HEALTH SERVICES MANAGEMENT POSTGRADUATE COURSES 2015

health.uts.edu.au

MEET THE DIRECTOR OF STUDIES

“UTS has a proven track record as an authority on health management and the new suite of programs builds on this experience to create a clear pathway for health professionals to develop their careers.”

“My area of specialty is health informatics and I am acutely aware of the increasing role that technology will play in not only information and data management, but also risk mitigation. These topics have been integrated into subject content to ensure that as a graduate, you are prepared for the evolving needs of healthcare systems.”

Joining UTS from The Australian Council on Healthcare Standards in 2011, Jen brings a wealth of health services experience at state and national levels with expertise in health informatics and

knowledge management in health. Jen has been involved in a range of clinical, managerial, educative, and project roles in public and private healthcare organisations for over 35 years.

YOUR OPTIONS IN HEALTH SERVICES MANAGEMENT

Advanced Masters – 16 Subjects, 4 years part time

4 Master of Health Services Management and Planning

Masters Degree – 12 subjects, 3 years part time

6 Master of Health Services Management

7 Master of Health Services Management in Clinical Leadership

9 Master of Health Services Management in Planning

10 Master of Health Services Management in Project Management

11 Master of Health Services Management in Health Research

Graduate Diploma – 8 subjects, 2 years part time

12 Graduate Diploma in Health Services Management

Graduate Certificate – 4 subjects, 1 year part time

13 Graduate Certificate in Health Services Management

13 Graduate Certificate in Clinical Management

Research degrees

15 PhD – thesis, 4 years part time

15 Masters by research – thesis, 2 years part time

THE UTS DIFFERENCE

Postgraduate qualifications in Health Services Management from UTS are highly respected. Developed with the NSW and QLD Ministries of Health, the courses go beyond generic management skills to include clinical components and a specialised health focus that makes graduates particularly valuable to employers.

Inspired Learning

Our unique approach to learning reengineers subjects to enable students to experience a seamless integration of the best of online and face-to-face on campus learning.

Off campus, you will access digital resources and undertake tasks at a time and place that suits you.

Each subject includes several intensive study days on campus. UTS is in the midst of a \$1 billion City Campus redevelopment. As striking as the designs are, it isn't just about what you'll see on the outside – it's as much, or more, about what it will enable on the inside.

UTS Model of Learning

- > Provides **research-inspired and academically rigorous** learning.
- > Integrates exposure to **professional practice**.
- > Encourages **international mobility** and engagement.
- > Employs **cutting-edge technology**
- > Stimulates **life-long learning**.

Your Learning Cycle

- > UTS helps you define and articulate your individual **learning goals**.
- > You gain access to **ideas and content**, whether online or in innovative learning spaces.
- > Live case studies and engagement with mentors allow you to **make sense of, and test**, your ideas.
- > Academics, leading professionals and your peers **provide feedback** on the strength of your learning.
- > Finally, you'll **reflect** on what you've learnt and how you've progressed, which will position you to set new **learning goals**.

STUDENT PROFILE

Karen Crean
Master of Health Services Management
NUM, Yarrabee (Cardiology) and CCU,
The Sutherland Hospital.

"UTS has a great study format and I enjoyed the face to face study days as there is fantastic opportunity to ask questions, interact and network with managers from a variety of backgrounds. UTS Online was a tremendous resource and the Faculty was supportive, very approachable and had an expectation of high standards."

Masters students use UTS' state of the art teaching facilities

GO BEYOND THE THEORY

In addition to experienced academics, many lecture sessions are presented by senior health service managers from both public and private healthcare sectors. These include Chief Executive Officers, Directors (of Clinical Governance, Clinical Services, and Nursing) and Managers (of Clinical Services and Clinical Units) at local, state and national level.

The experience and expertise these industry experts share will help you to build on your theoretical learning and develop valuable skills and

knowledge that you can apply in a health services management role.

You will have access to industry networks and opportunities to build real relationships with a diverse range of colleagues.

Master's students apply their knowledge as they learn.

A Health Services Management master class

Master of Health Services MANAGEMENT AND PLANNING

uts.edu.au/course/c04246

UAC Course Code: 940811

UTS Course Code: C04246

Duration: 2 years full time
or 4 years part time

Location: City campus

Teaching Mode: Mix of online study
and on-campus master classes

Flexible exit and entry points:

Students can enter or exit this course at Graduate Diploma (8 subjects) or Graduate Certificate (4 subjects) stage, providing they meet the requirements of each degree.

