How to Search Subjects on UTS Handbook

The UTS Handbook allows you to access the list of subjects available at UTS. Please follow the steps below to research UTS subjects for your study plan.

2. Under “Manage your course”, click “UTS Handbook”
3. Click on the study area. In the example below, Science is selected.

4. Click “Subjects” to obtain a list of subjects offered by Faculty.
5. Click on the subject code. In the example below, 65212 Chemistry 2 is selected.

6. Click “Detailed subject description” to obtain additional information including assessment tasks.

This detailed subject description can be printed and forwarded to an academic advisor at your home University for study approval.

For More Information

If you have questions about subject selection at UTS, please contact the Study Abroad and Exchange team at UTS International.
