Work Phone: ________________________________

Mobile: ________________________________

Email: _____________________________________________________________

Why do we need this form?

The objective of this “Supplementary Form” is to enable the Faculty of Engineering and Information Technology to make a judgement regarding the suitability of an applicant for the course that they have chosen. Admission to the Honours program is not automatic. Your answers to the questions allow us to estimate the extent of your present formal and informal knowledge of information technology and help us advise you of the best course structure to undertake if you meet our entrance qualifications.
Admission to the Honours degree is assessed by the following criteria:

• 'Internal' students are those students eligible to graduate from an undergraduate degree in the Faculty (see below). For these students, the admission criteria are an average mark of 65% or higher and normally with no failures in the core subjects after the first year (fulltime) or Stages 1 and 2 (part-time) of the undergraduate degree;

• 'External' students are those students from another Faculty in the University, or from another university, with qualifications deemed to be equivalent to the Bachelor of Science in Information Technology. These students are considered for entry, subject to approval by the Program Leader, on the basis of their potential to complete the Honours degree.

(1) What are your main interests in undertaking an Honours program?
________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________

(2) What do you hope to achieve by doing this course?
___________________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________
___________________________________________________________________________________________

(3) Are you applying to study:
[ ] full-time (1 year of study)
[ ] part-time (2 years of study)?

(4) Please describe your bachelors degree:
• Name of Institution: ________________________________________________________________
• Name of Degree: _________________________________________________________________
• Grade of Award: _________________________________________________________________
  (eg: Distinction, Pass)
• Weighted Average Mark (WAM) _________________________________________________
• Year of Graduation _____________________________________________________________
  (Please note that you must provide a certified copy of your academic transcript).
5) The Faculty would like potential research students to identify an appropriate topic and supervisor(s). This is so we can ensure that there is appropriate expertise and facilities within the faculty to support your research work. Exploratory enquiries about potential research areas should be directed to the departmental coordinators who can suggest possible supervisors. A list of these can be found at:

**IT Honours course information:**