Accreditation: Australian College of Health Service Management.

Entry requirements and how to apply: see page 16

As a comprehensive double degree, this course provides students with an in-depth knowledge of two fields, expanding the scope for future career opportunities. For more information on each major, see page 7–11.

The course content aims to develop skills in planning and evaluating health services, understanding health needs, and managing people, resources, systems, and processes within health services to meet the changing needs of communities, clinicians, governments and organisations.

This course is suited to health service planners and managers at all levels, from aspiring to experienced.

Assessments mirror tasks that a health service manager is expected to perform in a healthcare organisation. They are designed so that new or aspiring managers can apply new knowledge as it is learned and to allow experienced managers to implement changes and add value to their role.

Graduates are prepared for leadership roles in the strategic and operational management and/or planning of a wide range of health services and facilities.

SUBJECTS (PROVIDED AS SAMPLE PART-TIME STUDY PLAN)

YEAR 1	92638	FOUNDATIONS OF THE AUSTRALIAN HEALTHCARE SYSTEM
	92917	USING HEALTH CARE DATA FOR DECISION MAKING
	92603	MANAGING QUALITY, RISK AND COST IN HEALTH CARE
	92887	ORGANISATIONAL MANAGEMENT IN HEALTH CARE
YEAR 2	92296	EPIDEMIOLOGY AND POPULATION HEALTH
	92050	POLICY, POWER AND POLITICS IN HEALTH CARE
	21720	HUMAN RESOURCE MANAGEMENT
	92790	EVIDENCE BASED PRACTICE
YEAR 3	92297	HEALTH SYSTEMS AND CHANGE
	92847	PLANNING AND EVALUATING HEALTH SERVICES
	26703	INTRODUCTORY HEALTH ECONOMICS
	CBK90397	ELECTIVE
YEAR 4	92295	ADVANCED HEALTH SERVICES PLANNING
	CBK90397	ELECTIVE
	23787	HEALTH TECHNOLOGY ASSESSMENT

Recommended elective choices:

92946	PROJECT A (INDIVIDUAL RESEARCH PROJECT)
92947	PROJECT B (INDIVIDUAL RESEARCH PROJECT EXTENSION)
92612	RESEARCH IN HEALTH
15312	COMMUNICATION AND CRITICAL THINKING
15313	PROJECT PROCUREMENT AND RISK MANAGEMENT
15316	PROJECT MANAGEMENT KNOWLEDGE AREAS

For full subject descriptions, visit handbook.uts.edu.au/courses/c04246

ACADEMIC PROFILE

Peter Clout

Lecturer, Surveyor Australian Council on Healthcare Standards

“At UTS we focus on opportunities to expose students to national healthcare initiatives, models of care and organisational arrangements – so they understand the context in which they will be working.” Drawing on his experiences in various roles as a Director and Hospital Manager, Peter has lectured for several decades at Sydney’s leading universities, and the former NSW College of Nursing. Peter’s specialities include change management, human relations, quality and organisational dynamics including the role of power and politics.

MASTER OF HEALTH SERVICES MANAGEMENT

uts.edu.au/course/c04140

UAC Course Code: 940810

UTS Course Code: C04140

Duration: 1.5 years full time or 3 years part time

Location: City campus

Teaching Mode: Mix of online study and on-campus master classes

Flexible exit and entry points:

Students can enter or exit this course at Graduate Diploma (8 subjects) or Graduate Certificate (4 subjects) stage, providing they meet the requirements of each degree.

Accreditation: Australian College of Health Service Management.

Entry requirements and how to apply: see page 16

This course has been developed with leading health service managers to meet emerging needs of the health industry and to ensure that graduates are competent in the skills required to operate in this new information-driven environment.

This course equips students with a unique blend of health focused management and business skills. Subjects take into account current worldwide trends to innovate in the areas of access, efficiency, and effectiveness of health services, as well as the recently implemented Australian National Health Reform Agreement. This is essential as health service managers will be expected to

be familiar with new initiatives such as activity based funding and national performance measures and standards in order to improve transparency and accountability of health care delivery.

