

UTS Prize Conditions of Award

CSL Transfusion Science Essay / Debate Prize

Faculty: Science

This document sets out the conditions of award for the below prize ('Prize') and the obligations of recipients ('Recipient') and UTS in regards to this Prize. The administrative processes to support awarding this Prize will be managed, and may be amended, in accordance with UTS Rules, Policy and Procedures.

1. PRIZE NAME: CSL Transfusion Science Essay / Debate Prize

2. PURPOSE

This was established in 2002 to award the student who obtains the highest weighted average mark for the essay component on completion of the subject 91129 Transfusion Science.

3. VALUE AND BENEFIT

3.1 Number of Recipients:

One (1) Recipient will be awarded the Prize per year.

3.2 Benefit/s to Recipient:

The value of the Prize to the Recipient is \$500, and is comprised of a cash award for the purpose of attending the annual National Immunohaematology Continuing Education meeting.

3.3 Payment of benefit/s:

- The Recipient will receive one payment of \$500 by electronic funds transfer to his/her nominated bank account.
- A certificate of award will be presented to the Recipient at the Science Scholarship and Prize Giving Ceremony.

4. ELIGIBILITY CRITERIA

The Recipient must:

- be enrolled in a Science degree course in the year for which the award is made; and
- receive a result in the subject 91129 Transfusion Science in the year for which the award is made; and
- not have had any prior results in this subject.

5. RECIPIENT SELECTION CRITERIA, IN PRIORITY ORDER

- The highest overall mark awarded for the essay/debate assessment in the subject 91129 Transfusion Science.
- In the event that two or more eligible students have the same highest mark, the following criteria will be considered:
 - Performance in subject 91129 Transfusion Science outside of formal assessment that demonstrates mastery of and engagement in the subject;
 - Overall academic performance in the student's award course, including GPA, whether the student has failed other subjects, received academic cautions or had a finding of misconduct made against them.

6. SELECTION

- The Recipient with the highest weighted average mark will be identified according to the eligibility and recipient selection criteria as provided in clauses 4 and 5;

- In the event that two or more eligible students have the same highest final mark, a selection committee chaired by the Dean (or nominee) together with a minimum of two (2) people will select a recipient based on the specified selection criteria in clause 5;
- The nominated Recipient will then be formally approved or declined by Faculty of Science based upon the selection criteria in clauses 5 and 7.

7. OTHER CONDITIONS

The Faculty of Science may decline to offer the award to a Recipient who achieves the highest weighted average mark where the WAM is less than 75D.
