Study Abroad and Exchange: Introductory Subjects for Students with Electives

Come to UTS: Try some of our interesting areas of learning; have a great time in exciting cosmopolitan Sydney!!

Choose either three or four subjects to design your own program. Select from more than one faculty area or specialisation. The subjects below are beginner level and will give you the basics to inspire you on to further study.

What can I study?

- Study abroad is available:
  - February semester (Autumn, March – June) F
  - July semester (Spring, August – November) J
- Subjects are listed below by Subject Number and Name. The subjects listed below are either introductory or require relatively little prior background.
- For availability of subjects, check the timetable at http://timetable.uts.edu.au. Many subjects are offered in one semester only.

### Business
**Leisure, Sport and Tourism**
- Olympic Games and Mega Events
- Sport Tourism
- Sport and Exercise Psychology
- Sport Marketing
- Dimensions of Tourism
- The Tourist Experience
- Venue Management
- The Sport Industry
- Sport in the Global Marketplace
- Sport Management
- Strategic Management in Leisure, Sport and Tourism Organisations
- Tourism and Sustainability
- Tour Operator and Wholesaling Management

### Language and Culture
**International Studies**
- Foundations in International Studies

### Science
**Chemistry**
- Chemistry 1
- Principles of Forensic Science

**Physics and Advanced Materials**
- Introduction to Materials
- Physical Aspects of Nature
- Foundations of Physics
- Introduction to Materials

**Mathematical Sciences**
- Introduction to Quantitative Management
- Introduction to Linear Dynamical Systems
- Introduction to Statistics
- Mathematical Modelling 1
- Mathematical Modelling for Science
- Statistical Design and Analysis

**Medical and Molecular Biosciences**
- Cell Biology and Genetics
- Human Anatomy and Physiology
- Health and Homeostasis
- Introduction to Chinese Herbal Medicine
- Point Location and Acupuncture Anatomy
- Chinese Medicine Foundations 1

**Environmental Science**
- Biocomplexity
- The Biosphere
- Marine Geosciences
- Environmental Protection and Management
- Marine Primary Producers (extra cost: $1,000)

### Accounting
- Accounting for Business Decisions A

### Finance and Economics
- Economics for Business
- Fundamentals of Business Finance

### Management
- Integrating Business Perspectives
- Managing People and Organisations
- Human Resource Management
- Managing Strategic Performance
- Strategic Human Resource Management
- Management Skills
- The Global Context of Management
- Understanding Organisations: Theory and Practice
- Global Operations and Supply Chain Management
- Business Ethics and Sustainability
- Transnational Management
- Innovation and Entrepreneurship
- Management Consulting
- Strategy: Theory and Practice

### Marketing
- Marketing Foundations
- Business Statistics
Design, Architecture, Building

Design

Fashion and Textiles
83119 Thinking Fashion
83231 Fashion Cultures
83621 Studio: Foundations in Patternmaking and Construction 1
83622 Studio: Fashion Illustration Fundamentals 1

Integrated Product Design
84111 Understanding Three-dimensional Form
84116 Integrated Product Design Communications
88316 Furniture Context & Language
88416 Furniture Production & Materials
88516 Furniture Industry & Development
88000 Object & Accessory Design 1: Foundations
88002 Object & Accessory Design 2: The Cast Object

Design History and Theory
85502 Researching Design History
85503 Design Thinking

Interior and Spatial Design
86008 Context: Image and Making (Representation)
86004 Design Studio: Foundations in Spatial Language

Visual Communication
87100 VC Project: Ways of Seeing
87222 VC Project: Symbols and Systems
88305 Photography 1: Documentation
88805 Introduction to Photography
88308 Introduction to Design for 2D Animation

Architecture
11212 Architectural History and Theory: Orientations
11216 Architectural History and Theory: Modernity and Modernism
11205 Architecture Culture and Environment

Built Environment
16103 Materials Science
16109 Construction Technology 1
16127 Building Technology
16137 Digital Built Environment
16234 Valuation Methods
16266 Sustainable Urban Design and Development
16267 Property Title and Spatial Data Analysis
16466 Built Environment Economics
16467 Built Environment Law
16468 Introduction to the Built Environment

Engineering

Introductory Subjects
48230 Engineering Communication

Civil / Civil and Environmental
48310 Introduction to Civil Engineering
48320 Surveying

Electrical Engineering
48510 Introduction to Electrical Engineering

ICT Engineering
48410 Introduction to ICT Engineering

Innovation
48080 Introduction to Innovation

Mechanical / Mechanical and Mechatronic Engineering
48610 Introduction to Mechanical and Mechatronic Engineering

Information Technology

Introductory Subjects
31265 1 Communication for IT Professionals
31266 1 Introduction to Information Systems
48023 1 Programming Fundamentals (Java)
31268 1 Web Systems
31270 1 Networking Essentials (CCNA1)