The course is ideal for new or aspiring managers who wish to pursue a career in this area or middle health service managers wishing to strengthen their skills and obtain a formal qualification.

SUBJECTS (PROVIDED AS SAMPLE PART-TIME STUDY PLAN)

YEAR 1	92638	FOUNDATIONS OF THE AUSTRALIAN HEALTHCARE SYSTEM
	92917	USING HEALTH CARE DATA FOR DECISION MAKING
	92603	MANAGING QUALITY, RISK AND COST IN HEALTH CARE
	92887	ORGANISATIONAL MANAGEMENT IN HEALTH CARE

Master of Health Services Management

CLINICAL LEADERSHIP

uts.edu.au/course/c04140

UAC Course Code: 940817

UTS Course Code: C04140

Duration: 1.5 years full time
or 3 years part time

Location: City campus

Teaching Mode: Mix of online study
and on-campus master classes

Flexible exit and entry points:

Students can enter or exit this course at Graduate Diploma (8 subjects) or Graduate Certificate (4 subjects) stage, providing they meet the requirements of each degree.

Accreditation: Australian College of Health Service Management.

Entry requirements and how to apply: see page 16

Increasingly recognised as a separate discipline, Clinical Leadership encompasses organisational and people management, governance and risk management, and safety and quality imperatives. It focuses on improving patient and organisational outcomes through minimising risk and implementing processes that increase efficiency and effectiveness, especially those around human factors and information management.

UTS has worked closely with our partners to take the best of safety and quality in healthcare principles and combine this with cutting edge content on health management, health informatics and risk management – especially in relation to human factors.

This degree is best suited for people who want to progress to the level of Director and/or manage a portfolio within a health service, particularly in the area of clinical governance.

SUBJECTS (PROVIDED AS SAMPLE PART-TIME STUDY PLAN)

YEAR 1	92638	FOUNDATIONS OF THE AUSTRALIAN HEALTHCARE SYSTEM

PARTNER PROFILE

Kathy Meleady

**Director, Commonwealth Programs, Australian Commission on Safety and Quality in Health Care
NSW Health**

"NSW and Queensland Health were pleased to propose the development of new health service planning courses and are supportive of UTS Health Services Planning Courses.

I believe it is crucial to invest in training a future workforce and UTS's Health Services Planning courses provide the theoretical, evidence-based basis for this, combined with practical input and understanding of contemporary health planning."

Master of Health Services Management

PLANNING

uts.edu.au/course/c04140

UAC Course Code: 940807

UTS Course Code: C04140

Duration: 1.5 years full time
or 3 years part time

Location: City campus

Teaching Mode: Mix of online study
and on-campus master classes

Flexible exit and entry points:

Students can enter or exit this course at Graduate Diploma (8 subjects) or Graduate Certificate (4 subjects) stage, providing they meet the requirements of each degree.

Accreditation: Australian College of Health Service Management.

Entry requirements and how to apply: see page 16

Health Services Planning is a niche, but critical role in health services as they evolve, expand and restructure. Health planners conduct needs analysis, develop goals and strategies, select appropriate interventions, and manage change in highly complex and robust environments. They are employed in health departments, local health networks and districts, or in private or corporate consultancy positions.

This course has been developed in consultation with senior planning staff from NSW and Queensland Health to ensure students are exposed to a variety of contemporary planning methodologies. It is the only degree level course in Australia that is taught by practising senior health planners.

It is ideal for experienced planners wishing to strengthen their skills or obtain formal qualifications, recently appointed planners who want to gain in depth knowledge, and those who are interested in pursuing a career in this area.

SUBJECTS (PROVIDED AS SAMPLE PART-TIME STUDY PLAN)

YEAR 1	92917	USING HEALTH CARE DATA FOR DECISION MAKING
	92603	MANAGING QUALITY, RISK AND COST IN HEALTH CARE

PROJECT MANAGEMENT

uts.edu.au/course/c04140

UAC Course Code: 940822

UTS Course Code: C04140

Duration: 1.5 years full time
or 3 years part time

Location: City campus

Teaching Mode: Mix of online study
and on-campus master classes

Flexible exit and entry points:

Students can enter or exit this course at Graduate Diploma (8 subjects) or Graduate Certificate (4 subjects) stage, providing they meet the requirements of each degree.

