learning.futures

UTS inspires graduate success by engaging students in creative learning that enables them to build strong professional identities, future-focused graduate capabilities and global citizenship.

learning.futures puts students at the centre of the learning experience and promotes innovation in learning by integrating the best of online and face-to-face experiences.

The learning.futures approach includes:

- implementing evidence-based good practice in teaching and learning that promotes interactive, engaging, personal learning experiences and authentic assessment.
- curriculum that integrates creativity, innovation and technologies to create engaging learning experiences for students.
- enabling students to leverage with new ideas before they come to class and so they may participate in active and collaborative learning.
- innovative learning spaces within the campus.
- promoting graduate workplace success through increased opportunities for web-integrated learning, internships and industry-driven learning outcomes.
