcome Drug Resistance in Non-Small Cell Lung Cancer