Accreditation: Australian College of Health Service Management.

Entry requirements and how to apply: see page 16

The Project Management major provides practice-based knowledge, skills and the tools necessary for delivering projects of differing types and sizes across all industry sectors. Subjects emulate real project environments, giving you the opportunity to directly develop your ability to manage real projects.

The major takes into account international Project Management trends with focus on areas of critical and system thinking, project complexity, program management, governance, reflective practice and leadership.

Subjects are delivered by international industry leaders and high-profile visiting academics in Project Management. The program was the first in Australia to be accredited by the Project Management

Institute's (PMI) Global Accreditation Centre and is accredited by the Royal Institution of Chartered Surveyors (RICS). It is endorsed by the Australian Institute of Project Management (AIPM), which is a member of the International Project Management Association (IPMA).

When combined with the Master of Health Services Management coursework, this major is designed for current or aspiring project officers and program managers in Health.

handbook.uts.edu.au/courses/c04140

Graduate Diploma

HEALTH SERVICES MANAGEMENT

uts.edu.au/course/c07048

UAC code: 940815

UTS course code: C07048

Duration: 1 year full-time
or 2 years part-time

Location: City campus

Teaching Mode: Mix of online study
and on-campus master classes

Further study opportunities: Graduates of this course can complete four further subjects to receive a Master of Health Services Management or eight further subjects to receive a Master of Health Services Management and Planning.

Accreditation: Australian College of Health Service Management.

Entry requirements and how to apply: see page 16

This course is designed to prepare aspiring, new and middle health managers for roles in health services management in a variety of settings. As an intermediate-level course it aims to enhance your capacity to manage health services and expand your knowledge and future career opportunities.

SUBJECTS (PROVIDED AS SAMPLE PART-TIME STUDY PLAN)

YEAR 1	92638	FOUNDATIONS OF THE AUSTRALIAN HEALTHCARE SYSTEM
	92917	USING HEALTH CARE DATA FOR DECISION MAKING
	92603	MANAGING QUALITY, RISK AND COST IN HEALTH CARE

handbook.uts.edu.au/courses/c07048

Graduate Certificate HEALTH SERVICES MANAGEMENT

uts.edu.au/course/c11107 (This course is not available to International Students)

UAC code: 940820

UTS course code: C11107

Duration: 1 year part time

Location: City campus

Teaching Mode: Mix of online study and on-campus master classes

Further study opportunities: Graduates of this course can complete four further subjects to receive a Graduate Diploma in Health Services Management or eight further subjects to receive a Master of Health Services Management.

Entry requirements and how to apply: see page 16

This course is an introduction to health services management and aims to expand students' knowledge and future career opportunities. The program develops students' knowledge and skills, which leads to an enhanced capacity to manage health services.

CORE SUBJECTS (MUST COMPLETE)

CORE	92638	FOUNDATIONS OF THE AUSTRALIAN HEALTH CARE SYSTEM

ACADEMIC PROFILE

Professor Christine Duffield
Director, Centre for Health Services Management

"UTS is internationally renowned for its strength in health services, nursing and midwifery research, and has recently expanded to incorporate offerings in public health in complementary medicine, sport and exercise science and cardiovascular and chronic care. We are committed to collaborative research that has a real impact on the health of communities, with a focus on innovative research that improves practice and informs policy. As a World Health Organisation Collaborating Centre for Nursing, Midwifery and Health Development, the Faculty is part of an international health care network and supports WHO objectives for global public health. Closer to home, UTS

Health academics have developed strong and ongoing research partnerships with a range of industries including sporting organisations and acute, sub-acute, community and aged care facilities. Students seeking to undertake a higher degree by research will have access to a range of exciting degree opportunities that integrate research and practice, preparing them for careers in industry, academia, teaching or management."

Professor Duffield is Australia's leading academic in the field of nursing workforce issues and planning.

RESEARCH DEGREES

Health Services and Practice has been named as an area of strength in the UTS research strategy. UTS' focus is on collaborative and interdisciplinary research; innovative technological approaches; commitment to researcher development and strengthening the relationship between research and teaching and learning. hsp.uts.edu.au

PhD

uts.edu.au/course/c02024

UTS course code: C02024

Duration: 4 years full time or 8 years part time

Entry requirements: A UTS recognised Masters (Research) or Bachelor's degree with first or second class honours (division 1), Master of Health Services Management in Health Research or an equivalent or higher qualification or work experience. Applicants are also required to submit a research proposal and have the agreement of a suitable supervisor at the time of application.

The Doctor of Philosophy is a research degree requiring an original and significant contribution to knowledge in a defined field of study. This can be through the writing of a thesis or through publication. This degree does not include a coursework component, though students are expected to attend research skills workshops as negotiated with their supervisor. To view the list of supervisors and their areas of research visit

uts.edu.au/research-and-teaching/future-researchers

For more information on admission requirements, scholarships and how to apply visit uts.edu.au/course/c02024

Master of Health Services (Research)

uts.edu.au/course/c03050

UTS course code: c03050

Duration: 2 years full time or 4 years part time

Entry requirements: A UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies. Applicants are also required to submit a research proposal and have the agreement of a suitable supervisor at the time of application.

A Masters by Research is designed for people who want to pursue a research career or investigate an area of interest but do not have previous qualifications or experience in research. These degrees do not include a coursework component, though students are expected to attend research skills workshops as negotiated with their supervisor. To view the list of supervisors and their areas of research visit

uts.edu.au/research-and-teaching/future-researchers

For more information on entry requirements, scholarships and how to apply visit uts.edu.au/course/c03050

ACADEMIC PROFILE

Elizabeth Sullivan
Associate Dean of Research

"At UTS Health, we aim to develop the research leaders of the future. As part of your research degree, you will have the opportunity to work with researchers who are recognised leaders in their fields."

UTS Health conducts innovative and impact driven research across a broad spectrum of health disciplines. Our research is

informed by a commitment to address health inequity through working in partnership with the health sector, industry, governments, practitioners and the community. The overarching objective of our research is to make real impact on the health of populations through research innovation.

HOW TO APPLY

Local applicants

How to apply

You can submit your applications for postgraduate coursework:

> In person at one of our Postgraduate Info Sessions

For more information visit:
health.uts.edu.au

> Online through the Universities Admissions Centre (UAC)
uac.edu.au or call 02 9752 0200

First semester closing dates:

First round – 31 October 2014

Second round* – 20 November 2014

Third round* – 20 January 2015

Second semester closing dates#:

Second semester closing dates#:

First round* – 30 May 2015

Second round* – 30 June 2015

Fees

For more information on postgraduate fees visit fees.uts.edu.au

FEE-HELP

FEE-HELP is a government loan scheme that assists eligible local students to pay their tuition fees.

For details visit: studyassist.gov.au

Using FEE-HELP means you do not have to pay your tuition fees up front. You can inform your employer that you have a FEE-HELP loan and they will withhold your payments through the PAYG tax system.

* Second and third round applications will only be accepted if places are still available

Not all postgraduate courses have a mid-year intake. Visit our website or contact us for more details.

For information about FEE-HELP please contact: Tel: 1800 020 108 or visit: studyassist.gov.au

If your postgraduate degree is related to your employment, your tuition fees may be tax deductible. For more information, contact your financial adviser or the Australian Tax Office (ATO) ato.gov.au

Scholarships

A range of scholarships are available to students who study with UTS: Health. Visit health.uts.edu.au for details.

International applicants

Please note this guide is not intended for International students and not all courses are available to international students.

Course information for international students is available in the relevant UTS: International Course Guide and online at: uts.edu.au/international/

Applicants who are not citizens or permanent residents of Australia or citizens of New Zealand must apply as international students directly through UTS International.

Locations

UTS: Health conducts its courses on two campuses. Both sites are equipped with modern clinical laboratories, excellent computing facilities, gymnasiums and offer sporting and cultural activities. Child care is available at both campuses.

The Kuring-gai campus is located on Sydney's North Shore at Lindfield offering a close community atmosphere in a peaceful bushland setting. There is parking on surrounding streets and a regular bus service to and from Lindfield railway station. Chatswood shopping centre is a short drive from the campus.

The City campus is a short walk from Central railway station and offers all the benefits of a vibrant inner-city location.

A free shuttle bus service operates between the two campuses.

Check the course summary information for course location details.

English language proficiency

If your previous studies were undertaken in an overseas country you may need to provide evidence of English proficiency.
